

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

I shrink not, however, from the responsibility, because I anticipate and repose upon the courtesy and genial support with which the Senate has uniformly and cheerfully sustained its presiding officer.

Be pleased, therefore, gentlemen, to accept my grateful acknowledgment of the honor you have conferred upon me, and receive with it the hearty assurance that it will be my purpose and my pride to discharge my duties with fidelity and impartial integrity.

Allow me to express the hope that the session upon which we are entering will be characterized by industry, harmony, wise legislation, and, above all, by such a marked devotion to the Union, that our young State shall help to reproduce, in these days of discord, that fraternal spirit of "amity, mutual deference, and concession," in which the Government of the Union was established, and by which alone it can be kept from utter dissolution.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, January 7, 1861. }

Gentlemen of the Senate and Assembly:

In obedience to the requirements of our State Constitution, it becomes my duty to lay before you the condition of the State.

During the past year, peace and unexampled prosperity have blessed us as a people; and while the citizens of our sister States have had to complain of visitations of drouth, scarcity, and intestine troubles, an unprecedented abundance has crowned the labors of the husbandman—our mines continue to be the admiration of the world, and our wine and pastoral capabilities have attracted hither the enterprise and skill of the older States, and even European capital and labor—our mixed population have yielded a willing and cheerful obedience to the laws, crime has decreased, and the decrees of our courts are respected and enforced; public confidence in the different departments of the government exists, of which the oldest commonwealth in the Union might well feel proud. The extravagance, bad management, and dishonesty, of former years have created an indebtedness of over four millions of dollars, for which we have nothing to show, save an unfinished State Prison and an incomplete and indifferent building for the insane patients of the State. No railroads built—no canals constructed—no capitol or seminary of learning erected—no equivalent to be found for this vast public incumbrance. A brighter day appears to be dawning upon us; we are reducing our expenditures to our income; the interest upon our bonds is promptly paid, and a large sinking fund annually created for the redemption of the same; our securities are sought for by the capitalist as an investment inferior to

none in the American Union; all of which augur well for our future stability and material prosperity.

REPORTS.

The annual reports of the Secretary of State, the Treasurer, Controller, Attorney-General, and Surveyor-General, are herewith transmitted. They will be found to contain much valuable information, and reflect much credit upon the heads of the different departments from which they emanate.

FINANCE.

For the financial condition of the State, your attention is called to the able report of our worthy and efficient State Treasurer. The total receipts from the fifteenth of December, eighteen hundred and fifty-nine, to the fifteenth of December, eighteen hundred and sixty, inclusive, amount to one million five hundred and eight thousand six hundred and ninety-eight dollars and sixty-five cents. The amount of expenditures during the same period, were one million four hundred and twenty-two thousand and forty-two dollars and twenty-one cents, showing a balance of receipts over expenditures, during the same period, of eighty-six thousand six hundred and fifty-six dollars and forty-four cents; add to which the sum of five hundred and fifty-six thousand six hundred and eighty-one dollars and eighty-five cents, which was the balance in the treasury on December fifteenth, eighteen hundred and fifty-nine, and we have the aggregate of cash in the treasury at the close of business, December fifteenth, eighteen hundred and sixty, amounting to the sum of six hundred and forty-three thousand three hundred and thirty-eight dollars and twenty-nine cents. In order to show the increase of receipts for the past year over the previous year, ending December fifteenth, eighteen hundred and fifty-nine, which increase amounts to the sum of three hundred and thirteen thousand two hundred and fifty-seven dollars and ninety-two cents, it will only be necessary to state that the total receipts for the year eighteen hundred and fifty-nine was one million one hundred and ninety-five thousand four hundred and forty dollars and seventy-three cents.

From our increased receipts for the past year, it would be reasonable to expect a larger cash balance now on hand, but the extraordinary calls made upon the treasury to meet demands suffered to accumulate during the administrations of my predecessors, under a ruinous contract for the support and maintenance of the State Prison, and expensive Indian wars, will readily account for this increased expenditures of the past year. Neither should it be forgotten that extraordinary demands upon the treasury have been made in consequence of the commencement of our State Capitol, the State Reform School, at Marysville, the Deaf, Dumb, and Blind Asylum, at San Francisco, the increased donations to the Orphan Asylums and other objects of charity, the Boundary Survey, the Geological Survey, and the increased appropriation for the Insane Asylum, all of which are laudable and legitimate objects for which to appropriate money, provided our financial condition will justify it. But we should be just before we are generous, and provide the means before we appropriate for objects, no matter how laudable. And in this connection I should not omit to state that our public debt has been diminished by the redemption and cancellation of bonds to the amount of sixty-one thousand dollars during the past year.

The assessed value of real and personal property of the State amount

to the sum of one hundred and forty-eight millions of dollars only, it is plain then to perceive that it will not do for us to embark in undertakings which have required the wisdom and accumulated wealth of centuries to accomplish in other communities. In connection with this subject I deem it not inappropriate to suggest that it is a wise policy to make no appropriations unless money may be reasonably expected in the treasury to meet them. The experience of the past dictates the necessity of this policy.

EQUITABLE INDEBTEDNESS.

That portion of our equitable indebtedness remaining unfunded was submitted to the voters of the State for their sanction or rejection, and the result has shown that they have ratified it by a singular unanimity. While the Constitution of our State wisely restricts the Legislature from creating an indebtedness, which singly, or in the aggregate, shall exceed three hundred thousand dollars, without first submitting it for ratification or rejection to the voters of the State, unbridled license has been extended to the creatures of the Legislature, the cities and counties of the State; and to such an alarming extent has this been carried, that our people in the short period of eleven years are burdened with an indebtedness ruinous to the prosperity and interest of the whole State. I have taken the pains to ascertain to what extent this system has been carried, and the result shows that the local indebtedness of the counties and cities approximates ten millions of dollars. Like the State, they have but little to show for this vast expenditure. Is it not, in a measure, the result of the reckless extravagance, incident to a new condition of things, in the formation of a new State, and high salaries and fees?

CONTROLLER'S REPORT.

The Controller's Report contains much valuable information, and shows in detail the condition of the various funds, and the financial resources of the State. I commend it, with the suggestions, to your careful consideration.

ATTORNEY-GENERAL'S REPORT.

In the suggestions made by the Attorney-General in relation to the codification or revision of our laws, I fully concur, and trust that you will take early action to secure that end.

The reference made by that officer to difficulties arising under our new Revenue Act, reminds me that many of them were anticipated by the friends of the measure, but it is hoped, when its provisions are understood by Assessors and Collectors, that it will be found efficient. It is certainly an improvement upon our former revenue law, and should be fairly tested before it is condemned. Make it general in its operations in all the counties. Changes only tend to confuse and embarrass the collection of the State and County revenues. Under the operations of this bill, the assessed value of real and personal property in the State has been increased seventeen millions as compared with the corresponding period of last year, while many and important branches of industry and species of personal property have decreased fifty per cent. With a few amendments that will doubtless be suggested by the Committee of Ways and Means, it will, I trust, meet the expectations of its many friends, and prove beneficial to the State.

I would in this connection recommend that the two hundred and forty-sixth section of the "Act to regulate Proceedings in Civil Cases," approved April twenty-eighth, eighteen hundred and sixty, be amended.

The first line contains the word "no" before the word "action," which renders the whole sentence nugatory. It is either the fault of the Enrolling Clerk or Printer, and should be corrected promptly.

SURVEYOR-GENERAL'S REPORT.

There is much valuable information contained in this report, to which I invoke your attention. This officer has devoted much time and labor to the subject of our swamp and overflowed lands. Through the liberality of the General Government, we have become the possessors of a rich inheritance in these lands, and from the receipts into our treasury from this source in the last two years, you cannot fail to be impressed with the importance of this interest. From the nature of this subject, it has become the peculiar province of the Surveyor-General to supervise this branch of our public wealth. I may say, he has made it a specialty, and his suggestions are, therefore, entitled to consideration at the hands of the Legislature.

The modification of the law limiting the frontage on navigable streams should be promptly made. Measures for a complete segregation of the public lands of the State from the lands of the Federal Government should be adopted; and for the benefit and protection of those who have purchased from the State, I would recommend a joint resolution be adopted, instructing and requesting our delegation in Congress to use their influence to have so much of these lands as are offered for sale by the proclamation of the President withdrawn from market. The evils predicted by the Surveyor-General to the purchasers from the State must ensue unless remedied, and certainly the State, after having sold and received an equivalent, will be bound to protect the purchaser.

STATE PRISON.

Under the act appointing a Board of Commissioners to compromise and settle with J. F. McCauley and Lloyd Tevis, assignees of James M. Estill, deceased, all claims against the State of California held by them, or either of them, and arising out of, or in any manner connected with, the contract made on the twenty-sixth of March, eighteen hundred and fifty-six, between the State of California and the said James M. Estill, for a lease of the State Prison and convict labor for the term of five years, the said Commissioners did, on the eleventh day of August last, settle and compromise with said assignees for the sum of two hundred and seventy-five thousand dollars, in accordance with the provisions of said Act, as will be set forth in detail in the report of the Commissioners, on which day the prison and its inmates virtually passed into the possession of the State, and came under the control of the State Prison Directors.

I deem it proper here to state that the negotiations were prolonged beyond the time contemplated by the Legislature, for the settlement of this vexed question. The Supreme Court had rendered its final judgment in favor of the assignees. It was found by the Commissioners, that a settlement could not be effected for the amount appropriated by the Legislature. As the law contemplated a settlement would be made on the eleventh day of May at the latest, the Sub-Lessee had to maintain the prison for three months additional, and as a consequence, a final proposition for settlement was made by the assignees, that as a condition, McCauley should have the labor and prison for two months, to effect the removal of his property, and receive for the maintenance of the prison, from the State, the sum of ten thousand dollars per month, to which final proposition the Commissioners deemed it advisable to accede. The re-

sult was, that on the eleventh day of October last, the prison, convicts, and property of the State, passed absolutely into the possession of the State Prison Directors. Of the management of the institution since that period, the report of the Directors will advise you at length, and will be laid before you in due time, as required by law. I will only add that it is now being conducted economically; the condition of the prisoners is vastly improved; the trusty system is done away with; and, I trust, that with your aid, before the expiration of my official term, I will be able to demonstrate, by practical results, that under the management of the State, the institution will approximate a self-sustaining basis. When we reflect that this establishment, since eighteen hundred and fifty-two, has cost the State the sum of one million one hundred and sixty-four thousand six hundred and seventy-two dollars and forty cents, it is devoutly to be hoped that the period has arrived when it will cease to be this terrible incubus upon the tax payers of the State, and that you will in your wisdom, devise the means and manner of employing the convicts to such an advantage as to make those who violate the laws of society, defray the expenses of their own government and correction. In my opinion there should be none sent there for a term less than three years; and if it be consistent with our Constitution, all cases involving a penitentiary offense should be tried by the District Judge. Convicts are now sent for terms as short as three months, and it would appear as though they are sent for the purpose of getting rid of them as county charges, and to create mileage for those conducting them to the prison; again, the mileage system should be abolished, and actual expenses only allowed, properly vouched for under oath. I earnestly recommend a reformation in this respect to your consideration.

While a branch prison may at some future day be necessary, the State is not now in a condition to undertake a work of this kind. It would require as many officers and guards to protect and safely keep a hundred prisoners as it does the five hundred and fifty-two now at San Quentin.

A small appropriation should be made to enable the Directors to commence some branches of industry at the prison, so as to enable them to make the institution in a measure support itself, and prepare the convict to be in a condition at the expiration of his sentence to re-enter society with the means of earning an honest livelihood. Should the condition of our finances prevent an appropriation of this kind, the Directors should be empowered to lease the labor to private parties, the State retaining the control of the prison, its police regulations, guarding, feeding, and clothing. I would most seriously object ever again to allow the prison or its management to pass out of the exclusive control of the State.

STATE INSANE ASYLUM.

The report in detail of the Trustees of this institution is herewith transmitted.

Although not required by law, I visited the Asylum, and am pleased to be able to testify to the good management and humane treatment of the unfortunate inmates. The maintenance of this necessary establishment has become onerous to the State, having required appropriations, including the salaries of the Resident and Visiting Physicians, of ninety-three thousand dollars for the present year.

I am satisfied from my own observations that the suggestions made by the Resident Physician are but too true, in that there are many sent to this institution who are not fit subjects for an Insane Asylum. I am satisfied there are many inmates who are now a burden upon the State who

have property in the possession of relatives and friends. This is a glaring injustice, and the law of commitment should be exceedingly stringent, and thorough investigation should be had by the committing judge as to the ability of the patient to pay.

The Insane Asylum of South Carolina has always maintained itself on this principle, others have approximated it; and I do not see why in this State, when parties are able to pay for their relatives and wards, they should not be compelled to do so, and that liberally. This subject from its magnitude requires a thorough investigation.

STATE REFORM SCHOOL.

There has been expended about twelve thousand dollars of the appropriation of thirty thousand dollars "for the building of a State Reform School, near the city of Marysville," approved April eighteenth, eighteen hundred and sixty. I regret to state that but small progress has been made towards the erection of the building. The Board of Trustees elected by a Joint Convention of the two Houses of the Legislature, organized, and as provided by the law, I appointed one of their number Superintendent. This act terminated my jurisdiction over that body. Since then they have elected another of their own number Secretary, and the remaining one, Architect, thus making the institution complete within itself and secure from all extraneous influences. I have learned little of their transactions save the auditing of their salaries. I predict the undertaking a failure, and regret having given the measure my official sanction.

I would recommend a repeal of the law, and that a separate department within the walls of the present State Prison be set apart for this class of offenders. They can be kept entirely separate and apart, and without the sight and influence of the more hardened criminals. They can be taught the various branches of industry, and be fitted, when reformed, to become useful to society. A building for this purpose can be erected by prison labor, with comparatively little expense to the State; the same officers and guards necessary to the prison can take care of these youthful offenders, and the only additional expense the State need incur will be that of teachers. I trust you will agree with me in the proposed change. The report of the Trustees is herewith submitted.

It was supposed that a building sufficient to accommodate eighty boys, as contemplated by the act, would be erected and completed during the past year. The Trustees intimated to Mr. J. C. Pelton that he would be selected to superintend the instruction of these youths. With this understanding, Mr. Pelton applied to me for recommendatory letters to institutions of similar character in the Atlantic States, which he visited for the purpose of obtaining such information as would enable him to enter upon the discharge of this duty with practical intelligence. It is but justice to this gentleman to state that the object of his visit has been successfully accomplished, and that he brings as voluntary contributions in aid of the school, a valuable library collected during his visit to the Atlantic States.

CHARITABLE INSTITUTIONS.

Through the liberality of the last Legislature, appropriations were made for the following charitable associations, to wit: "The Society for Destitute Females of California," the sum of five thousand dollars; the "Roman Catholic Orphan Asylum of San Francisco," the sum of six thousand dollars; the "Protestant Orphan Asylum of San Francisco," the sum of six thousand dollars; the "Roman Catholic Orphan Asylum

of Los Angeles," the sum of one thousand dollars; the "Ladies Protection and Relief Society of San Francisco," the sum of five thousand dollars—amounting, in the aggregate, to the sum of twenty-three thousand dollars, all of which have been drawn from the treasury. From the reports of the Trustees having the conduct of these several institutions, herewith transmitted, you will learn of the beneficial results of the same. I am fully impressed with the sound policy of making these donations, when the condition of the treasury will permit, and have every reason to believe that the money has been expended in a praiseworthy and judicious manner.

In addition to the above, the appropriation for the care and education of the Deaf, Dumb, and Blind, amounting to the sum of ten thousand dollars, has nearly all been drawn out of the treasury, and from the well known character of the gentlemen having the same in charge, the most satisfactory and economical expenditure of the money can with certainty be relied upon. For the details of the operations of the institution, I respectfully refer you to the report of the Trustees.

STATE CAPITOL.

By virtue of the Act providing for the construction and location of the State Capitol in the city of Sacramento, the Commissioners adopted plans and specifications, in accordance with which they advertised for proposals to build the first section of the work, comprising the foundation and basement story, notifying bidders that the Commissioners were not authorized to contract for an amount of work to exceed the sum of one hundred thousand dollars. These bids were opened in the Assembly Chamber, in the presence of the competitors and citizens, and the contract awarded to the lowest responsible bidder at eighty thousand dollars, upon his filing satisfactory bonds for the performance of the work, in accordance therewith. The work is now progressing, and I am assured by the Contractor, that he will have completed this portion of the work within the time limited, (ten months.)

By careful calculations made by the Architect in accordance with the plans and specifications, it is represented that the whole can be completed within the contemplated appropriation. It would be well to amend the law, so as to allow the Commissioners to contract for the whole balance of the work at once, payable in installments, as is now required by the present Act; I am sure, that economy to the State will thereby be secured. I would also recommend that enlarged powers be conferred on the Commissioners, not limiting them to the lowest bidder, but giving them the power to select upon exercising a sound discretion.

The plans and specifications, together with the contract, etc. are on file in the office of the Secretary of State, for your inspection.

GEOLOGICAL SURVEY.

Under the act of the last session, providing for a geological survey of the State, it affords me much pleasure to be able to inform you that the officer having charge of this duty has organized his corps and entered upon the discharge of that important survey. I trust, that I will be able to lay before you, ere the close of the session, a report of the progress of his investigations, and hope that appropriations will be made so as to secure the continuance of an undertaking that cannot fail to redound to the benefit of the State, and the advancement of science.

EASTERN BOUNDARY OF THE STATE.

The Act of eighteen hundred and fifty-nine authorized the Executive

to appoint a suitable person on the part of the State to act in conjunction with a Commissioner, to be appointed on the part of the United States, to ascertain and mark the eastern boundary line, dividing this State from the Territories of the United States. This Act was repealed last Winter. The General Government not being aware of the repeal of the Act, and believing that it was still in force, sent the Commissioner on its part, and requested me to designate the Commissioner to act for California. But not conceiving it to be the duty of the Governor to assume powers not conferred by law, I declined making such appointment until the representatives of the people, by further legislation, indicated their wishes on the subject. The importance of having such boundary clearly established at as early a day as possible, must be manifest to all. The Commission on the part of the United States, in full force, is now in the field, and I trust that you will, at the earliest day practicable, provide for the legal co-operation on the part of California, in a work so much needed.

The operations of the Surveyor-General, in ascertaining that portion of the line contemplated by the Act of 1860, will no doubt be reported in detail to the Legislature by that officer. Of the results accomplished I have no information, as the Act makes it his duty to report to the Legislature directly.

CONSTITUTIONAL CONVENTION.

For the third time in the short history of our State, your predecessors deemed it advisable to submit the question of revising our Constitution to a vote of the people, and for the third time has it been defeated, plainly showing that the people are satisfied with our Organic Act. At the recent election, the friends of revision resorted to every expedient to secure a favorable result; political conventions issued their mandates to the local committees to print the words "For a Convention" on their tickets; and, notwithstanding these expedients, the people have repudiated the idea of a change.

I trust that the good sense and intelligence of the people will not again be questioned by forcing this subject upon them, which has been sealed so often by public condemnation. Our present Constitution is a good one in the main, and with a few amendments, which can be made in accordance with the provisions of that instrument itself, we will continue to prosper and progress under our present Constitution, as we have done since our organization as a State. We are just beginning to feel the beneficial results of the wise restrictions contained in that instrument, the Courts have construed its meaning and provisions—stability and confidence is being established. To make a radical change at this time, would be setting us adrift on an ocean of uncertainty. Banks might be inaugurated; a wholesale system of internal improvements attempted, if not consummated, and our present specie currency might be supplanted by the circulation of worthless paper, giving rise to temporary prosperity, to be periodically followed by general prostration.

I would recommend that amendments be submitted for the ratification of the people. This can be done without expense to the public treasury. Among the amendments, those suggested to my mind as useful, would be the addition of two more Judges to the Supreme Bench. The amount of labor now before the Supreme Court is certainly too onerous for three Judges; and in order that full justice should be given to the various and novel questions that are constantly brought before the Court, five Judges at least are required.

It might be well to consider the propriety of abolishing the personal Biennial sessions of the State Legislature, limiting the same to not longer than sixty days, would also be a great improvement.

liability clause relating to corporations, in the thirty-sixth section of the fourth article of the Constitution; as a material result, we could then establish our own insurance companies, etc.; and why may they not be established on as firm and safe a basis as that of the foreign companies our people have long been, and now are, patronizing, and to which a sum amounting to nearly one million and a half of dollars is annually paid? This enormous amount of money could thus be saved to the State, by removing this personal liability clause, and so much more capital be used in developing the resources of our own State, and to help enrich our people. Many methods, other than this personal liability clause, will readily suggest themselves to the Legislature as a means of protection against abuses.

It has been represented to me, from a source entitled to great respect, that the litigation in mining cases would seem to demand that the jurisdiction of Justices of the Peace in those cases be increased. The cost and expenses of taking miners as witnesses to the county seat, often a distance of many miles, works a great hardship. This could be avoided by simply empowering the Justices of the Peace, in mining cases, to have increased jurisdiction to the extent of five hundred dollars. I respectfully suggest, that if deemed advisable, you would submit an amendment to that effect.

PARDONS.

A list of the persons pardoned and restored to citizenship during the last year, with the reasons therefor, will be laid before you, as required by law

I have found it necessary and compatible with justice, to exercise this prerogative to a very limited extent during the past year. I can assure you that this power, conferred by our State Constitution on the Executive, will not be abused by me, but exercised with due caution and discretion—not for the purpose of thwarting justice, but to aid and assist it when the remedy shall have passed without the control of the proper tribunals.

STAMP ACT.

The law of last session amending this portion of our Revenue Act has not proved advantageous. The revenue from this source for the six months ending May thirty-first, eighteen hundred and sixty, was seventy thousand seven hundred and sixty dollars and fifty-one cents. The amount received for the six months ending November thirtieth, eighteen hundred and sixty, was sixty-six thousand two hundred and fifteen dollars and eighty-five cents, showing a falling off under the amended Act for that period, of four thousand five hundred and forty-four dollars and sixty-six cents. The expenses during the six months ending May thirty-first, one thousand eight hundred and sixty, was three hundred dollars, while the expenses during the six months ending November thirtieth, eighteen hundred and sixty, amounted to the sum of fourteen hundred and twenty-six dollars and thirty-three cents, making an excess of expenditures for the last six months over the previous, of eleven hundred and twenty-six dollars and thirty-three cents. It will thus be seen that the revenue has fallen off under the operation of the new law very considerably, while the expenses have been materially increased. It is evident to my mind that the law should be amended and a remedy provided.

PROTECTION OF IMMIGRANTS.

Under the provisions of "An Act to afford Protection to Immigrants to California," approved March fourteenth, eighteen hundred and sixty, I appointed Mr. Charles Dickinson the Commissioner on the part of the State to reside in the city of New York, who at once entered upon the discharge of his duties, and through his efforts the frauds heretofore practiced upon the unsuspecting passengers to this State by dealers in fraudulent tickets, have been in a great measure, if not effectually stopped. By his vigilance, several of the guilty parties have been brought to justice, and are now suffering the penalty of their offense in the prisons of that State. He is required to report to the Secretary of State, and I presume the statistical information required of him by the law will be found on file in that office for your information.

WASHINGTON MONUMENT.

The amount appropriated to the Washington Monument Fund, (one thousand dollars,) by the last Legislature, has been by me transmitted to the Treasurer of that association.

The people of our State have been liberal in their contributions to this fund. At the last general election, an amount reaching to nearly eleven thousand dollars is acknowledged to have been received by the agent residing in this State, on that day alone, thus showing that our people have contributed a full proportion to the expense of this very laudable object.

WASHOE MINES.

The extraordinary developments of the mineral resources of this region have attracted to that portion of Utah Territory immediately bordering upon our most populous mining counties, many thousands of our citizens. The population of that interesting section, from the best information that I can obtain, are anxious to be annexed to California. The great mass of the population of Utah reside in the region of the Great Salt Lake, and they also, as I am informed, are willing to allow this separation to take place.

I would therefore recommend, before our eastern boundary is finally surveyed, that Congress be memorialized to allow California to extend her eastern boundary to the one hundred and eighteenth degree of longitude west from Greenwich. This would embrace the silver region of Utah, add to our material wealth, and bring within the jurisdiction of our own State thousands of citizens whose interests, sympathy, and attachments, are purely Californian.

CARSON VALLEY WAR.

While engaged on official duty at the State Prison, in the month of May last, intelligence was brought me of serious Indian outbreaks having occurred in Carson Valley, in which some of the most distinguished citizens of this State had been slain. I was called upon for relief, and although without the boundary of the State, and not within my official jurisdiction, I nevertheless considered it due to our own citizens, who composed nearly the entire population of that district of country, as well as the dictates of humanity, and the common ties that bind us together as one people, to render them all the aid in my power, which I promptly did, having a due regard to economy.

I deem it proper here to state, that the demands were for arms and ammunition only, not for men. The arms belonging to the State were

promptly delivered to the citizens of the city of Sacramento, who evinced their patriotism and liberality by voluntarily contributing the sum of two thousand dollars to defray the expenses of their prompt transmission by an escort of her citizens.

I called upon the late General Newman S. Clark, Commanding the Pacific Division of the United States Army, for five hundred stand of rifles, and one hundred thousand rounds of ammunition, which were at once provided by that distinguished soldier, I assuming the responsibility of their return or their equivalent. The late Major-General Joshua P. Haven, of the second Division of California Militia, and Col. C. W. Tozer, one of my Aids, volunteered their services for the transmission of these arms to Carson Valley, and it affords me pleasure to testify to the celerity and efficiency in which that important trust was discharged by those officers.

Subsequently the officer in command of the Benicia Arsenal, in consequence of orders received by him from the Secretary of War, made a demand upon me for the return of these arms and accoutrements. I caused to be collected and returned to the Arsenal at Benicia, three hundred and seventy-seven rifles and accoutrements, and eighty thousand rounds of ammunition. Upon representations of the urgent necessity therefor, I loaned for the protection of the Pony Express, to the Agent of the company, forty-six rifles, to be returned when needed. Sixty rifles are deposited with the United States Marshal of Utah Territory, and will, no doubt, soon be received and returned to the Benicia Arsenal, thus leaving only seventeen rifles to be accounted for. As I became personally responsible for these arms, I trust you will take such action as you deem meet for my protection.

I trust that appropriations will be made to meet the small indebtedness that was necessarily incurred, and for the payment of which the faith and honor of the State stands pledged; from the best information I can obtain in relation to these expenditures, the amount is comparatively trifling.

I feel injustice would be done, were I not to mention the noble conduct of the Sierra Battalion. Upon my demand this corps forwarded the arms and ammunition in their possession, and I am informed by an officer of the battalion that they have made no charge to the State whatever.

Tenders of service from half the volunteer force of the State were promptly made to me for this emergency, and although declined, I deem it but a just tribute to their gallantry as soldiers and patriotism as citizens, to thus acknowledge their devotion to the State and humanity.

INDIANS.

It affords me infinite satisfaction to be able to state, that troops have not been called out by the State for the suppression of Indian hostilities within our boundaries—hence, a very onerous tax upon the treasury has been avoided, and one, too, that for previous years has been keenly felt. It is true that representations for the necessity of calling out troops have been made me, but from the best information I could obtain from the United States Commander, whose duty it was to suppress disturbances of this character, I was satisfied that the representations so made were exaggerated, and that the Federal troops in the immediate vicinity were amply sufficient for the protection of our citizens.

With the testimony, taken by the Investigating Committee appointed by the last Legislature, on this subject before me, and information obtained from other reliable sources, I could but see, in too many of these forays, the indiscriminate slaughter of defenseless women and children.

The representatives of the Federal Government having in many instances failed, perhaps through inability, to provide for the necessities of these tribes, the encroachments of the white man and his numerous herds having driven them from their hunting grounds, it was not unnatural that in their want and destitution they should have made reprisals on the stock of our citizens; I cannot learn that their offenses extend much if anything beyond this.

The near proximity of savage tribes to the rapidly-advancing frontier of the white settlements, makes the whole subject one of great difficulty, and one that addresses itself to our forbearance and humanity. I have every assurance from the gallant officer now in command of the Federal forces on this coast, that the force at his disposal will be equal to any emergency on this subject, thereby relieving the State from this embarrassing and expensive responsibility.

ABOLITION OF FEES.

To meet the interest on indebtedness and keep pace with extravagant fees, the people are groaning under grievous and onerous taxation, in some counties amounting to four and five per cent. per annum upon the valuation of their property. Unless you, in your wisdom, stop at once this system, men of means will seek some other State or country, where their industry and capital will not be sapped by ruinous taxation. I would suggest the abolition of fees, and instead, the enactment of a salaried system in every county in the State. It has been tried in San Francisco, under the operations of the Consolidation Act, passed in eighteen hundred and fifty-six, and has reduced the expenditures of that city and county more than fifty per cent., and secured a city government unequaled for efficiency and, perhaps, unparalleled now in the Union. Why not, then, with this example before us, grant the same relief to other counties? I cannot see what justice there is in a County Clerk, Sheriff, or Tax Collector, getting emoluments amounting to from ten to thirty thousand dollars per annum, while our Chief Justice and Chief Magistrate get but six thousand dollars per annum.

The Tax Collector receives the taxes from the hands of our property holders, while sitting in his office, and receives from five to fifteen per cent. for his fees; why not pay it over at once to the Treasurer, who is also in readiness in his office, waiting to receive it from the hands of the Collector? He, too, receives three per cent., and thus, in many instances, one-fifth of the revenue of the State and County is, at one fell swoop, appropriated to these two officials. In my opinion, the Treasurer should receive the taxes directly from the hands of the tax-payer, only receiving his two or three per cent. and the delinquent list handed over to the Sheriff, or Collector. All laws relating to revenue should be equal and uniform throughout the State, and the evils of special Legislation should be stopped. The fees that county officials now receive, in all instances, should be paid into the respective county treasuries under oath, and should pass to the credit of the county, and moderate salaries paid to our county officers. This, I am sure, would redound to the credit of the State and County, and remove all temptation to speculation and extortion. I feel that there will be a powerful opposition to a reformation of this kind, but I sincerely believe that, until this be done, the evils I portray will continue to increase from year to year, and perhaps repudiation be resorted to as a remedy.

SUPREME COURT REPORTS.

I deem it proper to call your attention to the peculiar condition of the law regarding the reports of the Supreme Court. The reports for the

current year, it is estimated, will cost the State the sum of sixteen thousand dollars, and by the Appropriation Act for the support of the government for the twelfth fiscal year, only six thousand dollars in round numbers appears to be set apart for that purpose. It is found to be impossible to compress the reported cases of the year into one volume, as the law would seem to contemplate. I would recommend that you give this subject a careful investigation, and ascertain the amount absolutely required for this purpose, and make the appropriation accordingly.

POLL TAX.

The revenue from this source, since its imposition, has failed to meet the reasonable anticipation of those who desire to see the burdens of government equally distributed among those who share its blessings and protection. In my opinion there is not a more just tax imposed than this. Yet there is none that is fraught with so many difficulties in its collection. All who enjoy the blessings of free government should be willing to bear their proportion of taxation for its maintenance, and for those who try to evade, there should be stringent laws for its enforcement. The revenue from this source, for the present year, amounts to only about fifty thousand dollars—while our voting population is one hundred and twenty thousand. Add to this number sixty thousand white adult male inhabitants not voters, but equally liable to pay this tax, and we have one hundred and seventy thousand at least subject to it, even making a liberal allowance for those who are by age exempt from its operation. The poll tax should yield a net revenue of over one hundred and fifty thousand dollars. I would suggest that no one be allowed to vote who has not paid his poll tax. I can see no injustice in such an enactment. As it now exists it is oppressive, unequal, and unjust. A few good and law abiding citizens pay this tax, but the great majority fail to do so; if it cannot be enforced it were better abolished.

MILITIA.

Your attention is called to the necessity of a more perfect organization of our volunteer soldiery. In the absence of any report from the Quartermaster-General, I am unable to give such information as I should wish on this subject. A military spirit exists in this State, not excelled by any other State in the Union, and it has been a matter of sincere regret that I have been unable to meet the demands made upon me by our volunteer companies from nearly every hamlet in the State for arms. In case of the hostility of Indians, or for the purpose of suppressing insurrections, should they unhappily occur, there is not in our State Armory a sufficient amount of arms and ammunition to arm and equip one hundred men.

The attention of Congress, through our representatives, should be called to our isolated position, and the exposed condition of our extensive frontier, and efforts made to procure for us, in addition to the quota to which we are entitled, ten thousand stand of arms, with accoutrements, etc.

Our present military tax of twenty-five cents per capita, should be increased to one dollar, and a property tax levied of five cents on each one hundred dollars valuation of the real and personal property in the State, to raise a fund for the purchase of arms and rent of an armory for at least each regiment. The importance of organizing and arming our volunteer force cannot be too highly estimated, and I earnestly hope you will take steps to secure this end before adjournment.

APPORTIONMENT OF THE STATE.

I trust that early action will be had upon the apportionment of Senatorial and Assembly Districts among the different counties of the State, according to the white population as ascertained by the last decennial census, taken by authority of the United States, copies of which will be found on file in the Secretary of State's office for your guidance. I think the interest of the State would be served if the number of Assemblymen and Senators were reduced so as to approximate to the minimum number designated by the Constitution. Both bodies might thus be rendered more efficient, and the cost to the State reduced materially. Mileage should be abolished and actual traveling expenses only allowed.

SHORT SESSION.

The business of the present session of the Legislature should be brought to a successful conclusion in from forty to sixty days, thereby avoiding a vast expenditure of the people's money. The accumulation of statutes and journals only lead to confusion, and many of our present laws had better never been passed, and the sooner they are repealed the better. These surplus enactments only serve to enrich the printer and give employment to a host of supernumerary attachés. I earnestly entreat for a short session and an avoidance of appropriations where there are not funds to meet them, or provided for, in the treasury.

FEDERAL RELATIONS.

The startling events transpiring upon our Atlantic seaboard, would seem to indicate that the Union which binds our free and happy confederacy together, is in imminent danger of disruption. Such a state of affairs exists as makes it probable that, unless the conservative element of the Union steps forth and places itself in the breach, the dire calamity of dissolution will follow. At such a time as this, I deem it due to the position I occupy, to lay before you the critical position of our federal relations, and express to you, the people's representatives, the deep solicitude I feel in the perpetuity of that Union transmitted to our care by the Fathers of the Revolution, for the benefit of succeeding generations—for the security of civil and religious liberty—and the honor, glory, and power, of the American name.

The people of California, comprising natives from all portions of the Union, and naturalized American citizens representing every section of the country and every class of society, have always proven their devotion to the Union, and have always manifested a loyalty to the confederacy, which distance from the Central Government would only seem to strengthen. Having so often manifested, by her vote, her disapprobation of all sectionalism—having repeatedly shown her eminently national position on the unhappy questions which threaten a disruption of the Union—having no interest in slavery, and no fugitive slaves to surrender—having no personal liberty bills, so called, on our statute books to taunt our brethren of the South—the voice of California at this time should at least be entitled to respectful consideration.

There is no State in the American Union that has, in so short a time, added so large a quota to the material importance and commercial greatness, as California has to the confederacy of which she is a member; and none, perhaps, has received so little in return. Notwithstanding this, she stops not to calculate the pecuniary value of her connection with the Union. Such sordid motives find not a resting place in the bosom of Californians, for they are for the Union at all hazards! They are satisfied with the benefits flowing from a united confederacy, and will, I am satis-

fed, make every effort to maintain intact, and do their part in preserving, as received from their forefathers, a boon such as never before was granted to any people.

In view of such a state of affairs, I cannot conceive any measure more worthy of your patriotic consideration than this, and as the representatives of a free people, representing a constituency eminently patriotic, the Legislature of a sovereign State not interested in the institution of slavery, you should, by joint resolution, express your disapprobation of all measures with which any portion of the confederacy may be justly dissatisfied, or their constitutional rights, in their humblest degree, affected.

The nullification of the Fugitive Slave Law, and the passage of Personal Liberty Bills by many of the sovereign States, cannot be viewed in any other light than subversive of all amicable relations between those States and that portion of the confederacy interested in slave property. These enactments are unconstitutional, are founded upon injustice and bad faith, and are in violation of the federal compact. The authors of them have been forewarned of their evil results, and now that they see the danger, it is hoped that a sense of returning justice, and the patriotism that so eminently distinguished the citizens of those States, in the earlier days of the Republic, will cause them to repeal those obnoxious statutes, and by this means restore peace to the country and permanency to the Union.

The estimation in which California is held by both of the contending sections—her citizens, as it were, being a Congress of the whole confederacy—fits her for a mediator, and this is the position she desires to occupy.

It is folly to suppose that she desires a separation from the Union, and while she finds the border States of Maryland, Delaware, Virginia, Kentucky, and Missouri, battling for the Union, the voice of California will greet them, and her example will encourage the other free States to make any reasonable sacrifice to preserve our liberties, and the blessings which flow from a united nationality. The people of California desire no change in our form of government; they desire no dismemberment that would weaken us as a powerful people; our vast seaboard unprotected, requires the fostering care of a powerful maritime nation, such as the American Union has become; they desire to remain in the Union, and grow with its growth, and strengthen with its strength, and while anything exists worthy of being called an American Union, I mistake much if the people of California will not cling to it with a patriotic devotion worthy of men who can appreciate the blessings of self government. While California will thus cling to the Union, she will expect justice from her sister States, each to the other, as she, confident in her own resources, and justly proud of her vast domain, her unparalleled mineral wealth, her commercial position, her unsurpassed fertility of soil, and geniality of climate, feels she would have the right to and would demand, in the event of encroachments being attempted to her injury.

Having suggested the steps that the Northern States, which have passed through their Legislatures unfriendly acts towards the South, should take towards effecting an amicable adjustment of the existing differences, the South should be satisfied with this, and the entire removal of the slavery question from the Halls of Congress. Let the people of the Territories settle the question of domestic slavery within their borders, and be admitted into the Union with or without a slavery clause in their constitution. The precise time at which the people of a Territory should be enabled to decide this question can be settled by the act of compromise itself. This difference certainly is not of sufficient importance to cause a dissolution

of the Union, and although I, in common with a very large proportion of the people North and South, as manifested by the recent election, have always believed that the people at all periods of their existence have control of this subject, yet an abstract question like this should not for one moment be placed in comparison with the greatest of all earthly blessings, the preservation of the Union of the American States, and that Constitution which has secured to us such a meed of civil and religious liberty as never before in ancient or modern times has been vouchsafed to man.

It is natural that much interest should be felt in the position that California should occupy in this unhappy struggle. The rich domain and littoral advantages of the Pacific Empire have been acquired by the blood of the common country, and purchased by the treasure alike belonging to all. Let us show them our gratitude for this inheritance by our patriotic efforts to preserve it for the enjoyment of a proud and prosperous nation, and let the commerce of China and Japan, and the great Australian Empire, and the Spanish American Main, already at our doors, enter our ports, and pass through our Territory to the East on a national railroad. Let our inexhaustible supply of gold flow with it, there to build up cities, enrich a nation, and make us that powerful people that our position entitles us to be—the glory of the age, the wonder of the world, fulfilling the destiny awaiting us in riper years.

A united people can accomplish great results, and in the verification of this, we see what England has accomplished. She has given her language and her laws to new empires; and, by the efforts of her united people, her literature and influence, her commerce and customs, encircle the earth, while Germany, always more populous, lacking nothing in energy, skill, and scientific attainments, is divided into separate nationalities, and with her world-renowned literature and rich and expressive language, with a frugal and industrious population, has remained stationary.

In the wide field for the acquisition of new empire, and the spreading of her language and laws, Germany cannot point to a spot without her "pent up Ætica," on either hemisphere, where she has made her impress. Her citizens emigrate to other countries to swell the greatness of foreign nationalities, to be absorbed and lost forever to the great Teutonic family, and to its language, literature, and laws; and why is this? Because Germany is divided, and, although two of the members of the Germanic Empire are classed as of first importance among European nations, yet, neither of them is able to protect her own citizens in a foreign land.

Spain, Portugal, Holland, and Denmark, because they are united, have all accomplished something toward the spread of their literature, language, and laws, and, although second class powers, united and homogeneous as they are, they are in a condition to protect their citizens at home, and command respect abroad. How important for us to be united, what a bright destiny is before us as a united people, and what earnestness and perseverance should characterize our efforts to maintain the Union as it is, fraught with so many blessings to our people at home, and consolation to our citizens abroad, who rely with confidence upon that certain protection afforded by the emblem of the nation's progress, which, thanks to a kind Providence and wise councils, still floats upon every sea, and will, I trust, till time shall be no more.

Having thus fulfilled a constitutional duty, let us invoke the blessings of the Supreme Being upon our efforts to discharge the sacred duty we owe to the people of the State with promptness, fidelity, and economy, in all of which you will have my earnest co-operation.

Feb. 15, 1860..	S. Petit de Ver-genne.	Perjury.	San Diego.	1 year.	That it is generally believed the mind of the prisoner is affected with some mental aberration, which, from extraordinary excitement of any kind, confuses, perplexes and destroys his memory, and such was the case when he swore to the falsity of his signature on a certain note; also, that he had resided in the county of San Diego nearly a year and was highly respected and generally spoken of as a gentleman.	George A. Pendleton, County Clerk, San Diego County; D. B. Kurtz, County Judge, San Diego County; George Lyons, Sheriff, San Diego County; R. E. Doyle, and others.
	<p>DECISION.—The Judge before whom he was tried, the Sheriff, County Clerk, and nearly all of the most respectable citizens of San Diego County, petition for his pardon, and his previous character having been good, and the fact that he was a foreigner, and not familiar with our laws and language, and also grave doubts existing in the minds of the petitioners as to his guilt—for the above reasons let him be pardoned. April 7, 1860..	Madison James.	Murder, second degree.	San Mateo.	10 years.	Serious doubts are entertained of his guilt, having been convicted entirely on circumstantial evidence—the declaration of the deceased, (Wm. Lawless,) made in the presence of several of the petitioners, being that James was not guilty, which declaration was not submitted to the jury, being overruled by the Judge.	M. A. Parkhurst, Postmaster; Chas. D. Judah, District Attorney, San Mateo County, and others.
	<p>DECISION.—Serious doubts being now entertained by the District Attorney of the guilt of this party, and a statement having been made by the Judge, that the term should be shortened by the exercise of Executive clemency, and further, that affidavits are made by respectable citizens of San Mateo County, that the dying declaration of Lawless was ruled out by the Court, on the ground, that he was not then conscious of immediate danger of death, when in fact that he died immediately after, and the burden of proof is, that he was conscious of his condition at the time. From these considerations, and his previous good character, his good behaviour while in prison, and the respectability of the petitioners in his behalf, with the fact of his old age, induce me in this case to extend Executive clemency. Aug. 30, 1890..	Gus Davis.	Passing Counterfeit Money.	Sacramento.	4 years.		

DECISION.—Subsequent developments since the trial and conviction have caused the District Judge before whom he was tried, to petition for his pardon; also, the District Attorney, County Judge, and Sheriff of said county, together with the Treasurer of State, and two hundred others, many of whom are prominent citizens of Nevada County, personally known to me. Let him be pardoned. August 1st, 1890.

DECISION.—From the former good character of said Veehorn, his term of sentence being nearly expired, and the members of the Court of Sessions, and many of the most respectable citizens of Solano County, recommending his pardon, I deem the interest of the public best subserved by extending Executive clemency. Let him be pardoned. August 20th, 1890.

David C. Broderick, United States Senator from this State, not only disregarded said instructions, but indirectly charged that the members of said ninth session of the Legislature had misrepresented the wishes of their constituents ; and *whereas*, the people of this State, at the last election, triumphantly sustained the action of the members of said ninth session of the Legislature ; therefore, for the purpose of giving to the said Honorable David C. Broderick a full understanding of the position he occupies to his constituency, be it—

Resolved, By the Senate, the Assembly concurring, that the Legislature of a State constitutes the immediate constituency of a United States Senator.

Resolved, That a constituency has at all times the right, and it is their duty, when deemed necessary, to instruct their Representatives upon all matters of public policy pertaining to the duties of such Representative ; when so instructed, there is left no other honorable alternative, save obedience or resignation.

Resolved, That Senator Broderick has neither yielded obedience to the instructions of the ninth session of the Legislature of this State, nor has he as yet resigned the seat he holds contrary to the wishes of his constituency.

Resolved, That the language used in the speech of said Senator on the twenty-second day of March, A. D. one thousand eight hundred and fifty-eight, in the United States Senate, towards the Chief Executive of this confederacy, was not only undignified and disrespectful, but alike insulting to the nation, and humiliating to the people of this State.

Mr. Sharp offered the following as a substitute:

Resolved, That the Sergeant-at-Arms be allowed to employ a Porter, whose duty it shall be to attend on all the Committee Rooms, clean them up, and attend the committees during their sittings for the purpose of procuring persons and papers, at the per diem allowed Porters by law, payable out of the Contingent Fund of the Senate.

Mr. Phelps moved to amend the substitute so that it would read—

Resolved, That the Assistant Sergeant-at-Arms be required to attend on all the Committee Rooms, clean them up, and attend the committees during their sittings for the purpose of procuring persons and papers.

Mr. Merritt offered the following as a substitute for the whole subject matter:

Resolved, That the Sergeant-at-Arms of the Senate be empowered to employ a person to attend to the Committee Rooms of the Senate, at a compensation not to exceed fifty dollars per month, to be paid out of the Contingent Fund of the Senate.

Mr. Phelps rose to a point of order: That a substitute to a substitute was not in order.

The Chair stated that the substitute was offered to the whole subject matter, and therefore the point of order was not well taken.

The question being first upon the adoption of the substitute offered by Mr. Merritt, was put and lost.

The question then being upon the amendment offered by Mr. Phelps, was put and lost.

The question recurring on the substitute offered by Mr. Sharp—

Mr. Clark moved to amend by striking out the words "per diem allowed by law," and inserting the words "three dollars per day."

Carried.

The question then being upon the adoption of the substitute as amended, was put and lost.

Amendment accepted.

Accepted.

Mr. Phelps then offered the following as a substitute:

Resolved, That the President of the Senate be requested to instruct the Porters of the Senate to keep all committee rooms in order, and attend upon the meetings of the committees when required by their Chairman.

The question then recurring on the adoption of the original resolution as amended, was put and carried.

So the original resolution was adopted as amended.

Mr. Thomas offered the following resolution:

Resolved, That the Committee on Public Expenditures be, and they are hereby, authorized to employ, at such time as they may deem necessary, a Clerk, to be paid out of the Contingent Fund of the Senate.

Mr. DeLong moved to amend by inserting after the word "expenditures" the words "and corporations."

The question then being upon the adoption of the resolution—

The ayes and noes were demanded by Messrs. Merritt, Heacock, and Parks, and taken with the following result:

Ayes—Messrs. Clark, Crittenden, DeLong, Denver, Eagon, Edgerton, Franklin, Gallagher, Harvey, Hill, Irwin, Ryan, Sharp, Thomas, Watson, Watt, Williamson, and Vance—18.

Noes—Messrs. Burbank, Hayes, Heacock, Merritt, Parks, Phelps, Pico, Rhodes, Shafter, Thornton, and Warmcastle—11.

Adopted.

Mr. Ryan moved that the bill be ordered printed, and made the special order of the day for Tuesday next at twelve o'clock, M.

SENATE CHAMBER,
Monday, January 28th, 1861. }

Senate met pursuant to adjournment.

President in the Chair.

Roll called.

Quorum present.

Journal of Saturday read and approved.

Indefinite leave of absence was granted to Messrs. Watt and Thornton, and one day's leave to Mr. Warmcastle.

REPORTS.

Mr. Shafter presented the following report:

Mr. PRESIDENT:—The undersigned, a member of the Committee of Federal Relations, has had under consideration sundry resolutions relative to the state of the Federal Union, and makes this, his report:

In the troubled times in which we live, and especially at the precise juncture of events at present existing, it becomes every citizen and man to endeavor, by a respectful and proper expression of his opinion, to so mold and fashion the judgment of the community, as to induce and establish public tranquility and prosperity.

As representing the aggregate intelligence and opinion of California, it is quite proper that the Legislature of California should express her judgment upon the course to be pursued in the perils which surround her, no less than the Union.

In the performance of this duty either of two methods of expression may be adopted. We may elaborate the whole subject of human slavery, its nature, its influence upon our country, and upon mankind, coupled with suggestions of some scheme or project of pacification and final settlement of all the questions incident thereto, or we may confine our action to an expression of our views upon the precise question presented for direct and immediate solution.

That question is expressed by the familiar language, "Can any citizen, or body of citizens, withdraw from the Federal Union without its consent, so as to exonerate such citizen from fealty to such Union, and from the

duties and liabilities which such fealty imposes?" It seems to the undersigned that this latter form of expression is the proper one for the occasion; and that by adopting it we shall avoid differences and difficulties which may be otherwise unsurmountable.

The report already made by the committee is subject to this remark, "That while it is in form made by a majority, it is assented to, in fact, by only two of the committee;" the amendment proposed by one being subversive of the whole doctrine and scope of the resolution reported by the other two.

But the main objection to the resolutions reported is, that they cover ground upon which it is inexpedient for us to enter at this time in the form of resolutions.

The undersigned, therefore reports, that in his judgment, said resolutions heretofore referred to said committee, ought not to be adopted, and recommends the adoption of the accompanying as a substitute therefor.

J. McM. SHAFTER.

Report received, resolutions ordered printed, and made the special order of the day for Thursday, January thirty-first, eighteen hundred and sixty-one, at twelve o'clock, M.

Mr. Clark made the following report:

Mr. PRESIDENT:—The Sacramento Delegation, to whom was referred Senate Bill, No. 45, An Act to pay certain Warrants of the City and County of Sacramento, herein named, have had the same under consideration, and report the bill back without amendment, and recommend its passage.

CLARK,
HEACOCK.

Mr. PRESIDENT:—The Committee on Federal Relations, to whom was referred Assembly Concurrent Resolution, No. 16, relative to Joint Committee on Federal Relations, have had the same under consideration, and herewith report the same back to the Senate, with a recommendation that the Senate refuse to concur therein.

JOHN H. WATSON,
Chairman.
SHAFTER,
EDGERTON.

Report received, and, together with the resolutions, placed on file.

Mr. Clark made the following report:

Mr. PRESIDENT:—The Sacramento Delegation, to whom was referred Senate Bill, No. 46, have had the same under consideration, and report the same back. Mr. Heacock, one of the delegation, proposes a substitute for the bill, while the undersigned recommends its passage without amendment.

CLARK.

Report received, and, together with the bill, placed on file.

Mr. Heacock made the following report:

Mr. PRESIDENT:—As one of the Sacramento Delegation, to whom was referred Senate Bill, No. 46, Relative to Ratifying and Approving certain

Ordinances of the Board of Supervisors of the City and County of Sacramento, I would beg leave to report the accompanying bill as a substitute therefor, and recommend its passage.

In doing so, I deem it proper that I should embody herein some of my reasons therefor, since my colleague and myself differ in opinion thereto.

The Consolidation Act of the city and county of Sacramento, (Statute 1858, page 275,) provides for all the officers named in the bill referred to us, except the Assistant Clerk of the Board of Supervisors, and fixes the salaries of such officers at one hundred dollars per month. (Consolidation Act, Section 24.)

There is no such officer known in the act as Assistant Clerk of the Board of Supervisors, it being of the opinion of the framers of that act that the Clerk of the Board could perform all the duties. But after the act went into effect the Board of Supervisors were of the opinion that the duties were too onerous for one Clerk, and they created the office of Assistant Clerk, who was appointed in accordance with such ordinance, and entered upon his duties as such, and has ever since continued to discharge such duties.

The Board provided in the same ordinance that the salary of each of the other officers named therein should be fixed at one hundred and fifty dollars per month instead of one hundred dollars as fixed by the act. Upon this ordinance being tested before the Supreme Court, that tribunal recently decided that the Board had exceeded their powers and declared the ordinance null and void, and this bill is now introduced to ratify and approve said ordinance, which, if it becomes a law, will give to the Assistant Clerk one hundred and fifty dollars, and to each of the other officers therein named, the same sum per month from the first day of May, eighteen hundred and sixty.

The Assistant Clerk of the Board has received nothing for his services since the first of May last, and I deem it but right and proper that he should be paid as provided by said ordinance. But while I deem it a very unwise policy to reduce the salary of efficient officers to a starving minimum as a measure of revenue, still I think it would be establishing a dangerous precedent to allow them, as is sought in the present instance, after having accepted to perform the duties of their offices for a fixed and certain amount, known to them at the time of their acceptance of such appointment, increased salaries for past salaries.

I know the duties of some of the officers named in the bill are very onerous, requiring their whole time and attention, and deem the salary fixed by law too low, and shall be in favor of increasing it by an amendment to the act when such amendment may be proposed. I hope the substitute herewith submitted will pass.

HEACOCK.

Report received, and together with the substitute placed on file.

Mr. Clark offered the following resolution :

Resolved, That R. H. Shea be, and is hereby, appointed night Watchman of the Senate Chamber, at a salary of four dollars per day, payable out of the Contingent Fund of the Senate.

Mr. Iwin moved to amend by striking out the name of "R. H. Shea," and inserting "Charles French."

Mr. Leet moved to indefinitely postpone the resolution.

Carried.

On motion of Mr. Dickinson, two hundred and forty copies of the Rules of the Senate and Joint Rules of both Houses were ordered printed.

REPORTS.

Mr. Clark, from the Finance Committee, to whom was referred Assembly Bill, No. 88, An Act to extend the time of collecting Taxes in the County of Santa Cruz—reported the same back verbally, recommending its passage without amendment.

Mr. Watkins made the following report :

Mr. PRESIDENT:—The Committee on Claims, to whom was referred Senate Bill, No. 86, Claim of John Herzo, Assignee, for Stationery furnished Supreme Court, and State Officers, in eighteen hundred and fifty-four; also, the claim of J. J. Lecount, for Stationery furnished the Supreme Court in eighteen hundred and fifty-six—have had the same under consideration, and beg leave to report the same back without recommendation;

Also, the claim of William Greenhood, for services as Translator—have had the same under consideration, and beg leave to report the same back, with the accompanying bill, and recommend its passage;

Also, Senate Bill, No. 118, being Claim of Mary B Russell, for certain moneys expended by the Sisters of Mercy for the Burial of the Dead—have had the same under consideration, and beg leave to report the same back with amendments, and recommend its passage as amended :

Amend section first, by striking out all after word “hereby,” in last line, and insert “audit and allow.” Strike out all of second and third;

Also, Senate Bill No. 59, Claim of Alta California newspaper, or its Assigns, for printing notice of sale of Government Reserve, in the City of San Francisco, and other claims—have had the same under consideration, and beg leave to report the same back with amendments, and recommend its passage as amended :

Amend section first, first and second line, by striking out “Alta California, or its Assignees,” and insert “Edward Connor, proprietor of the Alta California, or his Assigns.” Amend by adding to the end of section second, “And the Treasurer is hereby required to write ‘surrendered’ across the face of the skeleton scrip accompanying the claims of John N. Norris, A. R. Feldt, Jonathan Barclay, and Jacob Fletcher;”

Also, Senate Bill, No. 63, entitled An Act to audit and pay the claim of Gregory Yale—Report that in June, eighteen hundred and fifty-nine, and after the Supreme Court had decided that the validity and terms of the Estill contract could not be considered, unless in a direct suit for that purpose, the late Board of State Prison Directors, by a formal resolution to that effect, employed Mr. Yale in behalf of the State. He was professionally connected with three actions relating to this matter, namely: The action of trespass against the Governor, Lieutenant-Governor, Secretary of State, and several attachés of the State Prison, for taking possession of the State Prison, under the directions of the Legislature, by the provisions of the Acts of February and April, eighteen hundred and fifty-nine, on that subject, in which one hundred thousand dollars were claimed by the plaintiff, Mr. McCauley; also, the principal action by the State, to test the validity of the Estill contract, setting forth all the breaches of that contract as claimed by the State; and for the recovery of the State Prison, and surrender of the convicts to the Directors; and also, in the mandamus proceeding by McCauley against the Controller, Malony, to compel the issue of two hundred and twenty thousand dollars of warrants.

Governor Weller, in his Annual Message of eighteen hundred and sixty, presented a statement from Mr. Yale, as one of the accompanying

documents to his message, exhibiting the condition of the State Prison litigation at that time, and referred to the employment of counsel in behalf of the State, in his message. No express contract was made fixing the sum to be paid. Soon after Mr. Yale was employed, he received from the Directors the sum of five hundred dollars as a retaining fee; in January, eighteen hundred and sixty, he received the further sum of one thousand dollars. These payments were made by the Board, from funds under their control. The claim is for a balance of eleven hundred dollars—making the entire claim, for all the services rendered, twenty-six hundred dollars.

This claim was presented to the present Board of State Prison Commissioners, who decided that they were without funds to pay it, and that the same must be presented to the Board of Examiners, and be passed upon as a claim against the State.

The committee find that the claim was so presented, under the act of eighteen hundred and fifty-eight, and under the rules and regulations of the Board, by giving public notice of the intention to present it; and that the Board unanimously approved it, and that the same, with accompanying papers, was transmitted to the Legislature, by the Board, with a recommendation that it be paid, in a report of January last.

The committee are therefore of the opinion, that the claim is a legal and meritorious claim against the State; that Mr. Yale was legally employed; that the services were rendered to the State; and that the amount is reasonable and just.

The committee report the bill back to the Senate, and recommend its passage with the addition of an enacting clause.

WATKINS,
Chairman.

Report accepted, and with bills, placed on file.

They therefore report the said bill back with the following amendment—and recommend that the same, when so amended, be passed.

Amend section five, by adding thereto, "And any assignment made by either of the warrantees named in the original warrants, or by any other

person, and indorsed on said duplicates respectively, shall have the same force and effect as the indorsements made, or which might have been legally made on the said originals respectively—provided, that upon any one of said original warrants being found, the duplicate thereof, herein directed to be issued, shall be null and void, to all intents and purposes whatsoever.”

SOL. A. SHARP,
E. H. HEACOCK,
C. V. WILLIAMSON,
RICHARD IRWIN,
P. A. GALLAGHER.

Report received, and resolution adopted.

On motion of Mr. Dickinson, the vote had on yesterday, by which Senate Bill, No. 104, was made the special order for Saturday, February twenty-third, at twelve, M. was reconsidered, and the bill placed on file.

Mr. Phelps made the following report :

Mr. PRESIDENT :—The Special Committee, to whom was referred the following resolution, viz :

“Resolved, That a select committee of three be appointed for the purpose of thoroughly examining into the manner in which the Quartermaster and Adjutant-General of the State has conducted the business of his office in the past, and as to its present condition”—have had the matter under consideration and investigation, and beg leave to report.

The law equires the Quartermaster and Adjutant-General to report to the Governor on the fifteenth day of December, annually, to be laid before the Legislature—

First—The number of enrolled militia in each county of this State.

Second—The whole number of enrolled militia in this State.

Third—The number of volunteer, or independent companies in this State.

These provisions have not been complied with, so far as we can ascertain, since eighteen hundred and fifty-seven ; the report of eighteen hundred and fifty-seven, gives the names of the militia and volunteer companies, and adds that they number about eighteen hundred, rank and file. It seems to be impossible to tell, from any record in the possession of the Governor, or any of the State officers, what is the present condition of the militia of the State, how many companies there are in the State, what number of men, rank and file, or in many instances, who are the commissioned officers. It would be perhaps possible to glean this

information, in part, from the files of papers in the office of the Quartermaster-General; but this would require much time, and the information thus gained could not prove otherwise than unsatisfactory. We find, in the Governor's office, what purports to be a record of Staff officers, and of the volunteer companies of the State, but no entries have been made therein since eighteen hundred and fifty-six.

We have been unable to ascertain what amount of arms, etc. are now in the hands of the organized companies, nor what is the organized militia force of the State.

The law makes the Adjutant-General, Secretary of the Board of Military Auditors; and as such, he is required to exact from each person to whom a commission is issued, the sum of five dollars, which he is required to pay into the State Treasury quarterly. But we are assured there has never been a single dollar paid in by him. The sum of two hundred and twenty-five dollars has been received from this source since General Kibbe left the State.

In view of the importance of ascertaining the condition of the militia force, and effects of the State, we recommend the passage of the accompanying resolution.

Resolved, That the Special Committee, to whom was referred a resolution making inquiries into the present condition of the Adjutant-General's Office be, and they are hereby, authorized to employ some competent person to examine the papers on file in the Quartermaster and Adjutant-General's Office, and to report, through said committee, to the Senate—

First—The names of commissioned militia officers of this State.

Second—The number of organized militia companies, and the number of the rank and file of each.

Third—The arms and effects of the State, in the hands of such companies.

Fourth—The arms, etc. now in the State Arsenal.

Fifth—The validity of the bonds taken for State arms, etc.

T. G. PHELPS,
W. W. PARKS,
S. T. LEET.

On motion of Mr. Phelps, the special order of the day—the resolution granting further leave of absence to Adjutant-General Kibbe, was taken up, and considered in connection with the report.

Mr. Merritt in the Chair.

Mr. Phelps moved to postpone the consideration of the special order, until Wednesday, March sixth.

Lost.

The question then being on the adoption of the resolution—was put, and the resolution adopted.

The question recurring on the adoption of the resolution reported by the committee, was put—and the resolution adopted.

JOHN G. DOWNEY,
Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, February 26th, 1861.

To the Honorable the Senate of California :

I transmit herewith to your honorable body the Annual Report of the State Agricultural Society as delivered to me by the Secretary.

JOHN G. DOWNEY,
Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, February 22d, 1861.

To the Honorable the Senate of California :

I herewith return to your honorable body Senate Bill, No. 46, An Act entitled An Act to ratify and approve Ordinance, Number Ninety-Six, of the Board of Supervisors of the City and County of Sacramento, approved May, twenty-ninth, eighteen hundred and sixty, without my approval, with the following objections :

Article eleven, section five of the State Constitution in relation to Supervisors, reads as follows :

"The Legislature shall have power to provide for the election of a Board of Supervisors in each County, and these Supervisors shall jointly and individually perform such duties as may be prescribed by law."

The Legislature of this State at its Ninth Session did provide for an election of a Board of Supervisors for the City and County of Sacramento, and in unmistakable terms did prescribe their duties.

This same act creating the Board of Supervisors provided for an election of Clerk to the Board, and fixed his salary at two thousand five hundred dollars per annum.

By an ordinance approved May twenty-ninth, eighteen hundred and sixty, which is now sought to be ratified, the Board created the office of Assistant to this Clerk, and fixed his compensation at one hundred and fifty dollars per month.

It is clear to my mind that this ordinance was illegal and unconstitutional, as the Board had no right to create an office not contemplated by the act, nor perform any other duty which would impose burdens upon the people which was not clearly prescribed by law.

To this exercise of power by the Board of Supervisors not prescribed and clearly defined by statutory enactments may be ascribed in no small degree the present embarrassed condition of nearly all of the counties of this State, and although this may be a moderate compensation, and the

creation of this office might have been necessary, still as a principle, I cannot sanction it, and I hold that the passage of this act could not legalize the unwarrantable proceedings under this ordinance since the twenty-ninth of May last.

This act also proposes to raise the salaries of certain deputies from twelve hundred dollars per annum to eighteen hundred dollars per annum, while the act of April twenty-fourth, eighteen hundred and fifty-eight, fixes these salaries at twelve hundred dollars per annum.

I can see but little use in the wise restrictions thrown around the operations of the Board of Supervisors by the Legislature if they are allowed to create offices and raise salaries in violation of the plain provisions of the act giving them existence; as well might they have raised their own salaries, and fixed their compensation, and provided by ordinance for their being in perpetual session, when they are by law limited to so many days in each year, unless without compensation.

If the salaries of the present incumbents are too low, and the present number of officers of the city and county of Sacramento not sufficient, let the charter be amended so as to give the Board of Supervisors the power to perform these duties legally.

JOHN G. DOWNEY,
Governor.

The question being, Shall the bill pass notwithstanding the veto of the Governor?

On motion of Mr. Clark, the message was made the special order of the day for Friday next at half past eleven o'clock, A. M.

MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 8th, 1861.

To the Honorable the Senate of California :

I herewith transmit a copy of a communication addressed to me by Sylvester Mowry, Esq. United States Commissioner, and received this morning.

As the subject matter of this communication is of much interest to the State, I deem it proper to earnestly call your attention again to the necessity of speedily devising some way that the State may be legally represented in establishing the initial point and Survey of the Boundary Line between the Territories of the United States and California.

In my Annual Message, I urged the importance of prompt action on the part of the Legislature, in the following language : "The Commission on the part of the United States, in full force, is now in the field, and I trust that you will, at the earliest day practicable, provide for the legal co-operation on the part of California, in a work so much needed."

I conceive it my duty to further inform your honorable body that there has been, since the return of the Surveyor-General and party from operations in ascertaining that portion of the line contemplated by the act of eighteen hundred and sixty, a camp in the field, under expense to the State, awaiting the action of the Legislature in this behalf—ready to be turned over to the Commissioner that may be appointed to represent the State. This, in itself, is a good reason for early action on the part of the Legislature, and one that I trust will not be overlooked.

JOHN G. DOWNEY,
Governor.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 9th, 1861. }

To the Honorable the Senate of California:

I herewith return to your honorable body Senate Bill, No. 152, entitled *An Act to change the Venue in the case of Horace Smith*—with my objections thereto.

Article three, section one, of the Constitution of this State, under the head of distribution of powers, reads as follows:

"The powers of the government of the State of California shall be divided into three separate department—the Legislative, the Executive, and Judicial—and persons charged with the exercise of powers properly belonging to one of these departments shall not exercise any functions appertaining to either of the others."

This act, to my mind, if suffered to become a law, would be in palpable violation of the spirit, meaning, and intention, of this clause of the Constitution.

The case of Horace Smith is now pending in the District Court of the Twelfth Judicial District for the county of San Francisco on an indictment for murder, and a motion is made for a change of venue from that county to the county of Placer, predicated upon the affidavit of the defendant, that he could not have a fair and impartial trial in the county of San Francisco, and that five-sixths of defendant's witnesses lived in the county of Placer. The court, in the exercise of the discretion properly belonging to this department of the government, decided against this motion; and the defendant, instead of exhausting his remedy by appealing to the Supreme Court, as provided in section four hundred and eighty-one of An Act regulating proceedings in Criminal Cases, approved April twenty-second, eighteen hundred and fifty-eight, which reads as follows:

"The party aggrieved in a criminal action, whether that party be the people, or the defendant, may appeal as follows:

Second—To the Supreme Court from a final judgment of the District Court, or Court of Sessions, in all criminal cases amounting to felony; also, from an order of the District Court, or Court of Sessions, granting or refusing a new trial, or which affects a substantive right in a criminal case amounting to felony," appeals to the Legislature, who by this act sets aside the decision of the court, thereby performing a judicial act, from which, by the fundamental law it is expressly prohibited; and upon this point the decision of our Supreme Court in 5 Cal. Reports, page 74, is very explicit.

The court say: "The Legislature cannot exercise judicial functions, and therefore cannot except one case or one party from the operation of a general rule of law, either as to right or remedy."

This act plainly proposes to except this party from a general rule of law, for in vain may we search for authority to justify the passage of such an act.

In eighteen hundred and fifty-seven a similar act to this was attempted to be passed by our Legislature for the benefit of Edward McGowan. It was referred to the Judiciary Committee of the Assembly, who promptly repudiated it, and reported a substitute making a general law to meet the case, as it was found that a special law could not be passed through the Legislature.

The lengthy preamble in this bill, following the title and preceding the enacting clause, sets forth several facts of which I have no knowledge; and although the Legislature may have had information that is not within my reach, yet I cannot subscribe to a set of recitals which are entirely unsupported by evidence.

Among these are recited that "the defendant cannot have a fair and impartial trial in San Francisco." The only party, in my judgment, capable of determining this is the court, and even the court can only determine this when it impanels its jurors, and find then whether the public mind is biased or not. The court then, I say, is the party to deter-

mine this, and not the Legislature, as the latter has no proof before it save the affidavit of the defendant.

The title of this bill is An Act to change the Venue in the case of Horace Smith, and in the first section it proposes to create an indefinite liability to the State. It provides that all expenses growing out of this indictment shall be paid by the State of California, while the general law provides that these expenses shall be borne by the different counties for the prosecution in all criminal cases happening within their respective jurisdiction. I can see no reason why the county of San Francisco should be exempted from this general law; and, if a practice of this kind be once inaugurated all the other counties may desire similar exemptions.

If this were a general law, operating alike upon all, however much the practice might be condemned of making a general law in order to meet a special case, the objections to its passage would not be so serious.

I have but little hesitancy in saying that if the judiciary should attempt to perform functions properly belonging to the legislative department of the government, that the attempt would be repudiated by the latter as a gross encroachment upon their constitutional prerogative; and, for myself, I will say that I would pay but little attention to a mandate of a court that attempted to interfere with the functions properly belonging to the executive department of the government. With the views I have heretofore expressed in regard to the wise provisions of the Constitution in securing the judiciary from any interference on the part of the Legislature, I could not with any degree of consistency sanction an act which I conceive to be judicial in character and effect, and if persevered in cannot help subverting the very foundation of our government. The remedy in all such cases should be in the courts. The people look to the courts alone for the administration of justice, when this affects either persons or property.

The poor and the rich, the powerful and the friendless, should be made to understand that they enter the portals of justice with like penalties, and like immunities. If the Legislature grant special privileges to one, the confidence that should exist will at once be destroyed. In San Francisco, where neither the deceased or the defendant lived, is the place where one might expect an impartial trial, as that community must be entirely free from any prejudice incidental to small communities, where the faults and virtues of the parties must have been thoroughly discussed and canvassed.

I should be loth to sanction the assertion contained in the preamble to this bill, that a fair and impartial trial could not be had in San Francisco, and allow it to be placed on our statute-book with my approval, when in fact I believe that in an intelligent community of seventy thousand people a jury of twelve impartial and honorable men can be found as readily there as in any other portion of the State.

JOHN G. DOWNEY.

The question being, Shall the bill pass notwithstanding the objections of the Governor? the ayes and noes were called with the following result: Ayes, 22—noes, 9:

AYES—Messrs. Crittenden, DeLong, Denver, Dickinson, Eagan, Edger-ton, Franklin, Gallagher, Irwin, Logan, Merritt, Pico, Ryan, Sharp, Thomas, Thornton, Vance, Warmcastle, Watkins, Watson, Watt, and Williamson—22.

REPORTS.

Mr. Ryan, by leave, made the following report :

Mr. PRESIDENT:—Your committee, to whom was referred Senate Bill, No. 176, entitled An Act extending Stuart Street, in San Francisco—respectfully report the same back with a recommendation that it pass. The facts in the case are as follows :

The first section of the act, passed March twenty-sixth, eighteen hundred and fifty-one, defining and establishing the water front of San Francisco, enacts that the permanent water line shall extend northerly on the eastern line of Spear Street, to a point within one hundred and thirty-seven and a half feet of the southerly side of Harrison Street ; thence easterly, at right angles with Harrison Street, to the eastern side of Stuart Street ; thence northerly, on the eastern side of Stuart Street, to the southerly line of Folsom Street.

Section five, of the said act of March twenty-sixth, eighteen hundred and fifty-one, provides that a map shall be prepared by the city, of said boundary line, of which one copy shall be deposited in the office of the Secretary of State, and one copy in the office of the Surveyor of San Francisco ; on which said map, the boundary line, or water front, shall be distinctly delineated by a red line.

Your committee have examined a copy of said official red line map, and they discover that the passage referred to in the first section of the act of eighteen hundred and fifty-one, was either carelessly drawn, or was erroneously engrossed. The words, "at right angles with Harrison Street," were substituted for the words, "at right angles with Spear Street," or for the words, "parallel with Harrison Street." Since a line drawn according to the words of the law, as they now stand, would run directly into the bay, in a southeasterly direction, and would neither cross Stuart Street at all, nor intersect it in any direction.

It is the obvious intent of the law to make the water line cross the end of Stuart Street, at a right angle with the direction of the street, and to establish said end of Stuart Street, one hundred and thirty-seven

and a half feet from the south side of Harrison Street ; but from the erroneous, and indeed meaningless, phraseology of the law, troublesome doubts have arisen whether Stuart Street extends to the water front.

It is the design and effect of the bill now reported, to establish the line of water front at the point indicated, according to the manifest purpose of the act of eighteen hundred and fifty-one.

A declaratory act of the character proposed by this bill, is within the province of the Legislature, and we therefore report the recommendation that the bill be passed.

JAMES T. RYAN,
Chairman.

Report received, and with bill, placed on file.

Mr. Denver made the following report :

Mr. PRESIDENT:—Your Committee on Enrolled Bills, have examined and find correctly Enrolled, Senate Bill, No. 82, An Act authorizing the Mayor and Common Council of the City of Marysville to provide certain Moneys for the benefit of the Agricultural, Horticultural, and Mechanics' Society of the Northern District of California ;

Also, Senate Bill, No. 84, An Act to authorize the Administrator of the Estates of Nicholas Swan, deceased, and Zachariah Simpson, deceased, to apply the Moneys in his hands for certain purposes ;

Also, Senate Bill, No. 91, An Act to authorize Caius T. Ryland to sell certain Real Estate of his Infant Children ;

Also, Senate Bill, No. 140, An Act to authorize the Board of Supervisors of the City and County of Sacramento to levy a Special Tax ;

Also, Senate Bill, No. 153, An Act to change the name of John H. D. Malson of the County of Butte ;

Also, Senate Bill, No. 159, An Act relating to the Thirteenth Judicial District, and to define the time of holding the Courts in said District—and at twelve o'clock and forty minutes, P. M. of this day, delivered the same to the Governor for his approval.

A. ST. C. DENVER,
Chairman.

MR. PRESIDENT :—The Committee on Claims, to whom was referred Senate Bill, No. 99, An Act to audit and allow a claim of John F. McCauley against the State—have had the same under consideration, and respectfully submit the following :

The first item is the sum of eleven thousand, eight hundred and four dollars and forty-two cents, the stipulated price of one hundred and six head of American cattle, sold and delivered by McCauley to the Directors of the State Prison, in June, eighteen hundred and fifty-five.

The authority to make such purchase, was conferred upon the Directors by law. (Acts eighteen hundred and fifty-five, page two hundred and ninety-three, section seven.)

The fact of the sale and delivery of the cattle by McCauley, is proved by the receipt, of Col. Snowden, President of the Board of Directors, and by the affidavits of Dr. Taliaferro, John S. Love, another member of the Board, and James S. Thurston, McCauley's Agent, who actually delivered the cattle.

McCauley's account for this money was certified by the President of the Board, and audited, and he received a Controller's Warrant for the amount, No. 752, dated December thirty-first, eighteen hundred and fifty-five, which he still holds, and upon which no payment was ever made. He now presents it, that upon payment of his claim it may be canceled.

In eighteen hundred and fifty-seven, a bill was introduced for the payment of this debt. It was read first and second times, and referred to the Committee on Claims, February ninth; reported upon favorably,

February twenty-fifth; recommitted, April thirteenth; and a substitute reported and passed, April twenty-ninth. The substitute, instead of directing the payment of the warrant, audited and allowed this claim, and also a claim of Daniel H. Carpenter. (See Assembly Journal, Eighth Session, pages two hundred and fifty-three, three hundred and eighty-two, seven hundred and twenty-eight, eight hundred and fifty-nine, and eight hundred and sixty-four.)

There was not time for the Senate to act upon this bill, the Legislature adjourning on the thirtieth of April.

Second—The second item is for a balance of account for beef furnished by McCauley, for the use of the State Prison, under a written contract between the Board of Directors and himself, made on the first day of January, eighteen hundred and fifty-six. The original contract is on file in the Controller's Office, and a copy of it is now submitted. The Board had full power to make this contract, under the seventh section of the act of eighteen hundred and fifty-five, before referred to.

Under this contract, McCauley, between the first of January and twenty-sixth of March, eighteen hundred and fifty-six, furnished large quantities of beef. The items are set forth in the accounts certified by the Board, which are on file in the Controller's Office, and copies of which are before the Senate.

The Legislature, on the seventh of April, eighteen hundred and fifty-six, made an appropriation of thirty-two thousand dollars, to pay this and other similar claims. (Acts of eighteen hundred and fifty-six, page eighty-six.) The appropriation proved insufficient, only part of the amount due him was paid, and there has ever since remained due on the accounts the sum he now claims, and which has been allowed him by the Board of Examiners—five thousand four hundred and twenty-seven dollars.

In support of this part of the claim, in addition to the written contract and certified accounts, there is presented the affidavit of E. Wilson, President of the Board of Directors, showing that the contract price was a reasonable one, and that the contract was made in good faith.

Third—The third item of the claim is for an amount due for beef delivered under the contract, but which by mistake was omitted in settling the account with the Board of Directors. The certificate of McKenzie and Bell, two of the Directors, and the affidavit of Bell herewith submitted, show how the error occurred and the propriety and justice of its correction.

We do not know upon what ground it is possible to dispute the obligation of the State to pay the whole of this claim.

It may be imagined that this debt was included in the settlement made by the State with McCauley and Tevis in eighteen hundred and sixty.

There is no foundation whatever for such a suggestion. Any one can readily satisfy himself of this by reference to the act of last year and to the contract made in pursuance of it.

The act (page two hundred and forty-nine of acts of eighteen hundred and sixty) is for the settlement of all claims against the State arising out of, or connected with, the contract made the twenty-sixth of March, eighteen hundred and fifty-six, between the State and James M. Estill. Such is its title. In the body of the act the claims to be released are specifically mentioned. They are first for all sums of money due, or to become due, under that contract, or for any violation thereof. Second—claims against John B. Weller, and others under him, for the taking and deten-

tion of the property of McCauley, and all claims against the State for property taken by said Weller and not returned.

Now, the present claim has no connection with, does not arise under, the contract between the State and Estill of the twenty-sixth of March, eighteen hundred and fifty-six. It occurred before that contract was made—the first item in June, eighteen hundred and fifty-five, and the last two, between the first of January and the twenty-sixth of March, eighteen hundred and fifty-six—and McCauley was no party to the contract of the twenty-sixth of March, eighteen hundred and fifty-six, nor had he any connection with General Estill, nor with the State Prison contract until the month of May, eighteen hundred and fifty-seven.

That this claim was not to be included in the settlement was distinctly understood by the Legislature of eighteen hundred and sixty, when it passed the act providing for a settlement.

The act was introduced in the Senate and passed by that body. Before its introduction this claim of McCauley had been presented to, and allowed, by the Board of Examiners, and had been reported to the Legislature. When the act came before the Assembly it was considered in Committee of the Whole. Mr. Conness offered two amendments—one relating to the form of the release to be executed by McCauley and Tevis—the other a provision that as part of the proposed settlement, Mr. McCauley should release the State from this claim as well as from all claims arising out of, or connected with, the Estill contract of March twenty-sixth, eighteen hundred and fifty-six. The first amendment being unobjectionable, was assented to by the Attorney of McCauley in his behalf, and agreed to by the Senate. The second amendment would have rendered a settlement impossible. The Senate refused to agree to it. A Committee of Conference was appointed, who recommended that the Assembly should recede from the amendment. The Assembly did recede, and the bill passed without this amendment. The action of the Legislature was therefore a distinct refusal to include this claim in the settlement, and it was founded upon the declaration of McCauley, that if it were included he could not accept the sums proposed in satisfaction of his claims.

That sum had been fixed upon after a conference between the Senate Committee, composed of Messrs. Sharp, Wheeler, and Kirkpatrick, and Mr. A. P. Crittenden, on the part of Mr. McCauley, as the lowest amount for which a settlement could be made of the claims arising out of the Estill contract. (See Senate Journal of eighteen hundred and sixty, pages seven hundred and eighty-three, seven hundred and ninety-five, seven hundred and ninety-six, eight hundred and three, and eight hundred and nineteen; also, Assembly Journal of eighteen hundred and sixty, pages eight hundred and four and eight hundred and five.)

If the Senate desire any further evidence of the fact that this claim was not included in the settlement, it will be found in the written contract of compromise between the State and McCauley and Tevis, executed in August, eighteen hundred and sixty. The original of that contract is required by the fifth section of the act of April twenty-first, eighteen hundred and sixty, to be filed in the office of the Secretary of State, and by the sixth section the Board of Commissioners were required to make a report of their proceedings to the present Legislature. (Acts of eighteen hundred and sixty, page two hundred and fifty.)

MERRITT,

Report accepted.

Mr. Franklin made the following report :

MR. PRESIDENT :—Your Committee on State Hospitals respectfully submit the following report on the condition of the State Insane Asylum, ascertained by visiting and inspection of the same :

We find the financial affairs of the asylum on a complete economical basis.

After inquiry and examination of the books and accounts of the Treasurer, Secretary, and Clerk, we were satisfied with the vouchers produced for the expenditures of the institution.

It is with pleasure we report that no debts have been contracted by the Trustees during the last fiscal year, and thus far during the present, the expenditures have been kept within the appropriation. The Trustees report that of the appropriation of eighty-four thousand dollars, made by the last Legislature for the support of the asylum for the fiscal year commencing July first, eighteen hundred and sixty, and ending June thirtieth, eighteen hundred and sixty-one, the sum of thirty-five thousand dollars had been drawn from the State Treasury, leaving undrawn forty-nine thousand dollars, and that there remained on hand of the sum drawn, after paying all the indebtedness of the institution up to the first of De-

cember, eighteen hundred and sixty, a balance of four thousand nine hundred and fifty-six dollars and eighty cents, which, being added to the forty-nine thousand dollars yet undrawn, leaves a sum total of fifty-three thousand nine hundred and fifty-six dollars and eighty cents for the remainder of the fiscal year, which your committee deem sufficient to pay all the expenses that may accrue for the remainder of the fiscal year.

The special appropriation of one thousand dollars, for the purchase of cows and the establishment of a dairy, has been faithfully applied, and, although it has undoubtedly contributed to the well-being and health of the inmates as well as a saving of expense in living, yet, in order to make it complete, we cordially agree with the Resident Physician and Trustees in recommending an additional appropriation to be expended in the purchase of an additional number of cows. The cows purchased last year were fed from the offal from the kitchen, and hay gathered from the grounds mostly by the labor of the inmates.

The hygienic condition of the wards, apartments, mad-houses, bath-rooms, privys, etc. together with the inclosures for out-door exercise, evinced the most scrupulous regard for the comfort and sanitary benefit of the unfortunate inmates.

The result of the treatment, as shown by the statistics contained in the report of the Resident Physician of the asylum, will compare favorably with similar institutions in the Atlantic States or elsewhere; particularly is this true when we consider the almost innumerable exciting causes of mental disease existing in California not observed anywhere else. But whilst this is the fact, we must state that the institution is already too much crowded, and in the language of the report of the Resident Physician, which we cordially indorse, both the health and comfort of the patients will be prejudiced by any addition to their numbers without a corresponding addition to the buildings.

The books of the asylum were found correct, concise, and easily understood, reflecting credit to the Secretary and Clerk having them in charge.

Finally, your committee are of opinion that the business of the asylum in all its details, legal requirements, etc. are faithfully carried out. The Resident Physician has made many improvements on the grounds connected with the institution. This has been accomplished mostly by the labor of such patients as were found in a condition to engage in moderate labor, it being universally acknowledged that exercise in the open air materially improves the condition of the inmates.

We would particularly invite your attention to a comparative statement of the cost of maintaining each person per week in some of the principal insane asylums in the United States, found in the report of the Resident Physician.

It speaks volumes in praise of the management of the institution on the score of economy. When we consider the high price of provisions, salaries, etc. in California, we would respectfully refer to said report for much valuable information which cannot be embodied in a report like this.

For the amount required the next fiscal year we would recommend _____ dollars, as the sum to be inserted in the general appropriation bill of the present session, for the support of the State Insane Asylum; and for the purpose of having the institution properly arranged for the more improved methods of ventilation, lighting, and heating, we would recommend that a competent Architect be appointed to submit plans to the Board of Trustees, and that a sum be appropriated, as a contingent fund, to carry out said plans, and for no other purpose. We would particularly recommend this, both on the score of economy as well

as the comfort of the inmates; besides, the present mode of heating, etc. the buildings are in constant danger of taking fire, which would be greatly lessened by adopting the system proposed.

We would recommend the purchase, by the State, of block, No. — situated immediately in the rear of the buildings. It would increase the inclosure for out-door exercise, at present very much confined. The square on which the building is situated is surrounded on three of its sides with public streets. The Trustees assured as that the authorities in control would vacate two of the streets if said block is purchased, thereby donating as much additional ground to the State as is contained in the block itself. It would afford space for an inclosure, especially for the females. The narrow plat in immediate proximity to the streets, at present excludes the females from out-door exercise, except in a contracted inclosure in close vicinity to the mad-house.

We cannot conclude this report without referring to the Resident and Visiting Physicians, Trustees, and Treasurer, in terms of commendation, not only on account of their devotion to the very best interest of the asylum, but for their untiring industry in behalf of the institution which is recognized in the admirable system of good order which prevails in every department, tending to promote the comfort and happiness of the inmates.

With a view of carrying out the recommendations in this report, we will, at an early day, introduce a bill, or bills, which we will recommend to your favorable consideration.

J. J. FRANKLIN,
Chairman.

Report accepted.

Mr Harvey, of the committee, gave notice that he would at an early day make a further report :

Mr. Vance made the following report :

MR. PRESIDENT:—The Committee of Free Conference appointed by the Senate and Assembly to consider Assembly Bill, No. 41, An Act for the collection of Delinquent Taxes in the County of Butte, for the purpose of adjusting the differences between the two Houses, recommend that words "fifty per cent." be stricken from the Senate amendment, and insert in lieu thereof the words "eighteen per cent." all other amendments to be concurred in.

VANCE,
Chairman of Senate Committee.

COMMUNICATION FROM THE ATTORNEY-GENERAL.

The President presented a communication from the Attorney-General, which was read as follows:

ATTORNEY-GENERAL'S OFFICE, }
Sacramento City, March 20, 1860. }

To the President of the Senate:

SIR:—The resolution of the Senate, relative to the title to land occupied for State Capitol purposes, has been received.

Upon examination of the records of Sacramento County, I find that the land, upon which the city of Sacramento is located, and of which the Capitol grounds are a part, was conveyed by John A. Sutter, Sr., who claimed the same by virtue of a grant from the Mexican Government, to John A. Sutter, Jr. October fourteenth, eighteen hundred and forty-eight.

That Sutter, Jr. reconveyed to Sutter, Sr. June twenty-fifth, eighteen hundred and forty-nine, and the latter again conveyed to the former, May seventh, eighteen hundred and fifty.

As appeared by the certificates of the Searcher of Records, hereafter spoken of, the parties claiming lots and parcels of land within the boundaries of the Capitol grounds, did the same through the Sutters.

So far as I have examined, I find the usual description of the land embraced in the Capitol grounds, in conveyances from one to another, to be, "Lot ———, in the square, or block, between ——— streets," for example, lot numbered eight, in the square between L and M, and Tenth and Eleventh streets.

On the second day of October, A. D. eighteen hundred and forty-nine, Sutter, Jr. conveyed to the then and future property holders of Sacramento, the streets and alleys embraced in the above mentioned and other city lands, the same to be held and controlled by the future corporation of said city, as streets and alleys for the use, as such, of the public.

Soon after the passage of the act of March twenty-ninth, eighteen hundred and sixty, entitled An Act to provide for the Construction of the State Capitol in the city of Sacramento, I caused an abstract of the title of the land described in the first section of said act, to be made by Mr. Stevens, Searcher of Records.

As a precautionary measure, the streets and alleys were also set forth in the abstract, and were described as claimed by the city of Sacramento and John A. Sutter, Jr.

I gave the notice, made the motion, and took all of the steps required by the act aforesaid, necessary to the appointment of the Commissioners to appraise the land sought to be condemned.

The Commissioners were duly appointed, and I think legally and faithfully discharged their duties.

Upon a careful examination of the record now on file in the office of

the Secretary of State, I am satisfied that the law has been strictly pursued by all parties connected with the transaction, and that everything which could be done, under the law necessary to perfect the title, has been done.

The Commissioners estimated the interest of Sutter, Jr. in the streets and alleys, at two dollars, to which no exception appeared to have been made by any party in interest.

The Board of Supervisors of the city and county of Sacramento, passed an order authorizing a conveyance to the State of the interest of the city in the streets and alleys, and a deed was accordingly, in due form, executed.

The foregoing statement of facts, though brief, is sufficient to a proper understanding of the questions of law involved. I think the title to all of the land aforesaid is beyond question, except that portion formerly used as streets and alleys, and as to that portion, I think there is no reasonable ground for serious apprehension, although important and intricate propositions of law may be more, or less, involved.

I regard the deed of Sutter, Jr. to the property holders, or future corporation of the city, as a mere dedication of the streets and alleys, named in it, to public use. The fee remained in him until the condemnation of the land under the State Capitol act, unless it had previously passed to others by conveyance of the adjoining lands.

I am disposed to hold that it has so passed. The rule of law as laid down by the most able and distinguished American and English writers is, that every thoroughfare which is used by the public, and is common to all, is a highway, and the presumption is that the owners of the land, on each side, go to the center of the highway, and they have the exclusive right to the soil, subject to the right of passage in the public. The established inference of law is that a conveyance of land, bounded on a public highway, carried with it the fee to the center. The idea of an intention in a grantor to withhold his interest in a road to the middle of it, after parting with all his right and title to the adjoining land, is never presumed.

It would require an express declaration, or something equivalent thereto, to sustain such an inference, and it may be considered as the general rule that a grant of land, bounded upon a highway, or river, carries the fee in the highway, or river, to the center of it; *provided*, the grantor, at the time, owned to the center, and there be no words, or specific descriptions, to show the contrary intent. It is well settled that a conveyance bounding land on the side of the road, or upon a highway, or running to a highway, is a conveyance of the land to the center of the road, or highway. In the leading case of the John and Cherry streets, of the city of New York, decided by Judge Cowan, it is held that the same rule applied to streets.

The deed executed by the Board of Supervisors, amounts to nothing more than a vacation of the use of the streets and alleys by the public, which is all the law gave them power to do. The vacation of the streets and alleys by the public, restored the same to the owners of the fee, free of incumbrance, and, if as herein maintained, the fee was in the owner of the adjoining land, the title of the State is clear, because she had, by process equally as effective as by grant, become, prior to said vacation, the owner of all the adjoining lands, and had, by such process, succeeded to all the rights appertaining thereto, which were in the Sutters, or their grantees.

For the purpose, however, of avoiding the propositions discussed, the

precaution was taken to condemn the interest of any remaining in Sutter, and I cannot now discover anything in the proceeding calculated to endanger its regularity and validity.

In conclusion, allow me again to express my confidence in the title of the State to the whole of the land described in the act aforesaid.

Respectfully,

THOS. H. WILLIAMS,
Attorney-General.

IN SENATE.

SENATE CHAMBER,

Thursday, March 21st, 1861. }

Senate met pursuant to adjournment.

President *pro tem.* in the Chair.

Roll called.

Quorum present.

Journal of yesterday was read, and the motion being upon their adoption—

Mr. Watson moved to amend so that the journal of the Joint Convention would show that the announcement made by the President that James A. McDougall was duly elected United States Senator was not correct, that McDougall was not elected.

Mr. Thomas arose to a point of order—That the motion to amend was

out of order, this Senate having no right to amend, or otherwise act on the journal of the Joint Convention; that the journal of the Joint Convention had no right in the Senate journal.

The Chair ruled the point of order not well taken.

Mr. Thomas appealed.

The ayes and noes were demanded by Messrs. Gallagher, Merritt, and Leet.

Mr. Shafter was discussing the appeal, when Mr. Chase arose to a point of order—That the Senator (Mr. Shafter,) was discussing the motion of Mr. Watson to amend, and that the question before the Senate was the appeal of Mr. Thomas, therefore he was out of order.

The Chair ruled the point of order well taken.

Resolved, further, That the Governor and Secretary of State be requested to withhold the credentials to James A. To the Honorable the Senate of California :

I have to inform your honorable body that in response to the information conveyed to me by your Special Committee, notifying me of the action of your honorable body in relation to the election of Senator of the United States, in Joint Convention, on the twentieth instant that I have not issued credentials to the Hon. James A. McDougall as such, and that the certificate of the Speaker of the Assembly and President of the Senate is in the possession of the said Hon. James A. McDougall, and was conveyed to him immediately upon its reception from the presiding officers of the Joint Convention, ten minutes after the election was declared, and before any suspicion of error was reported to me. This delivery occurred by mistake. It is proper to remark that this certificate I consider the property of the Executive office, and is the only authority I can have for the issuance of credentials under our law.

The possession of this certificate by me, renders it obligatory upon me to issue the credentials required by our statute on the subject.

I will here state that in the discharge of my trust, I do not consider it competent to inquire behind it, while it stands unrecalled, or uncorrected,

by the only officers competent to convey to me the action of the Joint Convention.

I trust for the honor and dignity of the State that you will take such steps as will relieve this matter from even a suspicion of unfairness, or error.

While this subject is undergoing investigation by the Legislature, you can rest assured that there will be no action taken by me that will compromise the honor of the State, or her representatives.

I would suggest, with all proper deference, that each branch instruct its presiding officer to correct any error, if any, in their declaration to me.

In the absence of this, my duty is clear and imperative, and I will be compelled to issue the credentials, as required by law.

I respectfully request that your honorable body will transmit this to the Assembly.

JOHN G. DOWNEY,
Governor.

Senate substitute for Senate Bill, No. 139, An Act authorizing Joseph Galloway and others to build a Wharf at San Francisco—was taken up.

Mr. Phelps, by leave, offered the following report thereon, whereupon the whole subject matter was made the special order of the day for Tuesday, April second, eighteen hundred and sixty-one, at twelve o'clock, M. viz:

Mr. PRESIDENT:—The undersigned, a minority of the Committee on Commerce and Navigation, to whom was referred Senate Bill, No. 139, An Act providing for the building of a Wharf at the foot of Howard Street—has had the same under consideration and begs leave to make a report thereon and to recommend its indefinite postponement, and also the substitute offered by the committee.

The undersigned is of opinion that there is a sufficient number of wharfs on the immediate city front already constructed for the convenient use of commerce, although there is not perhaps a sufficient depth of water at the wharfs for the accommodation of vessels of the largest class, but he is of opinion that the remedy for this is not in building more wharfs, but that there can and should be sufficient water obtained at all the present wharfs in San Francisco, as it is obtained and maintained in every other sea port, viz: by dredging.

We have no evidence emanating from commercial men of San Francisco that there is any lack of wharfing accommodation in that city. It is true there is a small petition in favor of the passage of this bill, but in opposition to it we have a remonstrance signed by the principal merchants doing business in the neighborhood of Howard Street, and who are the only parties that could be benefited by its construction if it was necessary.

Admitting there is no urgent necessity for more wharfs, he is of opinion that there are good and valid reasons why more wharf franchises should not be granted on the city front at the present time, as measures have been instituted to secure a scientific survey of the harbor with a view to the constructing the water line front in such a particular and uniform manner as will most effectually protect the harbor when the present water-lots shall be filled in and built upon.

When this is determined it will evidently be very desirable that parties obtaining these franchises shall be compelled to comply with the general plan for constructing the required work, or shall at least waive all claim to damages on account thereof arising out of delay in building their wharfs, or from obstructions to their use, or from unavoidable damage done to them by parties engaged in constructing such works.

The undersigned knows of no sea port without this State where wharf franchises are granted that the power granting them does not prescribe the particular plan of the work, or mode of building them, so as to protect the harbor and to give to commerce the necessary accommodation, and the failure on the part of this State to make these usual and proper requirements has led to protracted and expensive contests in the Legislature over bills giving to parties an entire monopoly of the city front and the whole wharfing interest on condition that such parties would construct the works that the holders of the present wharf franchises should have been bound by the terms of their franchises to build.

The granting of such a stupendous monopoly could not prove otherwise than disastrous to the best interests of the people of the whole State, but it can only be avoided by proper and judicious action on the part of the

Legislature in requiring the recipients of these franchises to conform to certain plans which are not yet matured and which consequently cannot be engrafted into any bills during this session.

Probably by the opening of the next session of the Legislature the Engineers detailed by the General Government to make the necessary survey of the harbor will have completed their labor and will place before the Legislature all the information necessary to enable us to determine upon some systematic plan for the protection of the harbor and the proper accommodation of commerce, and as there is now no lack of wharfing facilities the undersigned most earnestly hopes the Senate will see the propriety of refusing all wharf franchises on the city front proper during the present session of the Legislature.

This bill as it now reads is so loosely and carelessly drawn as to need no argument from me to show that it ought not to pass. A part of the second section reads: "All right of the State of California to the land on which said wharf may be built, and to the lands on each side of said wharf not exceeding two hundred and seventy-five feet on either side bounded on the west by the said city front is hereby released to said parties for the term of fifteen years, said two hundred and seventy-five feet to be used for slip purposes only, and the free ingress and egress of vessels."

This grant on the part of the State is so complete and unconditional for the period named as to render it very doubtful indeed whether the Harbormaster or city government could exercise any control over the slips in the mooring of vessels, or in any other matter so long as it was used for slip purposes any more than they can regulate the management of a man's farm to which he has an undisputed title, yet all must see at once the necessity of proper harbor regulations and of requiring all to conform to them.

Again, it appears to the undersigned that we should so far profit by the experience of the past as to require parties who receive wharf franchises at our hands to dredge whenever necessary to maintain the present or a sufficient depth of water to accommodate properly the class of vessels that enter that port.

It should be borne in mind that the water lots are being filled in and the sewers which discharge such vast quantities of earthy matter are constantly being extended nearer to the water line front, thereby rendering dredging more and more necessary.

Had there been a wall, or bulkhead, built along the city front ten years ago, with sewers extending through it, there cannot be a doubt in the mind of any man who has paid any attention to the harbor but there would have been ere this a belt of dry land at low tide where the present wharfs are composed of sediment carried there by the sewers, had it not been removed by dredging but which has in the past condition of things settled principally upon the mud flats west of the water front line.

Respectfully submitted,

T. G. PHELPS,

Of Committee of Commerce and Navigation.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 29th, 1861. }

To the Honorable the Senate of California:

I have to inform your honorable body that I return Senate Bill, No. 197, An Act to incorporate the Town of Grass Valley, with the following objections:

Article Four, Section Thirty-Seven, of the Constitution makes it "the duty of the Legislature to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts, and loaning their credit, so as to prevent abuses in assessments and in contracting debts by such municipal corporations."

Section five of this bill provides that "the people, by vote, at a formal election, shall have power to impose on the property of the town such rate of taxation as they may desire."

It was never the intention of the framers of the Constitution to give this unlimited power of taxation to the people; that power is wisely vested in the Legislature and cannot be transferred without constitutional restrictions.

I regard this bill as clearly unconstitutional, and respectfully return it for your reconsideration.

JOHN G. DOWNEY,

Governor.

The question being, Shall the bill pass notwithstanding the objections of the Governor? the ayes and noes were called with the following result: Ayes, 15—noes, 8:

AYES—Messrs. Chase, Clark, Crittenden, Dickinson, Edgerton, Harvey, Haynes, Heacock, Irwin, Leet, Thornton, Warincastle, Watkins, Watson, and Watt—15.

NOES—Messrs. De Long, Denver, Hill, Rhodes, Shafter, Sharp, Vance, and Williamson—8.

So the veto was sustained and the bill did not pass.

SPECIAL ORDERS.

Assembly Bills, Nos. 56, 57, and 157, together with Senate Bill, No. 97, being the first special order—were taken up.

On motion of Mr. De Long, made special order of the day for Tuesday, April second, eighteen hundred and sixty-one, at half past eleven o'clock, A. M.

Senate Bill, No. 80—was then taken up.

On motion of Mr. Phelps, made special order of the day for Thursday, April fourth, eighteen hundred and sixty-one, at half past eleven o'clock, A. M.

On motion of Mr. Leet, the usual number of copies of the bill, together with the amendments reported thereto, were ordered printed.

Mr. Gallagher, by leave, offered a report from the committee appointed to investigate into the voting in Joint Convention on the twentieth day of March, eighteen hundred and sixty-one, for the office of United States Senator.

Report received and read.

The question being upon the acceptance of the report and discharging the committee.

Mr. Parks moved that the report be returned to the committee with a request that they report to the Senate the facts connected with the alleged election of a United States Senator on the twentieth day of March, eighteen hundred and sixty-one, and the proper conclusions and deductions therefrom.

Mr. Logan arose to a point of order—That the report was made by a Joint Committee of the two Houses, therefore it was not in the province of this Senate to rerefer.

The Chair ruled the point of order well taken.

Mr. Parks appealed.

The question being, Shall the decision of the Chair stand as the judgment of the Senate?—was put, and lost.

So the Chair was not sustained.

The question recurring on the motion to recommit, the ayes and noes were demanded by Messrs. Edgerton, Chase, and Watt, and taken with the following result: Ayes, 19—noes, 7:

AYES—Messrs. Burbank, Chase, Clark, Crittenden, De Long, Edgerton, Harvey, Haynes, Heacock, Hill, Merriitt, Parks, Pico, Rhodes, Ryan, Shafter, Sharp, Vance, and Watkins—19.

NOES—Messrs. Denver, Eagan, Franklin, Leet, Logan, Thornton, and Williamson—7.

So the motion prevailed, and the report was recommitted to the special committee.

Mr. Gallagher, on his own motion, was excused from further serving on the committee.

Whereupon, the President appointed Mr. Edgerton in his place.

GENERAL FILE.

IN SENATE.

Reported back, amendments concurred in, and bill read a third time, and passed.

Senate Bill, No. 204, An Act amendatory of, and supplemental to, An Act, passed April twenty-ninth, eighteen hundred and fifty-one, to regulate proceedings in Civil Cases—was taken up, read a third time, and passed, and the title amended.

Senate Bill, No. 126—was taken up.

On motion of Mr. Warmcastle, made the special order of the day for Tuesday next, April second, eighteen hundred and sixty-one, at one o'clock, P. M.

Mr. Sharp made the following report:

MR. PRESIDENT:—The Committee on the Judiciary have had under consideration the special message of his Excellency the Governor, of March sixteenth, eighteen hundred and sixty-one, and the accompanying communication from the Attorney-General, and make this their report.

It is found that under the statute levying a tax upon foreign and inland bills, etc. etc. a large sum of money has been paid into the State treasury, some part of which has been paid under protest made at the

time of payment to the various officers by whom the final issue of the stamped paper was made.

Suits to recover a large sum thus paid are threatened, and one action in favor of Messrs. Wells, Fargo & Co. for the sum of six thousand four hundred and forty dollars and interest, has already been brought against the State Treasurer, and some others against the Treasurer of the city and county of San Francisco it is said have likewise been commenced.

The most favorable state of facts for the plaintiffs is where money has been paid under protest, and when the money remains in the hands of the defendant of the action, he being the party to whom the money was paid.

That money can be recovered which has been paid under mistake, or fraudulent imposition, or duress of person, or goods, is abundantly established.

In all these cases, however, the mistake must be of fact, the fraud must have influenced the payment, or there must have been actual caption, or duress of person, or goods, or threats of duress, accompanied with power to enforce it.

In the opinion of the committee none of these circumstances exist in the cases occurring under the cases above specified.

The impost upon stamped paper, at least so far as bills of lading are concerned, has been adjudged unconstitutional, and it seems necessarily to follow as to such bill of lading that no person was in danger in violating the statute making such impost. The act of issuing such bills of lading being in the prosecution of a business without any legal prohibition. If the impost upon bills of exchange differs from that upon bills of lading, the difference must be in favor of the former.

Under such circumstances no person was under the slightest obligations, legal, or moral, to pay the demanded impost, or to purchase the paper upon which the stamp had been placed.

An illegal and vexatious prosecution would have been the only result of refusal so to purchase, and against such prosecution through the consequence of improvident legislation the law furnishes adequate protection.

It may seem harsh to retain money which has been illegally, or oppressively exacted, but it must be borne in mind that in this State such exactions are too general to admit of adequate redress, and it is further to be considered that the persons who have made the payment of the illegal impost are most of them already reimbursed from those to whom they have made sale of the stamped exchange, or other paper.

The committee do not consider that the question involved in the original imposition of the stamp tax was one of very great difficulty, and they are disinclined to recommend any steps which shall put those who reluctantly submit to extortion upon an equality with those who resist such means by legal defense interposed upon the first attempt to commit it.

Believing that there is no liability on the part of the officers who have received this tax to refund it, and that there is no equitable claim against the State, your committee recommend the passage of the accompanying resolution.

SHARP,
Chairman.

Report accepted.

Mr. Shafter offered the following resolution :

MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, April 5th, 1861.

To the Honorable the Senate of California:

I return to your honorable body Senate Bill, No. 116, An Act supplementary to an Act entitled An Act granting the right of way over certain Lands of this State in the Counties of San Francisco and San Mateo, approved April 26th, A. D. eighteen hundred and fifty-eight—without my approval, and with the following objections:

By the act of eighteen hundred and fifty-five, authorizing the construction of a bridge across Mission Creek, and which bridge is now sought to be made a toll-bridge, it is provided that no tolls shall be charged for persons crossing over, or boats going through, said bridge, nor for persons passing along the street leading thereto, in the City of San Francisco; also, the road leading therefrom into, and through, the County of San Francisco.

The act approved March first, A. D. eighteen hundred and sixty, gives the San Bruno Turnpike Company the right to collect tolls on this bridge and the street leading thereto, on condition that certain improvements should be made on Brannan Street, and also that the right to collect this toll should cease after a term of three years.

It is now sought by this bill to extend this time three years longer, and to increase the rate of toll, to which the citizens on this street and those living on the Potrero Nuevo protest.

The local government of the city and county of San Francisco, who are supposed to be familiar with the wants and necessities of the people of that locality, also protest against this measure.

The act of last year gives this corporation all the privileges they could reasonably expect, and justice to the property owners and residents along the street, and those in the vicinity of the bridge, would demand that that association should be held to its contract, and that the right to collect toll should cease within the term prescribed by the act of last year.

For these reasons I return this bill for your reconsideration.

JOHN G. DOWNEY,
Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, April 4th, 1861. }

To the Honorable the Senate of California :

I transmit herewith a letter and accompanying report of Professor J. D. Whitney, State Geologist, for the consideration of your honorable body.

JOHN G. DOWNEY,
Governor.

To His Excellency,

JOHN G. DOWNEY,

Governor of the State of California :

SIR:—By the terms of the act by which the office of State Geologist was created, and the geological survey of the State of California instituted, a copy of which is appended, it becomes the duty of said Geologist, "as near as may be at the beginning of each session of the Legislature, to present to the Governor a 'report of progress,' in which the operation of the geological survey, during the preceding year, shall be set forth, and its more important practical results made public." The State Geologist is also required to furnish such estimates as he shall deem proper, of the amount of appropriation which shall be required for the continuance of the survey, furnishing at the same time an account of the expenses incurred up to the time at which the report is made.

In accordance with the provisions of the act, a report of the operations of the survey is presented in the following pages, although the fact that but little over four months have elapsed since the work was commenced will be sufficient reason for not expecting a very long or elaborate document at this time. Indeed, it would hardly be justifiable in the Geologist to assume to speak with confidence of the resources or capabilities of any portion of the State after so short a period had been devoted to its examination. A copy of the act authorizing the Geological Survey of California, and appointing the State Geologist, which was approved April twenty-first, eighteen hundred and sixty, reached me early in June, in Wisconsin, while engaged in prosecuting a survey of the lead region of that State, having been forwarded from Sacramento on the thirtieth of April. To this I replied June thirtieth, accepting the appointment, and promising to enter on the work as soon as my other engagements had been fulfilled. In return to this reply my commission as State Geologist was made out and forwarded on the fourteenth of July, and reached me about the middle of August. Soon after this, having completed my reports to the State of Wisconsin and Illinois, on the geology of the lead region of the upper Mississippi, I commenced the necessary preparations for removing to California, procuring such instruments and engaging such assistance as seemed proper for making a commencement for the survey.

One of the most important positions on the survey was filled by the appointment of Prof. W. H. Brewer, recently of Washington College, Pennsylvania, and who had just been appointed Professor in the New York Agricultural College, to take charge of the department of botany and agricultural chemistry. Mr. W. Ashburner was also engaged as Assistant in the department of chemistry and geology.

Sailing from New York on the twenty-second of October, we landed at San Francisco on the fourteenth of November, and Messrs. Brewer and Ashburner left for Los Angeles, with part of the necessary outfit, intending to complete their preparations, and take the field as soon as possible, in that part of the State. While these gentlemen were thus engaged, I

took occasion to visit the highly interesting and important mining estate of Mariposa, in company with two eminent foreign mining engineers—Messrs. Laur and Claudet—who were engaged in making investigations into the mineral resources of California, in behalf of the French Government and the house of Rothschilds. A week was spent in that region, in making examination of the mines and machinery now at work on an extensive scale. The observations made at that time will be embodied in a future report, in connection with others to be hereafter carried on at all the quartz mining localities; and this branch of the mining interest of the State will be made the subject of a special investigation, and fully reported on, at as early a period as possible.

After a week devoted to the Mariposa estate I repaired to Los Angeles, and there rejoined my party; and having completed our outfit we took the field on the twelfth of December, and have been constantly occupied up to the present time. Our explorations have extended from the vicinity of Temescal, on the southeast, along the various ranges in the southwestern portions of San Bernardino County and Los Angeles County, and up the coast as far as Santa Barbara, where I left the party, under the charge of Prof. Brewer, on the twenty-third of March. Their instructions were to make examinations, and work up the coast ranges towards the north; and they are expected to have completed their reconnoissance as far as San Luis Obispo in about three weeks from this time, at which point they will receive further instructions as to their work.

From the seventh of February to the seventeenth of March I was absent from my party, having during that interval visited Sacramento, and appeared before the Legislative Committees, at which time I made a verbal statement of the progress of the work under my charge, and also submitted estimates for the continuance of the survey during the next year. I also, by invitation of the Legislature, addressed them on the subject of the geological survey and the general mining history of the United States. During this interval I also commenced the exploration of the important coal district newly opened in the vicinity of Monte Diablo.

I now propose to complete the examination of the coal region, and then to take up a portion of the gold mining district, beginning in El Dorado and Placer counties. If possible, during the summer, the argentiferous region embracing the Washoe, Esmeralda, and Mono, mines, will be visited and examined. The work will be so arranged, for the present, that there will be two parties in the field, one of which will be working up the coast range, and the other engaged in the mining region.

At as early a period as possible after the meeting of the next Legislature, an estimate of the cost of printing the first annual report, with a synopsis of its contents, will be laid before the Legislature; so that, if ordered to be printed, the work may be done and the report placed in the hands of the Governor in a printed form before the adjournment of the Legislature.

Having already laid before the Committee on Mines and Mining Interests an estimate of the amount required to carry on the survey for another year, I shall await the action of the Legislature, before proceeding to make definite arrangements for securing additional aid in the zoological and palæontological departments.

J. D. WHITNEY,
State Geologist.

Referred to the Committee on Mines and Mining Interests.

Mr. Watkins made the following report:

Mr. PRESIDENT:—The undersigned member of the Committee on Claims to whom was referred the claim of G. D. Bliss for three thousand two hundred and three dollars and nine cents, being balance due on a warrant for six thousand eight hundred and fifty-one dollars and forty-seven cents, dated December fourth, eighteen hundred and fifty-three, issued by the State for beef furnished the State—has had the subject under consideration, report the same back and recommend the payment of the sum due.

From an examination of the facts it appears that the warrant was presented to the Legislature for payment at the session of eighteen hundred and fifty-eight, during the absence of the claimant from the State, and was referred to the Committee on Claims of the Senate; that the committee went behind the warrant and took testimony with a view to show the consideration upon which the warrant was issued; that by reason of the absence of the claimant the Commissary's receipt for only a portion of the supplies furnished were presented, and that as far as the receipts were presented the claim was allowed, amounting to three thousand two hundred and three dollars and nine cents.

The undersigned deem that the State has no right to go behind the warrant, but permitted the claimant to produce the evidence necessary to show that the whole amount of supplies for which the warrant was issued was furnished, which evidence, in the form of a certificate of the State Prison Directors, now on file in the Controller's office, was produced by the claimant before the undersigned and which was not produced before the committee in eighteen hundred and fifty-eight. The undersigned is therefore of the opinion that the sum of three thousand two hundred and three dollars and nine cents is now due the claimant by the State, a bill for which is herewith reported and its passage recommended.

WATKINS,
Chairman.

Report received, and bill reported by the committee read first and second times, and placed on file.

Mr. Parks made the following minority report:

Mr. PRESIDENT:—The undersigned member of the Committee on Claims to whom was referred the claim of G. D. Bliss & Co. find upon examination that the same has been before the Legislature in the year eighteen hundred and fifty-eight, and that a portion of the same was audited and allowed, and it is the opinion of the undersigned that it was the intention of the Legislature to pay the claim in full and that the warrant accompanying this claim belongs to the State and should have been canceled, and that the parties had no right to draw the same from the office of the Secretary of State.

W. H. PARKS.

Report received, and placed on file.

Mr. Watkins made the following report:

Mr. Merritt made the following report :

MR. PRESIDENT :—The Joint Committee of Senate and Assembly, instructed to proceed to Marysville to examine into the affairs of the State Reform School, and also to visit the Industrial School at San Francisco with reference to a proposed transfer of the State Reform School thereto, having performed the duty assigned them, beg leave to report as follows:

Though unavoidably delayed for several weeks, your committee, on the twenty-second ult. visited the Reform School at Marysville.

LOCATION.

Its location we found to be upon the east bank of the Feather River, six miles above its confluence with the Yuba, and about the same distance north from Marysville. It is accessible by an excellent public road which leads to Oroville, passing about one-half mile from the buildings of the school.

It will be remembered that this site for the State Reform School was selected by a Board of Commissioners appointed by Governor Weller in the early part of eighteen hundred and fifty-nine, he acting under the authority of an act entitled An Act for the erection and establishment of a State Reform School, passed April fourteenth, eighteen hundred and fifty-nine. These grounds were purchased by the city of Marysville from Chas. E. Covillaud, Esq. of Yuba, and by him deeded to the State for the purposes of a State Reform School. The lot of ground embraces one hundred acres—eighty-five high, and fifteen low, or bottom, land. The former was purchased at ten dollars, and the latter at thirty dollars, per acre, the whole amounting to the sum of one thousand three hundred dollars. The highest portion of these grounds is "plain land," and lies about thirty feet above the river, by which it is bounded upon the west. The soil of this portion of the lot appears to be of moderate fertility, but of a character readily susceptible of any required degree of improvement. The lower grounds have a rich alluvial soil extremely productive. The whole place, especially that portion lying along the above river bank, is well timbered with fine oak and other wood which add materially to the beauty of the grounds, and will in summer afford ample and delightful shades. Amid clusters of these trees the buildings for the Reform School are being erected.

The wisdom, or the lack thereof, displayed by the Commissioners of eighteen hundred and fifty-nine in selecting the above site for a State Reform School, your committee do not feel called upon herein to discuss. Doubtless, it has its advantages and disadvantages, as would have had any other which could have been chosen. Probably, no location was, or even now would be, possible which would give entire satisfaction to all parties, while all adopt their own advantage, or convenience, as the stand point for their approval, or disapproval. Your committee, however, were unanimously of the opinion that a site nearer the city of Marysville would have been preferable to the one selected. So long as the inmates of a Reform School are detained within their appropriate buildings, or inclos-

ures, (as of necessity they always should be,) your committee see no advantages arising from such isolation. A well regulated Reform School is by no means a moral pest-house that it should be studiously placed so remotely from other dwellings! Were the buildings, now being erected, within any city, or town, they would, when completed, be at once ornamental and attractive in the extreme. But the location has been made, the site of the buildings fixed, the State is in possession and ownership of the property, and the improvements thereon are far advanced toward completion.

PRESENT ORGANIZATION.

The present Board of Trustees (rather two of the present members, one having deceased) were elected in Joint Convention of the last Legislature, near the close of its session, under the provisions of an act entitled *An Act for the establishment of a State Reform School and the erection of Buildings for the same*, approved April eighteenth, eighteen hundred and sixty.

On the twenty-second day of May following, the Trustees elect met at Marysville and, having duly filed their bonds (wherein they are jointly and severally bound in the sum of twenty-five thousand dollars for their faithful performance of duty,) they organized according to the terms and conditions of the Reform School Act, electing one of their number President, and another Secretary, of the Board of Trustees. Acting under the provisions of the said act, the Governor also appointed one of the Trustees—Mr. Lowry—as General Superintendent. Thus, in the Board of Trustees were the three offices of President, Secretary, Superintendent, held; but necessarily so, from the express provisions of the law under which they were elected and held their offices. The Board of Trustees, however, subsequently elected a third of their number to the office of Architect, which office your committee think might, perhaps, with more propriety, been filled, as it has since, and for several months, been, by some gentleman from without their Board. And your committee are of the opinion that the appointment of Architect was made several months sooner than the services of that officer were required; which fact, however, might not have been—probably was not—foreseen by the Trustees at the time this appointment was made.

SALARIES.

The salaries of the Trustees and officers of the Board per month, are as follows:

Salary Board of Trustees—three members—at \$50.....	\$150 00
Salary of Superintendent.....	50 00
Salary of Secretary (this office not now filled).	50 00
Salary of Architect.....	200 00
Total salaries per month.....	\$450 00
Total of all salaries paid up to April 5th.....	\$3,841 66

Certainly, these salaries, as above shown, are not exorbitant. There may be a question as to the necessity, past or present, of one, or two, of these offices; but in this matter the Trustees have had no discretion, consequently no responsibility—the offices having been created by law,

as above stated. However, this matter is of no very great moment now, as the offices of Superintendent and Architect soon expire by limitation, on completion of the buildings.

Upon the organization of the Board of Trustees on the date as above given, advertisements were immediately published for plans and specifications for the required buildings. In the acceptance of the one adopted by them, your committee are of the opinion that the Trustees labored somewhat under a misapprehension of the present demand of the State to be met by the institution in question. But this is a matter of opinion—time only can test its accuracy. The Trustees complain that they had little to guide them in the adoption of plans; the act on which only they had to rely, containing but this provision on the subject of buildings, to wit: "The Trustees shall be authorized and empowered to erect, or cause to be erected, a building suitable for the accommodation of *not less than eighty boys*, and for all necessary offices for teachers and assistants," etc. etc. Thus, they say, they found they could not erect a building of the above dimensions, with all the necessary rooms for offices and teachers, and servant dormitories, and workshops for boys, kitchens, storerooms, washrooms, etc. etc. for the appropriation made for that purpose, viz: thirty thousand dollars. They therefore adopted a plan for buildings which they thought would be sufficiently capacious; one which, when completed, would do for the present, and for several years to come, and which the appropriation of thirty thousand dollars would only partially complete.

PLAN AND DESCRIPTION OF BUILDINGS.

The buildings, if erected according to the plans adopted, will be of brick. The main central structure is to be two hundred and eighteen feet in length, by fifty-one feet in depth—three stories in height. From each end of this main building there is to extend an ell, or wing, one forty-eight by eighty feet, the other thirty-five by seventy-two feet, both to be three stories in height. Within the court thus formed, on three sides by the main building and projecting wings, a third building is contemplated in the plans adopted, to be used as a storeroom, kitchen, dining hall, bath-room, etc.

The plans adopted by the Trustees, are, in the opinion of your committee, in the main, excellent; but, as before intimated, we think them more extensive in design than are, or for many years will be, required. We would, therefore, recommend that the plans adopted be somewhat modified so as to render the buildings complete on a smaller scale and, hence, less expensive.

CONTRACT.

We find the Trustees have entered into a contract with Mr. John A. Steele for the erection of the main central building and the smaller, or south wing, the contract including the erection of the outer and inner walls, the partitions, the putting in of all flooring joists, the insertion of all door and window frames, granite door-sills, the completion of the roof and cornices, etc. The amount of the contract for this work is twenty-four thousand nine hundred dollars.

By the conditions of the contract, this work on the central building should have been completed on the first of last February. All the contract work is to be fully completed on the first of July ensuing. The failure of the Contractor in the completion of the main building at the time specified in his contract, he alleges to have been in consequence of failure on the part of the Trustees in making their payments to him,

according to stipulations, to wit: on the first and fifteenth of each and every month.

Up to the twenty-second of the present month, we find there had been paid the Contractor, on account, the sum of eleven thousand six hundred and eighty-eight dollars, the same being seventy-five per cent. on estimated value of all labor and materials furnished under contract—these estimates to be made by the Architect, under oath, twice each month as above stated. Thus, it would appear that up to the present time, there has been work and materials furnished upon the building of the Reform School to the amount of about sixteen thousand dollars, or two-thirds of the amount of the contract. We find the outer main walls erected to the third story, the inner to the second, and the necessary flooring joists inserted. The work is now rapidly approaching completion. We are informed by the Architect that, under present contract, all may be completed in about thirty days. The required lumber, bricks, and lime, are already upon the ground, as are also the material for the cornices, etc.

CONTRACTOR AND CHARACTER OF WORK.

Your committee have pleasure in saying that all materials thus far used, as well as labor performed, appear to be of the very best character and quality; in short, strictly in accordance with the contract which is at once guarded and exacting in its stipulations.

TRUSTEES.

The Trustees of the school appear to be using every means possible for the advancement of the interests of the institution under their charge, and for securing its early organization. We feel confident that nothing will hereafter be lacking on their part in securing the object so much to be desired. In this connection, your committee would commend the constant and untiring efforts of Mr. J. C. Pelton, on behalf of the State Reform School, during the past year. As one result of his labor, independent of the great advantages which will accrue to this institution from his experience and extensive observations, in the east, during six, or eight, months' travel among Reformatory Schools, he has secured an excellent library, of about two thousand volumes. Also a very large collection of charts, maps, school books, school stationery, etc. all free of charge.

Your committee would unanimously recommend that Mr. Pelton be compensated for his services, in such sum as the Legislature deem just.

SAN FRANCISCO INDUSTRIAL SCHOOL.

On the thirty-first ult. your committee, as instructed, visited the Industrial School, at San Francisco. We were accompanied by a committee of its Board of Managers of that institution, and by them shown the grounds and apartments of the school.

LOCATION.

The institution we found located on the former stage road to San José, about six miles south of San Francisco, three from the Mission Dolores. It is pleasantly situated, on the eastern slope of a hill, lying west of the Mission, thence running southward. The buildings front eastward, and from their picturesque eminence overlook the adjacent and partially surrounding valley. In the foreground, beyond this valley, stand the promontories of Mount San Bruno, beyond which are seen the waters of San Francisco Bay, and in the distance, the Coast Range, with its towering peak of Monte Diablo. This scenery, without this institution, is at once sublime and beautiful; but within, we are forced to say, that the aspect

changes. The appearance of the buildings, even without, are prison like—within, much more so.

DESCRIPTION OF BUILDINGS.

The building is constructed of stone in the basement, and brick in the other stories. The center building is forty-five feet by fifty-seven, two stories, with basement. The original plan contemplates two wings from the main building, of similar dimensions, each to be of brick, twenty-three by fifty-nine feet, two stories in height. Only one of those wings—the south—has been erected. In this are situated the cells, or dormitories, for the boys, the school room, dining room, etc. the rooms of the officers of the institute occupying the central building. The cost of construction was about twenty-five thousand dollars.

Attached to the school are one hundred acres of ground, most of which is susceptible of cultivation. The cost of the ground, or Reform School Lot, was thirty thousand dollars. These lands have since somewhat increased in value, and may now, perhaps, be valued at forty to fifty thousand dollars.

ORGANIZATION.

This institution was established by authority of an act entitled An Act to establish the Industrial School Department of the City and County of San Francisco, approved April fifteenth, eighteen hundred and fifty-eight. It was organized on the seventeenth of May, of the following year. It has, therefore, been in full operation about two years. Its management consists of a President, and Vice-President, Secretary, and Treasurer, and twelve Managers. The Managers being chosen by annual and life members of the institution. Your committee, after visiting the above Industrial School, and carefully noting whatever might assist them in the discharge of their duty, met in conference with the Board of Managers of the above school, to listen to such propositions as they might have to submit, contemplating the acceptance by the State of the Institution under their charge, and its future maintenance as a State Reform School, or their maintenance of the State juvenile delinquents.

The following are the propositions received by your committee from the said Managers, to-wit:

FIRST PROPOSITION.

The first proposition was the reception into the San Francisco Industrial School, and the maintenance and proper education, of all the State's juvenile delinquents, for the sum of one thousand dollars per month, during a period of three years.

SECOND PROPOSITION.

The second proposition was the free rent of the buildings and grounds, for five years, on the condition that the State receive and support the delinquents of San Francisco, without charge.

THIRD PROPOSITION.

The third proposition was the sale of the Industrial School buildings and grounds, to the State, for the sum of fifty thousand dollars.

The above propositions, your committee deem entirely reasonable. The second, we think extremely liberal. We regret that these propositions could not have been made to the State at an earlier day; in which case, your committee would have warmly advocated the acceptance of one or the other. Had these propositions been made before the commencement

of work upon the school at Marysville, your committee believe arrangements could have been made on the part of the State, which would have been extremely advantageous.

But now, former objections to the continuance of the State Reform School in its present location and the various arguments for its removal to some other locality, have, in the opinion of your committee, ceased to exist. We are of the opinion that neither of the above propositions, nor any other known to them, should be entertained by the State. We believe that an attempt, even, to remove the State Reform School from its present location in Marysville would be attended with the most unfavorable results to the institution itself, which should now receive the most ample support and cheerful encouragement of this Legislature. At the present time, as before stated, the affairs of the State Reform School to be in good condition and under faithful and efficient management; that all is being done and well done, that can be reasonably expected. Already we may regard thirty thousand dollars, (the full amount of the last year's appropriation) as expended upon the present site, and the work upon the buildings is rapidly going forward. We do not hesitate to say that up to this time the State has received an equivalent for her money expended; and that should the work upon the Reform School be carried to completion, in the manner it has thus far progressed, the State will then have by far better and cheaper buildings for the amount expended than any other of which she is in possession. Your committee, therefore, in view of all the circumstances to be considered, unanimously recommend that an appropriation be made sufficient to secure, without unnecessary delay, the organization of the State Reform School upon the site already selected.

APPROPRIATION.

The appropriation now necessary to sufficiently complete the buildings and improvements of the Reform School, and suitably furnish the same, your committee find to be as follows:

To complete the buildings now under contract.....	\$15,000 00
For Wall around same.....	6,500 00
For Fencing for Farm.....	2,500 00
For Teams, Wagon, and Harness, etc. etc.....	1,500 00
For small Stable and Out-Buildings.....	1,000 00
For furnishing House and School with suitable Fixtures and Furniture	2,500 00
For the purchase of small piece of Ground lying between the R. S. Lot and Public Road, which your Committee would recommend.....	500 00
For total of Appropriation required.....	\$29,500 00

Your committee feel it unnecessary to urge the claims of the Institution for which they ask this required appropriation. We believe that every consideration, both the moral and economical, demand and deserve our ready and cheerful support of the institution in question. Most of the older States of the Union have found, in these Reformatory Schools for juvenile offenders, not only an immense saving in their annual appropriations for the support of penitentiaries, prisons, and alms-houses, but what is vastly more important, a saving of seventy-five to ninety per cent. of

their young delinquents from absolute and hopeless degradation. These facts should strongly impress themselves upon our attention, and secure our prompt and cheerful action in these premises.

For securing this desired legislation, your committee would recommend the passage of the accompanying bill.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, April 10th, 1861. }

To the Honorable the Senate of California:

I have to inform your Honorable Body, that I have approved Senate Bill, No. 128, An Act concerning the City of San José, and to ratify and confirm a certain Ordinance of the Common Council of said City;

Also, Senate Bill, No. 61, An Act concerning Officers;

Also, Senate Bill, No. 125, An Act to convey certain Real Estate;

Also, Senate Bill, No. 104, An Act to grant certain parties the right of laying a Railroad Track along certain Streets within the City and County of Sacramento;

Also, Senate Bill, No. 68, An Act to amend an Act entitled An Act prescribing the mode of maintaining and defending Possessory Actions on Public Lands in this State, approved April twentieth, eighteen hundred and fifty-two.

JOHN G. DOWNEY,
Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
 Sacramento, April 9th, 1861. }

To the Honorable the Senate of California :

I would respectfully call your attention to the condition of the war indebtedness of the State. On the seventh day of March, last year, in my special message accompanying the report of the Commissioners of the California War Debt, the following language was used; "The Commissioners express a desire to be relieved from further connection with this matter, and yielding to that desire, I would respectfully recommend that an act should at once be passed requiring the Treasurer of State to receive from the Commissioners all books and papers, of whatever description, belonging to the Commission. A committee from both Houses should be appointed, who, together with the Treasurer, should examine into and report the present condition of the aforesaid indebtedness, and after having so reported should be required to cancel or destroy the redeemed coupons."

There was no action then taken in regard to this matter; the books, and papers, and redeemed coupons, together with the proceedings of the Commissioners, have remained in private hands. I trust the importance of this subject will elicit prompt action, and that steps will be taken to have these documents transferred to the custody of some State officer, and that the redeemed coupons will be canceled, so as to prevent, by any contingency, their being again put in circulation.

The balance due on the old war debt, two hundred and eighteen thousand dollars, as shown by the report of the Commissioners, resulted from the fact that the Legislature had neglected to take proper steps in having the nine hundred and ninety-five thousand dollars appropriated by Congress applied to the payment of our war bonds. This money was suffered to remain in the vaults of the National treasury from eighteen hundred and fifty-four to eighteen hundred and fifty-seven, while our bonds were drawing from twelve to seven per cent. interest. The amount appropriated by Congress at the time, was more than sufficient to meet our entire war debt. Through the apathy of the Legislature, or those in authority, this was suffered to accumulate until we have a balance on account of interest of more than one-fourth of the entire original debt.

I would, in this connection, call your attention to the act of last Congress, approved March second, eighteen hundred and sixty-one, making an appropriation of four hundred thousand dollars to pay expenses incurred in the suppression of Indian hostilities in this State, (a copy of which act of Congress I transmit herewith,) and trust before you adjourn you will take such steps as will secure the prompt settlement of these claims, or empower me to have it done during the recess of the Legislature.

It will be observed that provisions are made for making this payment in United States six per cent. bonds; it is therefore important to the State, and to the citizens holding a portion of the bonds representing this indebtedness, that we should at once take measures to procure an early adjustment of this matter. A considerable amount of this appropriation will revert to the State treasury, as it will be seen by reference to the act that the expenses of these specified expeditions were defrayed by direct cash disbursements.

I have already communicated with the Secretary of War, desiring information as to the steps necessary to be taken towards an early adjust-

ment of these accounts, and the transmission of the bonds to our State treasury. It will not, however, be possible to receive an answer before the middle of May next; in the meantime I respectfully call the attention of your honorable body to the subject, and trust it will receive such consideration as its importance demands.

JOHN G. DOWNEY,
Governor.

On motion, the above message was referred to a special committee of four, with instructions to report on or before Friday next.

The Chair appointed as such committee, Messrs. Leet, Ryan, Gallagher, and Haynes.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, April 11th, 1861.

To the Honorable the Senate of California:

I return to your honorable body Senate Bill, No. 132, an act entitled An Act to provide for the construction of a Macadamized Road within the limits of the City and County of San Francisco—without my approval and with the following objections:

The construction of more than one section of this road is contingent upon the consent of the United States; and upon the objections of the representatives of the United States the grantees have an indefinite time to complete the section of this road. In the meantime they are authorized to put a toll-gate not east of Leavenworth Street, and collect such rate of toll on this first section as the owners of the Mission Street Road are now authorized to collect, notwithstanding the fact that the Mission Street Road is completed its entire length. By reference to the map of the city of San Francisco it will be seen that a toll-gate is attempted to be placed almost in the very heart of the city, regardless of any expression of the will of property owners and residents along the route, or of first obtaining the consent of the Board of Supervisors of the city and County of San Francisco. I regard every toll-gate on roads, or streets, leading to, or from, San Francisco as objectionable, not only to the residents of the city of San Francisco, but also to those having business to transact in our commercial metropolis.

The Board of Supervisors should be empowered to get possession of these roads and maintain them as public highways. In their present condition they can only be looked upon as a public nuisance. For these reasons I respectfully return this bill to your honorable body for your reconsideration.

JOHN G. DOWNEY,
Governor.

The message being read and the question being, Shall the bill pass notwithstanding the objections of the Governor? the ayes and noes were taken with the following result: Ayes, 25—noes, 3:

AYES—Messrs. Burbank, Chase, Clark, De Long, Denver, Dickinson, Edgerton, Harvey, Haynes, Heacock, Irwin, Leet, Logan, Parks, Phelps, Pico, Rhodes, Ryan, Shafter, Sharp, Thomas, Thornton, Warmcastle, Watt, and Williamson—25.

NOES—Messrs. Gallagher, Merritt, and Vance—3.

So the bill having received the constitutional two-thirds vote, was passed notwithstanding the objections of the Governor.

Mr. De Long, pursuant to notice, moved to reconsider the vote by which the Senate on yesterday made the Pilot Bill, so called, the special order for Tuesday next at one o'clock, P. M.

Carried.

Mr. Dickinson in the Chair.

On motion of Mr. De Long, the substitute offered by the Committee on Commerce and Navigation to Senate Bill, No. 36, An Act to establish Pilots and Pilot Regulations for the Port of San Francisco—was taken up, considered in Committee of the Whole and amended.

IN SENATE.

Reported back, when Mr. Phelps moved to indefinitely postpone the bill together with all other bills now before the Senate on the same subject.

A division of the question being demanded, the question was first on indefinitely postponing the substitute to Senate Bill, No. 36.

Upon which, the ayes and noes were demanded by Messrs. Ryan, Merritt, and Phelps, and taken with the following result: Ayes, 9—noes, 13:

AYES—Messrs. Burbank, Dickinson, Leet, Merritt, Phelps, Rhodes, Shafter, Thomas, and Warmcastle—9.

NOES—Messrs. Chase, De Long, Edgerton, Gallagher, Harvey, Haynes, Irwin, Logan, Ryan, Sharp, Thornton, Vance, and Williamson—13.

So the Senate refused to indefinitely postpone.

Whereupon, the substitute was again considered in Committee of the Whole and further amended.

IN SENATE.

On motion of Mr. Phelps, the substitute together with all other bills relating to Pilots were placed at the head of the file.

Mr. Chase presented the petition of Bryen Killilea and Mary Ann Killilea praying for relief.

REPORTS.

Mr. Hill made the following report :

MR. PRESIDENT :—Your Joint Committee, appointed to visit, inspect, and report upon, the condition, management, and matters, relating to the State Prison, report that they have performed that duty, and herewith respectfully submit the result of their labors for your consideration.

The State Prison of California, from its first establishment, has been an incubus upon the State. Its history, (with few exceptions,) has been a catalogue of unparalleled extravagance; but if in this vast outlay the State is gainer only in experience, some salutary benefit may be placed to its credit. While it is apparent that every department of the State government was pervaded with a similar recklessness of expenditure, and that efforts have been made at reform in this particular, your committee take pleasure in offering such recommendations as they believe will constitute the State Prison a self-sustaining institution, if not one of actual revenue to the State. In order, however, to accomplish so desirable an end it will be necessary that an appropriation should be made, of sufficient amount necessary for the erection of buildings within the prison walls, for work shops, as well as such additional accommodations for prisoners as will be hereafter recommended. The necessary buildings for the purpose last named, and which are demanded by every consideration of humanity and justice, will absorb a considerable portion of the required appropriation.

This being the first committee required to visit the prison, since its transfer from the Lessee to the State, they were deeply impressed with the importance of making a thorough investigation of all matters connected with the institution, in order to enable them to offer such a report as might tend to secure a better regulation of the affairs of the prison, as well as a profitable employment of the convicts, and thereby relieve the citizens of our State from an onerous taxation for its support.

Your committee are aware of the many difficulties to be encountered in inaugurating these necessary reforms, and have therefore availed themselves of every inquiry and research, most likely to aid them in the con-

summation of so desirable an object. During their visit to the prison, they devoted a portion of their time to the inspection of various manufactories, now in operation in San Francisco, and have considered the feasibility of instituting various branches, not yet introduced into our State; the result of which is a thorough conviction that convict labor can not only be employed with profit to the State, but also without materially affecting the interest of free labor.

We found confined within the prison five hundred and seventy-one convicts, from every county and district, of the State, of almost every nationality and color, and committed for almost every grade of crime, punishable by imprisonment in the State Prison.

The convicts, at the time of our visit, were idle, and indiscriminately congregated in the prison yard, and owing, to the want of proper buildings, at night some forty, or more, are crowded together in the same room. Thus the novitiate in crime is brought in immediate nearness with the most hardened and depraved. The convict, perhaps the victim of indiscretion, rather than crime, finds here a finished tutor in every species of villainy, and if, on his discharge, he is not an adept in the various devices of the whole calender of crime, it is an evidence that he possesses a greater share of self-sustaining virtue than is usually possessed in that portion of frail humanity found within the walls of a prison. In the present united companionship of criminals, they are schooled in all the arts and devices of crime of every description, without any of the wholesome and reclaiming influences that would be derived from separate, or solitary, confinement. This, however, under the present accommodations, is impracticable.

To obviate this difficulty, your committee would recommend that an additional building be erected, after the most approved plan of prison buildings now used in the old States, on the southeast side of the present prison building, midway between that building and the wall of the prison grounds. This should be done as soon as the necessary material can be prepared by the prisoners.

The building should have, constructed within its walls, cells, so that the long and second term convicts could be subjected to solitary confinement, which will alone insure the maintenance of a secure and reclamatory system of prison discipline.

Your committee would further recommend the leasing of the prison labor, to parties who may desire it for mechanical, or manufacturing, purposes, to be employed within the prison walls. Heretofore the prisoners, for the most part, have been employed in manufacturing of brick, cutting wood, etc. without the walls of the prison; this is highly improper, and should not be allowed.

We are aware that a prejudice exists in the public mind against the employment of convict labor in manufacturing and mechanical pursuits. But we believe that such kinds of mechanical business can be selected as will not prejudice, at least to but a very limited extent, the interest of free labor. Many articles of general use could be manufactured by prison labor, that will not remunerate free labor at present rates of wages, if indeed, at any future time. We might here enumerate many articles that would come within this category. For instance, the rapid increasing wants of our wine growing interest demands a vast number of vessels to contain the product of the vineyards. The business of beef and pork packing, for exportation, (now of some magnitude,) is steadily increasing. This branch of industry, in connection with wine making, will necessarily require a large number of barrels, which could be manufactured to

advantage by prison labor, from native timber. Agricultural implements, many of them of such ponderous proportions that the cost of their transportation from the Atlantic States goes very far in making up the aggregate of their enormous cost, such could be manufactured with profit to the Contractor for prison labor, and of benefit to the agricultural interest of the State. By cheapening such labor-saving implements, they are placed within the reach of a greater number of our farmers. We would therefore recommend to the Board of State Prison Managers to lease out, on the best possible terms, such portions of the convicts as may be required for the manufacturing of agricultural implements.

There are other branches of mechanical business, the raw material for which is produced within our State, that your committee believe could be carried on by convict labor advantageously, and to the best interest of the people.

We export, annually large quantities of wool, and we are informed by those who have already made the experiment, by the establishment of woolen factories in San Francisco, fully demonstrates the feasibility of establishing this branch of industry as being beneficial to the consumers, as well as the producers. This large quantity of wool, annually exported, is returned to us in such goods as our wants require, and which could be manufactured here. We thus pay double freight, warehousing, drayage, insurance, wharfage, and the many expenses incidental to trade, thus increasing the cost of the manufactured article to an extent beyond their production by a proper application of cheap labor. The manufacture of such goods as would be most remunerative to this description of labor would not seriously interfere with the woolen factories now established, or hereafter to be established. The growing wants of an increasing population would more than consume the products of the loom. We would, therefore, especially call the attention of the Legislature and Board of State Prison Managers, to this branch of industry.

It should be borne in mind that the State Prison is an institution entailed upon the State, and has heretofore been a heavy annual drain upon the State treasury; but if an immediate outlay of even a large sum, necessary for buildings and machinery, it could be made a self-sustaining institution, the State would ultimately be largely the gainer.

We export annually a large amount of hides, which are manufactured, and returned to us, in articles that could be manufactured by convict labor, at remunerative prices, as course boots and shoes, harness, etc.; in this branch an indefinite number of convicts might be initiated at a very small outlay.

It cannot be said that the manufacture of the articles enumerated, by prison labor, can interfere with free labor, for the reason that competition with eastern manufactories, at present, or prospective, rates of labor, would be utterly impracticable.

Your committee could enumerate many other articles for which we are at present almost entirely dependent upon the eastern manufacturer, and which, by the system they propose, could be produced in our own work shops. But they deem it unnecessary; they believe a due consideration of the facts deduced will convince the most skeptical of the utility of employing, with advantage, the labor of the convicts at some branch of mechanical employment, suited to their peculiar condition.

We are unable to see why the employment of the prisoners in manufacturing of the articles above enumerated would interfere with free labor any more than to employ them at brick making, as at present.

It is evident, in the first place, that there is an unquestionable necessity

that the prisoners should be employed. Secondly, it is desirable that their labor should be made sufficient for their support, and in order to effect this a new system of employment must be inaugurated. Third, the nature of this employment should be of such a character as to keep the convicts within the prison walls.

The advantage of employing the prisoners at mechanical pursuits is, therefore, obvious. It would admit of their being worked within the prison walls, and in large numbers together, and thereby prevent, in a great degree, escapes. It would give employment to the prisoners the whole year. It would enable the Directors to do away with the odious trusty system. Their labor would be much more remunerative to the State. A great many articles would be produced that are now imported from other States, and therefore be the means of retaining a large amount of money in the country that would otherwise go into the pockets of the eastern manufacturer.

In addition to these considerations, it would give such employment to the prisoners as would tend to render them industrious, reclaim them from vice, and enable them to obtain an honest livelihood, after having satisfied the demands of justice, and are again permitted to mingle with their fellow beings.

These are considerations that should demand the attention of the Legislature, and the Board of State Prison Directors. If it should be determined to employ the prisoners in the manner proposed, new buildings for that purpose will be required, and which could be constructed either by the State, or the Lessees of the prison labor, the State furnishing the brick, and such prison labor as might be made available. The latter would probably be most desirable, considering the present financial condition of the State.

Upon examination of the various departments of the prison, we found them generally clean, and as free from unhealthy influences as their crowded condition would permit.

Their food is wholesome, and well prepared, and their clothing, with few exceptions, comfortable.

Their provisions consist, principally, of beef, bread, beans, and potatoes, all of which, judging from personal examination, and careful inquiry, are of good quality, and are supplied in reasonable quantities.

The government of the prison, under the Board of Directors, consists of one Warden, one Assistant Warden, one Captain, and one Lieutenant of Guards, one Clerk, one Commissary, one Turnkey, one Gate-Keeper, two Boat Captains, one Overseer, and twenty-eight Guards.

The salaries of these officers and employés are as follows:

Chief Warden, one hundred and fifty dollars per month.

Commissary, one hundred and twenty-five dollars per month.

Captain of Guards, one hundred and twenty-five dollars per month.

Lieutenant of Guards, one hundred dollars per month.

Turnkey, one hundred dollars per month.

Gate-Keeper, seventy-five dollars per month.

Physician, one hundred dollars per month.

Two Boat Captains, one seventy-five, the other sixty-five, dollars per month.

Guards, fifty dollars per month.

If the prisoners should be required to labor within the prison walls, less Guards and attendance would be required for the necessary *surveillance* of the convicts.

The modes of punishment are flogging, irons, and chain and ball. The

prisoner thus manacled and obliged to labor, must suffer severely, and your committee hope some less severe mode may be adopted in its stead. They would state, however, that the limited means at the command of the officers for punishment by solitary confinement, renders it often necessary to adopt such other methods of punishment as may be deemed, by sensitive minds, improper.

There were in the hospital, eleven patients, none of whom were dangerously ill. In another department there were nine who had been wounded in the recent attempt at escape; some of those had been pierced by five or six balls, and were at the time considered beyond recovery, but when we saw them they were all considered out of danger. This, together with the general good health of the prisoners, speaks favorably for the salubrity of the location.

The promiscuous crowding together, in small rooms, of so many convicts, enables them freely to impart to each other their knowledge of every shade of villainy, and to concoct successful schemes of theft, robbery, and other depredations upon society, after the expiration of the terms for which they were sentenced. Thus the prison, instead of answering the ends for which it was established, may, with propriety, be regarded as a State Normal School of vice.

Under the present arrangement and system of State Prison management, your committee are of the opinion that the prisoners are neither reformed, nor punished, and unless some better policy can be adopted, the entire abandonment of State Prison punishment should be seriously considered.

A judicious State policy, as well as the promptings of humanity, a proper regard for the honor of California, and a decent respect for the opinions of the civilized world, demands that additional accommodations be speedily provided, and that a system of employment, compatible with the proper police regulations of the prison, be adopted as soon as practicable.

Under the present order of things, even with the utmost diligence on the part of the present competent managers, the institution reflects no credit to the State.

Your committee find that the convicts are entirely unprovided for, in the way of moral and religious instruction. In the penitentiaries of the Atlantic States, the importance of bestowing a proper attention to these requirements is fully appreciated, and as an auxiliary to any system of reformation, generally adopted. The Reverend Mr. Gilbert, who for nearly two years gratuitously acted as Chaplain to the prison, was compelled to abandon the duties last October, since which time the convicts have had but little, if any, religious instruction.

The object of the law is not only to confine and punish criminals, but also to induct such a system in the government of the prison as to cause a reformation in the moral condition of its inmates. It is presumed that it aims at reform, as well as punishment, so that when the criminal shall have served the term allotted by law as the penalty of his crime, he shall be better fitted to become a member of society; this can only be accomplished by giving them frequent moral and religious instruction. On the Sabbath day no service of a religious nature is held, no prayer is heard, no bible is read, no exhortation to repentance is made, but they are left to mingle in vice and infamy, without an effort to bring them to a realization of their degraded and lost condition. Surely this should not be. A judicious State policy, as well as the promptings of humanity, and a proper regard for the honor of our people, should prompt is to no longer

delay supplying the word of life to the unfortunate inmates of our prison. Your committee would recommend a sufficient annual appropriation to have divine service performed at the prison on every Sabbath day.

The reclamation of even one erring mortal from the errors of his past life, to a realizing sense of his lost condition, would more than repay the outlay. But why should we not hope that many of those so deeply dyed in crime may not be induced, by the teachings of divine inspiration, to abandon their evil ways, may "cease to do evil, and learn to do well," by throwing around them the influences of the gospel.

History is replete with instances where the word of God, falling on the ear of the vilest of sinners, has conjured up some innocent memory of the past, and by appealing to the better feelings of his nature, recalled him to a better life. Let us not forget, as Legislators, that a heavy responsibility rests upon us in this connection, and let us no longer permit so great a reproach to rest upon us.

In order to insure a more perfect prison discipline, your committee would recommend a uniform style of prison clothing, for the following reasons: First, it would advance the discipline of the prison, by enabling the guard to detect, instantaneously, the convict, from the surrounding persons, in an attempt to escape, or in cases of insurrection. Second, it would be a matter of great difficulty for prisoners to escape, even when outside of the walls of the prison, the garb would be generally known by the citizens of the surrounding neighborhood, and by this means the convict would be readily detected. In order to make it more effectual, it should be understood that no discharged convict would be permitted to leave the prison clad in the uniform of the institution. It should further be made a misdemeanor, punishable by fine and imprisonment, for any person to furnish clothing to any one clothed in prison uniform, or known to be an escaped convict.

In order to prevent convict labor from entering too generally into competition with other labor in mechanical pursuits, your committee would recommend that a law be passed prohibiting the State Prison Directors from leasing the convict labor for any other mechanical purpose than the following: the manufacture of woolen fabrics, agricultural implements, cabinet ware, boots and shoes, harness, barrels, and half barrels, quarrying and cutting of stone, or as may be specified in the act.

In conclusion, your committee beg leave to remark that they will, in a few days, offer a further report in relation to the title to the prison grounds, finances, etc. and will also report a bill providing for the government and management of the prison.

MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, April 15th, 1861. }

To the Honorable the Senate of California :

I transmit to your honorable body a communication addressed to the Executive and the Legislature of this State by William F. Anderson, Esq., Agent of the people of Nevada Territory, and acting in their behalf, in which he prays the assent of the Legislature to the boundaries of the Territory of Nevada as fixed by Congress, and so far as the same conflicts with the established boundaries of California.

I have not received an authenticated copy of the act creating the Territory of Nevada and defining its boundaries, and reference can only be made to the proceedings in Congress as published in the *Congressional Globe*. The following is a copy so far as the same relates to the proposed boundaries, viz:

"This Territory is included within the following limits, to-wit: Beginning at the point of intersection of the forty-second degree of north latitude with the thirty-ninth degree of longitude west from Washington; thence running south on the line of said one hundred and sixteenth degree of west longitude until it intersects the northern boundary line of the Territory of New Mexico; thence due west to the dividing ridge separating the waters of Carson Valley from those that flow into the Pacific; thence on said dividing ridge northwardly to the forty-first degree of north latitude; thence due north to the southern boundary line of the State of Oregon; thence due east to the place of beginning; that portion of the Territory within the present limits of the State of California is not to be included within the Territory until the State of California shall assent to the same by an act irrevocable, without the consent of the United States."

It will be seen by the above that the assent of California to the same by an act irrevocable without the consent of the United States is required; and as article twelve of the Constitution fixes and defines the boundary of the State and makes the same a fundamental law, a simple act of the Legislature cannot change it. Notwithstanding the mode and manner prescribed by the Constitution of the United States for the formation of new States, in which the consent of the Legislature of the State and the Congress of the United States is required, the Legislature of California is the creature of the Constitution and cannot alter, or amend, any of its provisions except in the mode and manner prescribed in that instrument itself; therefore it is apparent that the boundaries of the State cannot be altered, changed, or interfered with, without the consent of the people, and this can only be ascertained by submitting the question as a constitutional amendment.

A due regard for the expressed desire of the Federal Government and the people of our neighboring Territory, would demand that the Legislature would take prompt measures to determine whether this assent can

be had more particularly as if the consent of California can be given to the cession of a part of her Territory, it were well that this should be made known at an early day as possible before the expenses of running and determining the eastern boundary of the State are incurred by this State and the Federal Government.

Mr. Harvey made the following report :

MR. PRESIDENT :—The undersigned, a majority of the committee appointed on behalf of the Senate, to investigate the condition of the State Insane Asylum, at Stockton, would respectfully submit the following :

From the short time allotted the committee, it would be almost impossible to give the institution that examination and inspection, in all of its departments, necessary for a full and reliable report ; and especially of the professional treatment of its inmates. Once, or twice, passing through the wards of the institution in the short space of an hour, or two, and among some four hundred and fifty cases, enables one to determine but but very little relative to the mode of treatment the patients are receiving.

At the time your committee visited the institution there were four hundred and fifty-four inmates, and constantly increasing in a ratio very disproportionate to the number of cures and discharges ; and unless a favorable change occurs in the curative department, and the institution relieved of many of its inmates, humanity will demand at our hands no small appropriation to enlarge the building adequate to its wants. At the present time the institution is too much crowded for the proper care and comfort of its inmates, and unless relieved, will materially retard recoveries.

The mad-house, its construction, the confinement and treatment of its inmates, cannot be too highly deprecated. Such an appendage to an asylum, is at least fifteen years behind the age, and should be superseded by well ventilated rooms, kind care, and humane treatment of its inmates, which means are successful substitutes for controlling, in a majority of cases, even the raving maniac.

Of the sanitary condition of the institution, so far as the diet, bedding, and clothing, of patients, the neat and cleanly condition of the rooms, in every department of the building, your committee can speak in terms of much praise, and as reflecting much credit upon the parties having the same in charge.

The arrangement and cultivation of the grounds connected with the institution exhibit taste and cheerfulness, as well as utility.

Of the curative department, which is the main feature in an Insane Asylum, your committee cannot report as favorably as they would desire. It is the opinion of your committee that careful, skillful, and well adapted

treatment, would materially diminish the number of inmates during the next twelve months, and restore a majority of those unfortunates to their full reason and usefulness.

The main question to be considered in the treatment of insane persons is, the adaptation of all, and the best means, for a speedy restoration; for it is universally conceded by those of long experience, and the most eminent in this department of medical science, that between eighty and ninety per cent. of all recent cases recover, when properly treated, and improvement, or recovery, in a majority of cases, is manifest within the space of three months. Of cases improperly treated, or neglected, but few recover, and when improvement is not apparent within that time, chances for recovery become less as time advances.

It must be apparent to every observing mind, that the causes which produce insanity in our young and thriving State, are growing less, with a proportionate increase of the facilities of comfort and happiness manifest in every sphere and department of life, and when we consider that a large majority of the insane persons in California are recent cases, we are lead at least to a thoughtful inquiry as to the per centage of cures that should obtain. It is found that of indiscriminate admissions into asylums for the insane, over forty per cent. are discharged cured; but this does not represent the prospect of cure in a recent case. In the York Retreat, for a period of sixty-one years, we find of those who were attacked for the first time, and admitted within three months of the seizure, seventy-three and one-tenth per cent. were cured. The Hospital Retreat, for fifteen years, ending eighteen hundred and fifty-nine, gives eighty-four per cent. of recent cases cured. The Ohio Asylum, for eighteen years, gives eighty-six per cent. recent cases cured.

In the report of the Superintending Physician of the Stockton Asylum, ending December first, eighteen hundred and sixty, we find the following: "That there were in the institution on the first day of August, A. D. eighteen hundred and fifty-seven, one hundred and sixty-two patients; that from August first, eighteen hundred and fifty-seven, to December first, eighteen hundred and sixty, there had been admitted eight hundred and fifty-four; the whole number provided for in that time being one thousand and sixteen—that there had been four hundred and eleven discharged, that one hundred and fifty-two have died, and that thirty-six have escaped, leaving in the asylum on the first day of December, eighteen hundred and sixty, four hundred and seventeen patients."

The number of discharges for the past three years, as per above statement, is about forty-one per cent. Of what proportion of this number were cured, is not stated, and your committee have no satisfactory means of ascertaining. The average number of cures upon the whole number of discharged in other institutions, is about one-half. This estimate would bring the cures in the Stockton Asylum at twenty per cent. which is twenty per cent. less than the average of all the other asylums in the United States. This neglect in keeping a record of the number of recoveries, and a case book, exhibiting the condition, treatment, and improvement, of the patients, from time to time, is much to be regretted.

Had the discharges amounted to eighty per cent. which it is not unreasonable to suppose, judging from the statistics of other institutions in the older States, and deducting the number of deaths and escapes, the number now remaining would be one hundred and thirty-nine, instead of four hundred and seventeen.

It is proper to state in this connection, that insanity is more prolific in California than almost any other State in the Union, in proportion to her

population, and what peculiar causes are operating to render it less curable, your committee are not prepared to say, though it is their opinion that the malady is quite as amenable to proper treatment, in this, as in any other State, and more so, from the fact that most of the cases are recent, and not broken down by age and physical debility.

The table herewith annexed presents a list, and the latest statistics, of American institutions for the insane, including that of California for eighteen hundred and fifty-eight, in which it will be observed that the whole number of cases treated, was two hundred and forty-eight; the whole number discharged, including deaths and escapes, sixty; of this number, only twelve were discharged cured, it being less than five per cent. of recoveries upon the whole number treated.

The interest, enterprise, and zeal, manifested by the Board of Trustees, in the discharge of their duties and conducting the financial affairs of the asylum, is most commendable. They seem to be actuated by a desire to make the institution meet fully the object designed. It is the opinion of your committee that the financial department of the asylum should be more fully under the supervision of the Steward and Board of Trustees, than at present.

Appended herewith is an exhibit of the expenditures of the asylum for the year ending November thirtieth, eighteen hundred and sixty; also salaries of attachés per month.

The total amount of appropriations for the asylum, including the salaries of Physicians, for the year ending January thirtieth, eighteen hundred and sixty-one, were ninety-three thousand eight hundred and sixty-six dollars and two cents, which are as follows:

To pay sundry accounts, April 13, 1860	\$635 96
To pay Mary Hanson, April 13, 1860.....	143 34
To pay of Morpee & Lauson, April 13, 1860.....	86 72
To purchase of ten Cows, April 13, 1860	1,000 00
General appropriation.....	84,000 00
Resident Physician.....	5,000 00
Assistant Physician.....	3,000 00

The entire appropriation will be required to meet the expenditures of the year, and not unlikely, a further appropriation be required. With the present number of patients, and the expenditures required, your committee cannot recommend less in the general appropriation than eighty thousand dollars, though it is to be hoped that the expenses may be considerably reduced the coming year.

Nothing is more apparent to your committee than the necessity of a revision in the financial department of the institution—not but what the same has been conducted as economically as could be expected under the present system, with one, or two, exceptions.

When we reflect upon the fact that there are now in the asylum, some four hundred and sixty of our fellow beings, bereft of reason, it is one that demands of us something more than a political consideration, of who and how the same shall be conducted.

The manner of electing Physicians to the asylum by the Legislature, based upon the political proclivities of the candidates, cannot be too highly deprecated in a civilized and enlightened country. Not but what

competent and worthy men may be, and are, sometimes, elected ; but to measure human life and suffering by dollars and cents, or the freaks of political parties, is revolting to every instinct of an enlightened and humane mind.

It is the opinion of your committee that Physicians to an Insane Asylum should be chosen by a board of medical men created for that purpose, and that the candidates should be selected with especial reference to their ability, skill, and peculiar fitness, for the position.

It is the opinion of your committee that there are many defects in the law organizing and regulating the asylum, and before a proper revision can be made, a more thorough examination should be had of the institution in all of its departments ; and as such examination cannot well be had during the present session of the Legislature, and for the purpose of carrying out and maturing such changes and modifications as may be desired, and that the same may be brought before the Legislature at an early day during the next session, your committee would recommend the adoption of the following resolution :

Resolved, By the Senate, the Assembly concurring, that a committee of three be appointed by the Legislature, to visit the asylum during the interim of the Legislature, whose duty it shall be to examine thoroughly the institution in all of its departments, and collect such statistics as will enable the committee to mature a more efficient basis for the government and regulation of the asylum ; *provided*, however, that the compensation for said service shall not exceed the pay of members of the Legislature, and for a time not exceeding two weeks.

Mr. Gallagher made the following report :

MR. PRESIDENT:—Your Committee on Mines and Mining Interests, to whom was referred the first annual report of the State Geologist—have had the same under consideration and we find that the Surveyor is actively engaged in the performance of the duties of his office as provided for by law. The wisdom of the policy inaugurated by the last Legislature of exploring our mountains in a scientific manner and informing ourselves of the resources which are possessed by our people, cannot be doubted.

The first step toward the development of the mineral wealth known to be hidden throughout our whole State, is to ascertain by intelligent examination as near as possible where the deposits of the different minerals and metals are, and what is their probable extent and value, by collecting an extensive cabinet of specimens the attention of our people and of the world will be turned to the opening of the best mines, and capital will not be concerned in making barren experiments.

Your committee being fully persuaded of the great importance of an

early completion of the geological survey of the mineral regions, have prepared a bill appropriating money to carry on the work. All of which is respectfully submitted.

P. A. GALLAGHER,
Chairman.

Report received, bill read first and second times, and placed on file.

SPECIAL ORDER.

The Special Order being Senate substitute for Senate Bill, No. 36, An Act to establish Pilots and Pilot Regulations for the Port of San Francisco—the same was called for by Mr. Ryan.

Mr. Leet arose to a point of order—That the hour set for the special order had passed, it therefore became a passed order, and could not be taken up except by a suspension of the rules, and that the hour of twelve having arrived, the General File, under the rules, was the order of business and took precedence of all other business, he therefore called for the General File.

The Chair ruled the point of order not well taken.

Mr. Leet appealed.

The Chair reversed its decision and ordered the General File to be taken up.

Mr. Burbank then moved to place the Pilot Bill above mentioned at the top of the file.

Upon which motion, the ayes and noes were demanded by Messrs. Watkins, Leet, and Dickinson, and taken, with the following result: Ayes, 18 noes, 11:

MR. PRESIDENT :—The majority of your Committee on Claims, to whom was referred the claim of the late Terence Foley, for supplies furnished the State Prison in the year eighteen hundred and fifty-five—beg leave to report, that from their investigation they find that Hamilton Bowie and Terence Foley furnished to the State Prison, for the use of the State, supplies to the amount of nineteen thousand, eight hundred and forty-four dollars and thirty-four cents, all of which were received by the State, and applied to its use and benefit; that the accounts therefor, were all certified to, and allowed by, the Board of Directors of the Prison, and Controller's Warrants issued for the whole amount, save one account of five hundred and thirty-four dollars; that upon the passage of the act assuming the State debt, the sum of ten thousand, one hundred and eleven dollars was allowed on account of this claim; and that there is now justly due, and owing from the State, for these supplies which have been actually furnished, and not yet paid for, the sum of nine thousand, seven hundred and seventy-three dollars and thirty-four cents. We also find that the interest of Hamilton Bowie has been sold and assigned to Terence Foley, and that at his death he was the sole owner of the demand. We also find that the petitioners, Bryan Killilea, and Mary Ann Killilea, his wife, are the next of kin, and heirs of Terence Foley; and as such, should be entitled to receive the amount due him. All of which being considered, we report the accompanying bill, and recommend its passage.

This claim is for supplies furnished the State Prison in the year eighteen hundred and fifty-five, to the amount of nineteen thousand dollars, and was presented to the Legislature in the year eighteen hundred and fifty-eight; and after an examination by the Committee on Claims of that year, it was found that ten thousand dollars was due the said Bowie, and an act passed for that amount; and the warrants that had been issued for the nineteen thousand dollars was surrendered up and are now in the Secretary of State's office, and are the property of the State; and it is the opinion of the undersigned that it was the intention of that Legislature to pay the claim in full, and that the parties in accepting the ten thousand dollars, and surrendering the nineteen thousand dollars in warrants, assented to the same—and it is the opinion of a minority of your committee that the claim should not be paid, or any portion of it.

The Chair ruled the point of order not well taken.

SPECIAL ORDER.

The special order being the motion of Mr. Watt to reconsider the vote

by which the Senate on the twenty-fifth of April receded from their amendments made on the nineteenth of April to Assembly Bill, No. 254, An Act relative to Telegraphs.

The ayes and noes were demanded by Messrs. De Long, Eagan, and Watt, and taken with the following result: Ayes, 6—noes, 18:

AYES—Messrs. Eagan, Merritt, Thomas, Watson, Watt, and Williamson—6.

NOES—Messrs. Burbank, Clark, De Long, De la Guerra, Edgerton, Harvey, Haynes, Heacock, Hill, Irwin, Leet, Logan, Parks, Phelps, Pico, Rhodes, Ryan, and Vance—18.

So the motion was lost and the Senate refused to reconsider.

Mr. Hill made the following report:

MR. PRESIDENT:—The Joint Committee of the Senate and Assembly on the State Prison, having had under consideration the Claim of John Center for a tract of land of sixteen acres adjoining the State Prison, and also for certain personal property—beg leave to submit the following report:

Your committee have examined all the evidence touching the matter in question and find that the said John Center has a legal equitable claim against the State. The facts regarding the matter may be briefly stated as follows:

The State purchased the land in question of one Archibald Wood, since deceased, from whom it received a quitclaim deed. Wood's title was derived from the San Francisco Manufacturing Company.

Before the property was conveyed to Wood by said San Francisco Manufacturing Company, a suit was commenced against that company in the Twelfth Judicial District Court by one Thomas Young, and the Sheriff levied a writ of attachment on the property. The suit resulted in a judgment in favor of Young, upon which judgment the property was sold, and the title became vested in Center as the Assignee of Young. The attachment was duly levied before Wood's deed was made, and hence the title of Center as Assignee of Young is older and better than that of the State.

Your committee further find that the said Center during the year eighteen hundred and sixty, recovered judgment in an action of ejectment against John F. McCauley, (then in possession,) in the District Court of the Seventh Judicial District, in the county of Marin, for the restitution and possession of the said property, and from which no appeal has been taken, and the same now remains in full force and effect.

Your committee would further state that a portion of the personal property consisted in buildings which have been demolished and a portion of the material used in the construction of other buildings. There remains a large steam engine and boiler of some thirty-five or forty horse power, which your committee believe can be put in good running order at a moderate cost, and which can be used advantageously for the propulsion of machinery in the contemplated factories within the prison walls.

Your committee have carefully examined all the evidence within their reach, and the result is that they are satisfied that the claim is just and equitable, and that the State cannot successfully resist the payment of the same. Nevertheless, in view of all the circumstances, they consider it is a fair subject of compromise. They would therefore recommend that the State pay to the said John Center the sum of twelve thousand

dollars in consideration that he give a full release to the State of all claims that he may hold against it.

The report of Mr. Heacock, Chairman of sub committee to examine title to State Prison property, as also other documents filed in evidence with your committee in favor of said claim are referred to and made a part of this report. In conformity with the recommendations of this report your committee would recommend the passage of the accompanying bill as a substitute of Senate Bill, No. 186.

MR. PRESIDENT:—Your Committee on Agriculture, to whom was referred the report of the State Agricultural Society—have had the same under consideration, and report the same back, with the accompanying bill, and recommend the passage of the bill.

T. G. PHELPS,
Chairman.

Report received, bill read first and second times, rules suspended, bill considered engrossed, read a third time, and passed.

Mr. Shafter made the following report :

MR. PRESIDENT:—The committee, to whom was referred the resolution of the Assembly requesting the Senate to discharge S. Wittgenstein, an Attaché of the Senate, from the public service—beg leave to report that they have taken all the testimony which they have deemed expedient, and all that has been furnished them, and that having duly considered the same, have arrived at the following conclusions :

First—That said Wittgenstein is not, and has not been, an Attaché of the Senate over whom the Senate has any direct control, but that he is a hired copyist, employed by the Secretary of the Senate.

This fact, however important it may have been thought elsewhere, this committee do not deem essential, as we should not hesitate to recommend enforcing the dismissal of the accused, by operating directly upon the Secretary of the Senate, did we consider the circumstances demanded his removal.

Second—The committee are unable to find from the testimony that said

Wittgenstein endeavored to obtain money from one McCauley, for the purpose indicated in the Assembly Resolution. We do, however, find that he told McCauley, in substance, that the Chairman of the Committee on Claims of said Assembly was purchasable, and that he was in the habit of reporting upon claims from improper motives; but we think that neither the motive to receive money himself, nor to cause money to be paid to said Chairman, is proved. It is quite apparent that no such motive can be found without likewise finding full complicity between said Wittgenstein and said Chairman, a result to which we do not feel authorized to arrive, unless upon full and satisfactory proof.

We are constrained to find, further, that the reputation of the party indicated by Wittgenstein's declaration was in accordance to such declaration; and, we further think, that under the circumstances, and in view of the contingencies to which all the parties seem to have addressed themselves, that the passage of the accompanying resolution is the only proper action on the part of the Senate.

We further beg to state, that we have retained the testimony on which we have acted, believing that no good purpose would be subserved by spreading the same upon the records of this body.

JOHN A. EAGAN,
HARRY I. THORNTON, JR.
J. McM. SHAFTER.

The resolution reported from the committee was read as follows :

Resolved, That the Senate decline to accede to the request of the Assembly, requesting the Senate to order the discharge of S. Wittgenstein from the public service.

Adopted.

Mr. Phelps made the following report :

MR. PRESIDENT:—Your committee, to whom was referred the duties of ascertaining the condition of the militia of this State, number of companies organized, officers commissioned, number of militia and condition of State arms, etc. under a resolution passed by the Senate, February twentieth, eighteen hundred and sixty-one—have performed the duties enjoined, and have the honor to submit the following report :

Upon assuming the duties directed by the resolution, we did not find upon the records of the Quartermaster and Adjutant-General's department all the information that appeared to us to be requisite to a practical knowledge of the actual condition of the military force of the State in respect to its numbers, equipment, or efficiency. As this knowledge was indispensable to a proper and correct report under your resolution, we endeavored to obtain the same by publishing a notice, of which a copy may be found in the appendix to this report, marked "A," requesting the commanders of military companies in the various counties of the State to forward to Sacramento a statement of the present condition, etc. of the companies under their command. We also addressed the County Clerks of the various counties upon the subject, requesting any information they might be able to give relating to military organizations within their respective counties.

The information we have thus obtained has more than met our anticipations, and it is gratifying to state that the response to our request has been so general, that we are enabled to present in this report a pretty correct history, as well as the present condition of the militia of Califor-

nia. The information derived in pursuance of the request referred to has been made available by being incorporated with the information obtained from papers on file in the office of the Quartermaster and Adjutant-General. Commanders of several of the military companies of the State have given us all the knowledge contained in this report respecting their companies, their organization, and present condition, as there was nothing on file in the proper office. As to the condition and whereabouts of many of the arms issued by the State, the correspondence of which extracts may be found in appendix, marked "B," and also papers numbered twenty-seven, twenty-eight, twenty-nine, thirty-two, and thirty-four, will give some important and lucid light on the subject.

As to the value of the bonds on file in the Quartermaster and Adjutant-General's office, given for the safe keeping and proper care of arms and munitions, issued by the State, very few of them are of any account whatever. Most of them date back to eighteen hundred and fifty-four and eighteen hundred and fifty-five. Many of the bondsmen have left the State, some deceased, and others insolvent. Those deemed good are thus designated in the proper place in this report.

From the confusion in which the papers in the office of the Quartermaster were found, much care and search has been required to obtain whatever information has been gleaned therefrom. We leave, however, the desk of that office in proper shape. The papers on file relating to military companies are now properly assorted and placed in a condition to be easily referred to. As to books in the office of the Quartermaster, we find several, but none that give a detailed, or consecutive, history of the transactions of that department. There may be other books containing a complete record of the office, but they have not come to our notice.

The value of arms and accouterments received from the General Government for the three years preceding eighteen hundred and fifty-six, was, as by the report of the Quartermaster-General, about fifty thousand dollars, to which add ten thousand dollars, which would be about the value of the arms and accouterments that have been received since January, eighteen hundred and fifty-six, as far as we can ascertain, and the total amount would be sixty thousand dollars, of which amount about one-half is lost to the State, without any possible hope of recovery.

In the report of the Quartermaster-General to the Legislature of eighteen hundred and fifty-five, he says: "California has now the ability to supply her troops annually with arms and munitions of war to the value of fifteen thousand dollars, this being the amount of her yearly quota received from the General Government."

If California has received the above mentioned amount of arms during the years since the above extract was written, the grand total would be swelled to about one hundred and twenty-five thousand dollars, but the yearly quota has probably not been received; the reasons why they are not we are unable to state.

We have examined all the documents found on file, and respectfully submit the result. From the evidence obtained we find there has been issued four hundred and eighteen commissions, amounting in the aggregate to two thousand and ninety dollars, of which amount the sum of five dollars and fifteen cents is now in the hands of the Secretary of State, being for commissions collected by him from January, eighteen hundred and sixty, the balance of said amount being one thousand five hundred and seventy-five dollars, has not been accounted for, or paid in, at the office of the Controller of State.

T. G. PHELPS,
W. H. PARKS,
S. T. LEET.

Report received, and together with accompanying documents and appendix, ordered printed.

Mr. Ryan moved to take Senate Bill, No. 36, from unfinished business, and place it second on the file.

Upon which motion, the ayes and noes were demanded, by Messrs. Shafter, Sharp, and Leet, and taken with the following result: Ayes, 23—noes, 7:

So the bill was read a third time, and the question being, Shall the bill pass?

Upon which, the ayes and noes were demanded by Messrs. Shafter, Watson, and Harvey, and taken with the following result: Ayes, 14—noes, 9:

AYES—Messrs. Clark, De Long, Denver, Edgerton, Harvey, Haynes, Heacock, Hill, Irwin, Leet, Parks, Rhodes, Vance, and Warmcastle—14.

NOES—Messrs. Dickinson, Eagan, Franklin, Phelps, Shafter, Sharp, Watson, Watt, and Williamson—9.

So the bill passed.

Mr. Harvey moved to amend the title so as to conform to the amendments made to the bill.

Carried, and titled so amended.

Mr. Vance moved to reconsider the vote by which the bill passed.

Mr. Leet gave notice that he would on to-morrow move to reconsider the vote by which the bill passed, and the Chair directed the Secretary to take down the notice.

Mr. De Long arose to a point of order—That the Senator from Butte, (Mr. Vance,) had made a motion to reconsider now, which motion had been seconded, and was first in order, therefore it was not in order for the Senator from Placer, (Mr. Leet,) to give his notice, there being a motion pending.

The Chair ruled the point of order not well taken—That when the Senator from Butte, (Mr. Vance,) made his motion, the motion of Mr. Harvey to amend the title of the bill was still pending, consequently his motion was not in order, and that after the title had been amended, and before Mr. Vance renewed his motion, Mr. Leet had given his notice, therefore the notice was first in order.

Mr. De Long appealed.

The question being, Shall the decision of the Chair stand as the judgment of the Senate? was put, and lost.

So the decision of the Chair was not sustained.

Under the ruling of the Senate the question then was on the motion of Mr. Vance to reconsider the vote now by which the bill passed.

Mr. Eagan moved to adjourn.

Lost.

Mr. Ryan moved the previous question.

The question then being, Shall the main question be now put? was put and carried.

The main question being the motion to reconsider the vote by which the Senate passed Assembly Bill, No. 393.

Upon which, the ayes and noes were demanded by Messrs. Sharp, Heacock, and Phelps, and taken with the following result: Ayes, 11—noes, 14:

AYES—Messrs. Burbank, De la Guerra, Eagan, Leet, Logan, Merritt, Phelps, Shafter, Sharp, Watson, and Williamson—11.

NOES—Messrs. Chaso, De Long, Denver, Edgerton, Harvey, Haynes, Heacock, Hill, Irwin, Parks, Rhodes, Thomas, Vance, and Warmcastle—14.

So the motion was lost, and the Senate refused to reconsider.

Mr. Irwin the Chair.

Mr. Leet offered a protest against the action of the Senate in taking a vote on the reconsideration when he had a notice duly entered of a motion to reconsider on to-morrow, and asked that the protest be spread upon the journal.

Objection being made, the question was, Shall the protest be entered upon the journal?

Mr. Merritt arose to a point of order—That the protest was not in order,

Report received, and together with accompanying documents and appendix, ordered printed.

Mr. Ryan moved to take Senate Bill, No. 36, from unfinished business and place it second on the file.

Upon which motion, the ayes and noes were demanded, by Messrs. Shafter, Sharp, and Leet, and taken with the following result: Ayes, 22—noes, 7:

AYES—Messrs. Chase, Clark, Crittenden, De Long, De la Guerra, Dickinson, Eagan, Edgerton, Franklin, Gallagher, Harvey, Haynes, Irwin, Logan, Pico, Sharp, Thornton, Vance, Warmcastle, Watson, Watt, and Williamson—23.

NOES—Messrs. Burbank, Heacock, Leet, Parks, Phelps, Rhodes, and Shafter—7.

So the motion prevailed, and the bill was taken up and placed second on file.

Mr. Logan, pursuant to notice, moved to reconsider the vote by which the Senate, on yesterday, passed Assembly Bill, No. 54.

Upon which motion, the ayes and noes were demanded, by Messrs. Crittenden, Harvey, and Leet, and taken with the following result: Ayes, 14—noes, 16:

AYES—Messrs. Burbank, Crittenden, Denver, Dickinson, Eagan, Haynes, Irwin, Leet, Logan, Sharp, Thornton, Watson, Watt, and Williamson—14.

NOES—Messrs. Chase, Clark, De Long, Edgerton, Gallagher, Harvey, Heacock, Hill, Merritt, Parks, Phelps, Rhodes, Ryan, Shafter, Vance, and Warmcastle—16.

So the Senate refused to reconsider.

Mr. Dickinson in the Chair.

GENERAL FILE.

Assembly Bill, No. 393, An Act to appropriate Money for the maintenance and support of District Agricultural and Mechanical Societies—was taken up, and considered in Committee of the Whole and amended.

IN SENATE.

Bill reported back and amendments concurred in.

The question then being upon ordering the bill to be read a third time.

Upon which, the ayes and noes were demanded by Messrs. Shafter, Watt, and Harvey, and taken with the following result: Ayes, 17—noes, 8:

AYES—Messrs. Clark, De Long, Denver, Edgerton, Harvey, Haynes, Heacock, Hill, Irwin, Logan, Parks, Rhodes, Sharp, Thomas, Thornton, Vance, and Warmcastle—17.

NOES—Messrs. Dickinson, Eagan, Franklin, Leet, Shafter, Watson, Watt, and Williamson—8.

So the bill was read a third time, and the question being, Shall the bill pass?

Upon which, the ayes and noes were demanded by Messrs. Shafter, Watson, and Harvey, and taken with the following result: Ayes, 14—noes, 9:

AYES—Messrs. Clark, De Long, Denver, Edgerton, Harvey, Haynes, Heacock, Hill, Irwin, Leet, Parks, Rhodes, Vance, and Warmcastle—14.

NOES—Messrs. Dickinson, Eagan, Franklin, Phelps, Shafter, Sharp, Watson, Watt, and Williamson—9.

So the bill passed.

Mr. Harvey moved to amend the title so as to conform to the amendments made to the bill.

Carried, and titled so amended.

Mr. Vance moved to reconsider the vote by which the bill passed.

Mr. Leet gave notice that he would on to-morrow move to reconsider the vote by which the bill passed, and the Chair directed the Secretary to take down the notice.

Mr. De Long arose to a point of order—That the Senator from Butte, (Mr. Vance,) had made a motion to reconsider now, which motion had been seconded, and was first in order, therefore it was not in order for the Senator from Placer, (Mr. Leet,) to give his notice, there being a motion pending.

The Chair ruled the point of order not well taken—That when the Senator from Butte, (Mr. Vance,) made his motion, the motion of Mr. Harvey to amend the title of the bill was still pending, consequently his motion was not in order, and that after the title had been amended, and before Mr. Vance renewed his motion, Mr. Leet had given his notice, therefore the notice was first in order.

Mr. De Long appealed.

The question being, Shall the decision of the Chair stand as the judgment of the Senate? was put, and lost.

So the decision of the Chair was not sustained.

Under the ruling of the Senate the question then was on the motion of Mr. Vance to reconsider the vote now by which the bill passed.

Mr. Eagan moved to adjourn.

Lost.

Mr. Ryan moved the previous question.

The question then being, Shall the main question be now put? was put and carried.

The main question being the motion to reconsider the vote by which the Senate passed Assembly Bill, No. 393.

Upon which, the ayes and noes were demanded by Messrs. Sharp, Heacock, and Phelps, and taken with the following result: Ayes, 11—noes, 14:

NOES—Messrs. Chase, De Long, Denver, Edgerton, Harvey, Haynes, Heacock, Hill, Irwin, Parks, Rhodes, Thomas, Vance, and Warmcastle—14.

So the motion was lost, and the Senate refused to reconsider.

Mr. Irwin the Chair.

Mr. Leet offered a protest against the action of the Senate in taking a vote on the reconsideration when he had a notice duly entered of a motion to reconsider on to-morrow, and asked that the protest be spread upon the journal.

Objection being made, the question was, Shall the protest be entered upon the journal?

Mr. Merritt arose to a point of order—That the protest was not in order,

the question not being a proper one for protest, therefore the question could not be put to place the protest on the journal.

The Chair ruled the point of order well taken.

Mr. Leet appealed.

The question then being, Shall the decision of the Chair stand as the judgment of the Senate? was put, and lost.

So the decision of the Chair was not sustained.

Mr. Leet, by leave, then withdrew his protest.

GENERAL FILE, RESUMED.

Senate Bill, No. 36—was taken up.

Mr. Chase moved to refer to the San Francisco Delegation with special instructions to strike out all after the enacting clause and insert certain amendments sent up by Mr. Ryan, and to report the same to-morrow morning so amended together with such additional amendments as the committee may deem proper, and that the bill, when so reported, be placed at the top of the file for to-morrow.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, May 4th, 1861. }

To the Honorable the Senate of California :

I return to your Honorable Body Senate Bill, No. 154, entitled An Act in relation to the Water Front adjacent to Block No. 9, in the City and County of San Francisco—without my approval, and with the following objections :

This bill proposes to grant to certain individuals, for the term of twenty years, the exclusive use of all that portion of the city front lying east of Block No. 9, and south of the southerly line of Townsend Street, and north of the northerly line of King Street, for their own private uses and benefit, without any consideration to either the State or the city.

Section four of the act of March twenty-sixth, eighteen hundred and fifty-one, provides that the boundary line described in section one of said act shall be and remain a permanent water front of said city, the authorities of which shall keep clear and free from all obstructions whatever, the space beyond said line to a distance of five hundred yards therefrom. This pledge on the part of the Legislature of that year was given to the city of San Francisco in consideration of having extended her city front against the solemn protest of her citizens and property holders. Several attempts have been made from year to year since that period, to extend the city front and convert it to the use of private speculation, but the city has thus far been spared the mortification of seeing her commercial front pass into the hands of private parties for their own individual benefit.

The commercial front of San Francisco, if properly and judiciously managed, can and will become a source of revenue both to the city and State, and one that is estimated, even at this early period of our history, when the city is yet in her infancy, to be worth a million per annum. If its use be parceled out to parties owning adjoining lots, for terms of twenty years, without consideration, this revenue cannot exist, and what belongs to the people is thus converted to private interests.

I regard this bill as infinitely worse, in principle, than the Bulkhead Bill of last year; for that had the merit of giving to the State a portion of its earnings, and contemplated the surrender, after fifty years, to the city of a work of great magnitude; this has no such merit, and contemplates no public enterprise, except such as will be undertaken by others whether this franchise be granted or not, provided public necessities require it, and the business be profitable.

There are many situations on the bay of San Francisco where a dry dock can be built without interfering with the established city front of San Francisco. The control of this front and its management have been granted to and conferred upon the city of San Francisco by repeated acts of the Legislature, and in my opinion, it would be well for the commercial interests of the State that this should continue—always with proper restrictions—for it is impossible for the Legislature, even with the aid of maps, to be properly informed as to the peculiar necessities of the harbor,

and the relation of the permanent city front with the beach and water lot property.

I am not disposed to sanction any project that has for its object the granting of franchises in the harbor of San Francisco, until a proper and scientific survey is made of the same. Steps have already been taken to secure this end, and an act has passed the present Legislature authorizing the Board of Supervisors of the city and county of San Francisco to appropriate ten thousand dollars to defray the expenses of this important work. At the opening of the next session of the Legislature a report from the Engineer corps, who have been detailed by the Federal Government for this service, will enable the Legislature to make such disposition of the State's interest, if any they have, as will redound to the benefit and interest of the whole State.

If the control, for a term of years, of this front pass into the hands of individuals, the object of this survey will be frustrated. I am constrained to arrive at these conclusions from motives of great public policy; besides, there are grave constitutional objections to allow the use of the city front to pass into private hands, after the solemn pledge of the Legislature that this should remain the permanent city front, to be kept free and clear from obstructions, and in consequence of which investments have been made, and rights acquired not alone by those immediately adjoining the line, but all in its vicinity.

It is a source of regret to me to have to differ with the law-making power, and particularly on a matter that meets the sanction of the representatives of San Francisco, who are supposed to be informed with the wants and necessities of their county.

JOHN G. DOWNEY,
Governor.

Read, and on motion of Mr. Ryan, was made the special order of the day for Saturday, May eleventh, eighteen hundred and sixty-one, at half past eleven o'clock, A. M.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, May 6th, 1861.

To the Honorable the Senate of California:

I transmit herewith, for your consideration, copies of papers and communications in relation to the difficulties now existing in the county of Santa Clara in this State.

It appears that Antonio Chabolla is the owner of a tract of land in the county of Santa Clara, for which he has received a patent from the United States. On this land Wm. D. Raymond and others are located, and have been in occupancy for some years as settlers, against whom ejectment has been brought in the Third Judicial District Court of this State, a judgment obtained, and a writ of restitution duly issued to the Sheriff of Santa Clara County, and the execution of which by the Sheriff was resisted by an armed force; whereupon, the Sheriff summoned the power of the county to assist him in the execution of the same, and having exhausted the power of the county, he made return of said writ unexecuted, as will more fully appear by the copy of the writ and the return thereon, hereunto annexed, marked "A."

From the Sheriff's demand upon the Executive for aid of the State, a copy of which is hereunto annexed, marked "B," and my reply thereto, marked "C," together with a communication addressed by me to W. D. Raymond and others, defendants, marked "D," and which was duly delivered by W. G. Morris, special messenger sent for that purpose, and the answer by the defendants thereto, marked "E," including a copy of "Squatters' Declaration of Rights," which is also herewith transmitted, it will be seen that until the alias writ was issued I did not feel authorized to respond to the demand of the Sheriff, particularly as I hoped that the intervening time would give an opportunity for an amicable adjustment between the plaintiff and defendants, and that a conflict between the authorities of the State and her citizens might be thus avoided. And in the hope of effecting a result so desirable, I addressed the defendants, Raymond and others, the communication above referred to as marked "D," and consulted with the plaintiff's counsel, W. Matthews, the result of which were the propositions hereunto annexed, marked "F," and which, from the very fair and liberal terms, I had every reason to believe would be acceptable. It will, however, be seen from the second requisition addressed to the Executive by John A. Murphy, Sheriff, and which was received on yesterday, that an alias writ has been placed in his hand for service—that the propositions of the plaintiff were not accepted by the defendants.

As all hopes of a peaceful solution of these difficulties have been abandoned, I feel it my duty to lay the matter before the Legislature for its consideration, and ask that an appropriation may be made to enable me to send to the assistance of the Sheriff such a force as will secure the faithful execution of the laws. From the nature of the demand of the Sheriff, and the magnitude that this question has assumed, I would suggest that the sum of one hundred thousand dollars be appropriated.

I have no means of ascertaining the merits and demerits of this case; but it is enough to know that the decrees of our courts are disregarded, the laws set at defiance, and its officers openly resisted by an organized armed force. The remedy for all grievances, under our system of government, must be found in the laws, and through the tribunals appointed for its administration and the officers designated for its execution. The State must assert its majesty and power to enforce its laws, or anarchy and confusion will ensue. It is certain that these defendants have their remedy, either in the courts of this State or United States. They can appeal to the Supreme Court of this State from the judgment of the court below, or enjoin the patentee in the Federal courts from proceeding under the patent, and if fraud exist, as they allege, the patent can be set aside.

These parties allege that they hold under the pueblo title of San José,

and that said title covers the land claimed by Chabolla and patented to him. Even if this be so, it makes but little difference, as the United States may issue a patent to the pueblo also. A patent is, at best, but a quitclaim from the government, and does not pretend to decide as between the rights of different claimants. The merits of the respective titles will have to be adjudicated in our State courts, where these parties can have their rights fully established.

It will be observed that the settlers, in their "Declaration of Rights," which is made a part of their answer to my communication, appeal to "higher law," and disregard the law and judgment of the courts of the State. If these principles are to obtain, it were well that it should now be settled as at any other time; for it is in vain that our Legislature should be convened to make laws, and our people taxed to support the government, if we have not the power to enforce them.

I have refrained from any unnecessary haste in this matter, trusting that reflection and calm deliberation would bring these settlers to a sense of the duty they owe to the State, and that they might be induced to yield that ready and willing obedience to the law, in which alone they can expect safety and security.

I request that your honorable body will cause copies of this and accompanying documents to be transmitted to the Assembly for its consideration.

JOHN G. DOWNEY,
Governor.

The message was read, when Mr. Dickinson offered the following Concurrent Resolution: .

Resolved, By the Senate, the Assembly concurring, that a Joint Select Committee of five from each House be appointed to take into consideration the message of the Governor, and accompanying documents, relative to the existing difficulties in the county of Santa Clara.

For the Delegation.

Report received, and with bills, placed on file.

Mr. Logan made the following report :

MR. PRESIDENT :—The undersigned, one of the delegation to whom was referred Senate Bill, No. 289, An Act to amend an Act entitled An Act to alter and define the Boundary Line of Tehama County—have had the same under consideration, report it back, and recommend its passage.

LOGAN.

Mr. Vance made the following report :

MR. PRESIDENT :—The undersigned, a majority of the delegation from the counties of Butte and Tehama, to whom was referred Senate Bill, No. 289, An Act to amend An Act to alter and define the Boundary Line of Tehama County—have had the same under consideration, and recommend the indefinite postponement of the bill.

The following reasons are herewith assigned for our recommendation :

First—This bill takes from the county of Butte, and annexes to Tehama, a large scope of territory, say six miles wide, and perhaps fifteen or twenty miles in length ; also, about five hundred citizens, all of whom, or nearly so, are opposed to this proposed change.

Second—The line was clearly marked out by the Surveyor-General of the State in eighteen hundred and fifty-nine, and we see no cause of making it more clearly defined.

Third—This bill takes the residence of the Sheriff of Butte County into Tehama County.

J. M. VANCE,

RICHARD IRWIN,

Delegation from Butte County.

Mr. Logan moved that Senate Bill, No. 289, above reported, be taken up, and placed at the top of the file for to-morrow.

Mr. Hill made the following report :

Mr. PRESIDENT:—The State Prison Committee respectfully beg leave to offer the following report in addition to the one heretofore made :

Your committee, after having given all matters connected with the prison full consideration, find that in order to make the prison a place of reformation, as well as punishment for convicts, and to relieve the State from the burden heretofore imposed upon her for the support of the institution, that an additional prison building, for the accommodation of the prisoners, and such workshops and machinery requisite for the employment of the convicts at mechanical pursuits within the prison walls, are necessary to be constructed. They would, therefore, recommend the passage of the accompanying bill, making an appropriation of fifty thousand dollars, to be expended under the direction of the Board of State Prison Directors, or as much thereof as may be necessary for the purpose above specified.

HILL,
Chairman.

Report received, bill read first and second times, and placed on top of the file for Thursday, May ninth, eighteen hundred and sixty-one.

First—That the Assembly concur in Senate amendments to section fifteen.

Second—That the Assembly concur in Senate amendments to section twenty-one.

Third—That the Senate recede from its amendment in making a new section for section twenty-two.

Fourth—Amend section thirteen by striking out in lines five and six the words "not more than four," and insert instead thereof the word "two," and by inserting after the word "provided," in line eleven as follows :

"and for the purpose of carrying out the provisions of this section, so far as the same relates to the levy of the taxes herein provided for for the year beginning on the first Monday in March, eighteen hundred and sixty-one, the Board of Supervisors are hereby authorized and required to levy said taxes, which may be done at any time, either at a special meeting of the Board for that purpose, or at a regular meeting thereof, as the necessity of the case may require; and the Assessor, in cases where he has already made his assessment, shall place in a separate column, opposite the name of the party so assessed, when liable to pay a road poll, the figure one, as required by this act."

Fifth—Amend section twenty-one by striking out the word "San Francisco," in line two.

Strike out the word "Amador," in line four, and insert the words "Mendocino and Butte."

After the word "and," in the third line add as follows to the section :

"This act shall not apply to the city and county of San Francisco, except so much of it as provides for the location, alteration, or vacating, of any road or highway, and said portion of this act shall only apply to road districts which may be established in the eleventh and twelfth election districts in said county."

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, May 11th, 1861. }

To the Honorable the Senate of California :

I have to inform your honorable body that I have approved Senate Bill, No. 45, An Act to pay certain Warrants of the City and County of Sacramento herein mentioned.

JOHN G. DOWNEY,
Governor.

REPORTS.

Mr. Leet made the following report :

Mr. PRESIDENT :—Your Special Committee, who were appointed in accordance with a resolution adopted by the Senate on the sixteenth day of April, eighteen hundred and sixty-one, for the purpose of examining the copying account and to report to the Senate the number of folios that have been copied, and the amount that has been paid for the same—respectfully report as follows :

Owing to the fact that it is the duty of one of the Standing Committees of the Senate (the Committee on Public Expenditures) to examine all accounts for copying done for and by order of the Senate, and to audit and allow the same, and they have from time to time during the session reported to the Senate certain amounts as correct and justly due to the Secretary for copying, your committee found the duty imposed upon them a very unpleasant one, and, owing to the manner in which the copying has been managed, a very difficult one to discharge. We have, however, after diligent search, inquiry, and investigation, elicited and obtained the following facts, viz :

There has been allowed to the Secretary of the Senate up to April sixteenth, eighteen hundred and sixty-one, for copying, eight thousand four hundred and seven dollars and eleven cents, of which amount five thousand dollars has been paid to him in cash, and three thousand four hundred and seven dollars are yet unpaid. This amount is based on the following items, as shown by the reports of the Committee on Public Expenditures, which are recorded in the journals, viz : Copying for the journal and appendix and copying for the printer, five thousand one hundred and fifty-two dollars and sixty-six cents, leaving the sum of three thousand two hundred and fifty-four dollars and forty-five cents for which no folios, items of work, or copying, have ever been reported to the Senate ; and although your committee have made diligent and thorough search, and have repeatedly called on the Secretary of the Senate for the items upon which the several amounts reported by the committee to make up this last sum are based, they have gained no light, or information, thereon, and are therefore satisfied that there is not, and never was, in the hands, or on the part of the Secretary, any just, or legal, claim against the State for the said sum of three thousand two hundred and fifty-four dollars and forty-five cents, and are also satisfied that it should not be allowed by the Senate and paid to him.

Your committee find that there has been copied for and by order of the Senate not exceeding the following number of folios, and that the total amounts allowed and paid therefor should not have exceeded the following, viz : Writing up the journals and appendix to May first, eighteen hundred and sixty-one, nine thousand eight hundred and thirty-one folios, which, at fifteen cents per folio, (the legal rate,) would amount to the sum of one thousand five hundred and fifty-two dollars and ninety cents—making the total amount three thousand and twenty seven dollars and fifty-nine cents. This calculation is a very liberal one toward the Secretary of the Senate, and gives him a large per centage more than could be allowed him if a close count and estimate of the copying were had. This, however, shows that there had been allowed to him by the Senate the sum of five thousand three hundred and seventy-nine dollars and fifty-two cents more than he is justly and legally entitled to.

In making this report your committee do not deem it to be their duty (under the resolution by which they were appointed) to inquire who the

parties are that have thus imposed upon the Senate and defrauded the State; therefore we leave it for the Senate to determine upon whom the odium connected with this speculation should rest. All of which is respectfully submitted.

S. T. LEET,
Chairman.

Report read and made the special order of the day for Tuesday next at half past eleven o'clock, A. M.

Mr. Eagan made the following report:

MR. PRESIDENT:—A portion of the committee appointed for the purpose of ascertaining the amount of copying done for the Senate, and the amount paid therefor, report that they have had the subject under consideration and find that there has been paid, for copying done up to date, the sum of eight thousand four hundred and seven dollars, as audited and allowed by the Committee on Public Expenditures, (one of the Standing Committees of the Senate,) and as that committee is composed of five honorable gentlemen we do not deem it necessary, or proper, to go behind their report.

There has been a large amount of writing done for both branches of the Legislature that might have been dispensed with, and many voluminous public documents, such as Governor's messages, reports of State officers, etc. are copied by both the Secretary of the Senate and Clerk of the Assembly, thus putting the State to a large and unnecessary expense, the fault not so much of the officers as of the law under which they act.

Many documents are also copied into the appendix, the printing of which subserves no public good, or interest, and should have long since been dispensed with. These evils will be remedied in the future should a bill, already passed the Senate, relative to the subject, meet the sanction of the House.

Your committee are of opinion that liberal allowance has been made to the Secretary for the work done, and that any further investigation of the matter would not result in any good to the State. All of which is respectfully submitted.

JOHN A. EAGAN.

Mr. Clark, by unanimous consent, introduced a bill for An Act in relation to the Commission appointed on behalf of the State to run and mark the Eastern Boundary Line of the State of California.

Read first and second times, and referred to a Special Committee of three consisting of Messrs. Clark, Rhodes, and Harvey.

Mr. Leet offered the following resolutions:

Resolved, That the Controller be, and he is hereby, directed not to draw his warrant on the Treasurer in favor of C. W. Tozer, the Secretary of the Senate, or his assigns, for the several amounts, or sums, of money which have been allowed the Secretary of the Senate for copying done for the Senate since the twenty-first day of March, A. D. eighteen hundred and sixty-one.

Resolved, That the Secretary of the Senate be required and directed to return to the Senate all the certified copies of resolutions, or reports, of the Committee on Public Expenditures allowing him pay for copying done for the Senate which have been adopted, or passed, by the Senate since the twenty-first day of March, A. D. eighteen hundred and sixty-one, and issued, or delivered, to him.

Resolutions read and made the special order of the day for Tuesday next, at half past eleven o'clock, A. M: together with the reports of Messrs. Eagan and Leet, on the same subject matter.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, May 11th, 1861. }

To the Honorable the Senate of California :

I transmit herewith a copy of a communication received from Sylvester Mowry, Esq. Commissioner on the part of the United States, to run the boundary line between the State and the Territories of the United States, by which it will be seen that instructions have been received by him to suspend all operations upon the boundary line, to discharge the employes and report any indebtedness which the proceeds of the sale would not discharge to the department for payment.

In view of this suspension on the part of the General Government, it would be well for the Legislature to take such action on the part of the State as would best subserve the interest of the State.

The Commissioner on the part of the State of California was elected to act in conjunction with the Commissioner on the part of the United States, and it would seem that some further legislation would be necessary in order to avoid the useless and unnecessary expense of having a party in the field unable to accomplish the object of the survey.

I respectfully recommend that an act be passed suspending the work on the part of the State until further action and co-operation be had on the part of the General Government.

JOHN G. DOWNEY,
Governor.

COMMUNICATION FROM THE SECRETARY OF THE SENATE.

Mr. Parks, for the Secretary, presented the following communication :

SENATE CHAMBER,

May 14th, 1861. }

To the Honorable the Senate of the State of California :

Inasmuch as the report of the Chairman of the Special Committee now under consideration, is calculated, without explanation, to reflect discredit upon me, I ask in justice to myself to make the following statement :

The amount allowed and ordered paid by the Senate for copying, less a small per centage, has been so allowed, not to the Secretary of the Senate, but through him, to the Journal Clerk and other copyists.

I have never made any estimate of the number of folios written, but have paid for the work done according to the payments made therefor by the Senate.

When called upon by Mr. Leet for a statement of the items of copying I informed him of the foregoing facts; that I knew nothing of the amount of writing done, or the amount paid, except from the accounts audited and allowed by the Senate, and that it would be quite impossible for me at this late day to furnish him with a correct statement of the items of writing done during the entire session.

I am instructed by the resolution, should it be adopted, to return to the Senate the audited accounts yet unpaid for want of funds. It will be impossible for me to comply with such instructions. These vouchers have all been transferred by me to the parties doing the writing, or to dealers in such paper, in payment for their services.

C. W. TOZER,
Secretary Senate.

Communication received and read.

Mr. Warmcastle offered the following resolution: .

Resolved, That the whole subject matter of both reports and resolutions, be referred to a Select Committee of five, with authority to send for persons and papers, and to employ one expert to examine the amount of copying done, and to report to the Senate the amount done, or paid, for such copying, and if overpaid, what amount, and what action the Senate should take in the premises, and report within two days.

Adopted.

The Chair appointed on such committee, Messrs. Vance, Merritt, Ryan, Watkins and Williamson.

That the ultimate process issued upon a judgment of the District Court of the Third Judicial District has been resisted, admits of no doubt, and that such resistance was without justification is equally undeniable.

The persons resisting the process state that they deem that injustice has been done them, and complain that they had not had the judgment of the highest appellate Court against them.

The offending parties, however, expressed to your committee a determination to abide by the judgment of the final appellate tribunal upon the questions involved in the present dispute; and as a case is now pending, upon appeal, in the Supreme Court of the United States, wherein all these questions will be presented for solution, and as the plaintiff in the present controversy proposes to initiate new litigation, in which all these mooted questions may be raised, your committee did not deem it improper to advise a course which should avoid present difficulties and promote the furtherance of justice.

This intent was rendered effective by the generous conduct of the plaintiff, Chabolla, and his Attorney, Mr. Mathews, who have caused the writ of execution to be returned unexecuted, with the avowed purpose of enabling those who dispute Chabolla's title the fullest opportunity to contest it.

There seems to be, therefore, no necessity for any legislation, or appropriation, in aid of the process resisted, and certainly none in aid of those who resisted it.

All of which is respectfully submitted.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, May 14th, 1861. }

JOHN G. DOWNEY,
Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, May 14th, 1861. }

To the Honorable the Senate of California :

I herewith return to your Honorable Body Senate Bill, No. 158. An Act to authorize Henry B. Platt and James Gallagher to construct a Wharf at the foot of Third Street, in the City and County of San Francisco—with out my approval, and with the following objections :

This act proposes to grant to the parties therein named the use of that portion of Third Street from its intersection with King Street to the city front, for a period of fifteen years.

Section eleven of the act of eighteen hundred and fifty-nine, being an amendment to section fifty-four of the Consolidation Act of eighteen hundred and fifty-six, declares this an open public street; and, as such, the property owners on both sides have a right to its free use and benefit, and the street cannot, with any degree of justice, be appropriated to private uses.

I have on several occasions withheld my signature from bills of this character, (granting franchises in the harbor of San Francisco,) and alleged as a particular reason the necessity for a proper survey, so as to enable the city and State to make such disposition of this interest as would best subserve the commerce of the State, and the interests of the parties to whom this rightfully belonged.

An act granting this very franchise to Robert Haley and John G. Otter, passed the Legislature of last year, and did not receive my approval for the reasons already expressed.

The right to erect Wharfs in the harbor of San Francisco has already been vested in the municipal authorities of the city of San Francisco by the Consolidation Act of eighteen hundred and fifty-six, section seventy-four, subdivision seven, all of which was fully and at length treated of, and set forth in my message to your Honorable Body of April sixteenth, eighteen hundred and sixty, accompanying Senate Bill, No. 167, An Act in relation to a Sea-Wall, or Bulkhead, in the City and County of San Francisco.

So long as the act of eighteen hundred and fifty six, known as the Consolidation Act, stands unrepealed, the Board of Supervisors of the city and county of San Francisco have the absolute power and control of this subject, and I have no doubt, when the public interest requires the erection of wharfs, that the local government will exercise the power vested in it and build them.

JOHN G. DOWNEY,
Governor.

The message was read, and the question being, "Shall the bill pass notwithstanding the objections of the Governor?" the ayes and noes were taken with the following result: Ayes, 18—noes, 5:

AYES—Messrs. Burbank, Denver, Dickinson, Egan, Edgerton, Franklin, Harvey, Haynes, Irwin, Lect, Logan, Phelps, Ryan, Sharp, Thomas Thornton, Watkins, and Watson—18.

NOES—Messrs. Parks, Pico, Rhodes, Shafter, and Warmcastle—5.

So the bill, having received the constitutional two-third vote, was passed, notwithstanding the objections of the Governor.

Resolved, That the Committee on Enrolled Bills be allowed to appoint as many Assistant Clerks as the committee deem necessary, at a salary of eight dollars per day from the date of their appointment, payable out of the Contingent Fund of the Senate.

Adopted.

Mr. Franklin, from the Committee on State Hospitals, made the following report :

Mr. PRESIDENT:—The undersigned, a portion of the Committee on State Hospitals, feel themselves called upon to reply to a report made by a portion of the same committee, styling themselves a Special Committee, and to correct some grave errors into which they have fallen, in point of fact, relative to matters concerning the condition of the State Insane Asylum, and to defend, as they conceive, an attack made upon a report presented by them to the Senate, through the Chairman of the committee, on the nineteenth of March, eighteen hundred and sixty-one, on the same subject. In doing this, they are not actuated in the least by personal considerations, further than to vindicate the truth of history and the reputation of the Trustees and the late Resident Physician of the asylum; all of whom we believe to be gentlemen of high character and vigilant, faithful, and efficient, public officers.

The Special Committee set out, in their most extraordinary production, by stating that, "From the short time allotted the committee, it would be almost impossible to give the institution that examination and inspection, in all of its departments, necessary for a full and reliable report; and especially of the professional treatment of its inmates."

The Special Committee set a proper estimate upon the result of their labors, as the sequel will show.

They say: "The mad-house, its construction, the confinement and treatment of its inmates, cannot be too highly deprecated. Such an appendage to an asylum is at least fifteen years behind the age, and should be superseded by well-ventilated rooms, kind care, and humane treat-

ment of its inmates, which means are successful substitutes for controlling, in a majority of cases, even the raving maniac."

We would ask the Special Committee from whom they obtained the information that the inmates of the mad-house did not receive "kind care and humane treatment?" We have never heard such a charge; on the contrary, our information is that the Resident Physician was pre-eminent for his humanity and kindness in his intercourse with the poor unfortunates of the Insane Asylum. This sentiment is universal in and around Stockton. From the information before us on this subject, we unhesitatingly pronounce the charge, or insinuation, of inhumanity, utterly devoid of truth and a base calumny.

The Special Committee had too short a time allotted them "for a full and reliable report," yet they had ample time to ascertain that the confinement and treatment of the inmates of the mad-house cannot be too highly deprecated. We submit that the above quotations abundantly prove the partisan character of the committee. Indeed, it looks very much as if the character of the report was premeditated.

But we are told that a mad-house is fifteen years behind the age. What is a mad-house? Webster defines it as "A house where insane persons are confined for treatment, or cure." Did the learned Special Committee ever see, or hear of, an Insane Asylum without rooms especially constructed for the confinement of raving maniacs? We confess we never did. We assert, without fear of successful contradiction, that there never was and never will be such a thing. A mad-house is that portion of an Insane Asylum which is set apart for the confinement of the raving maniacs, who are obliged to be separated from the milder and more controllable patients. A mad-house is therefore a necessary appendage of every Insane Asylum.

The celebrated Dr. Kirkbride, of the Pennsylvania Asylum, a gentleman of more general reputation in this department of the profession than any other, either in Europe, or America, in his nineteenth annual report (in eighteen hundred and fifty-nine,) in giving a description of his new asylum, built in accordance with his own plans, and first occupied in eighteen hundred and fifty-nine, says: "Between the dining-rooms of the two wards, seventh and eighth, and made private by sliding doors, are four rooms intended for excited patients." Again, he says: "There are a few rooms, in each one story building, with small windows, out of the reach of the occupants, and intended for the temporary seclusion of very violent, or mischievous, patients." It is worthy of remark that the above description is almost identical with our obsolete mad-house, which is "fifteen years behind the age." But the Special Committee say the mad-houses are not well ventilated. If this was the fact, whose fault is it? Did the Resident Physician, on whom they visit their spleen, have anything to do with the construction of the mad-houses? But it is not true that the mad houses are not well ventilated. There is a transom over each door, opening into a wide passageway, say about ten feet wide; and opposite each transom is a window, between one and two feet square, thereby creating a constant current of air through the rooms.

The Special Committee again say, "It is the opinion of your committee that careful, skillful, and well adapted, treatment would materially diminish the number of inmates during the next twelve months, and restore a majority of those unfortunates to their full reason and usefulness."

We would again inquire how, or from what source of information, the Special Committee arrived at the conclusion that "a careful, skillful, and well adapted, treatment" has not been heretofore pursued? They were

at the asylum too short a time to enable them to give a reliable report, and especially of the professional treatment of its inmates. Yet, they were there a sufficient length of time to ascertain that the treatment was all wrong—another evidence of the partisan character of the report.

The Special Committee, after stating that the causes of insanity in California are growing less, proceed to say, "and when we consider that a large majority of the insane persons in California are recent cases, we are led, at least, to a thoughtful inquiry as to the per centage of cures that should obtain." Now, the very reverse of this is true; there is no State in the Union where the poor friendless lunatic is so much neglected as in California. It is extremely seldom that any notice is taken of him until he becomes dangerous to the public, or burdensome to society. Indeed, the law makes one of these conditions necessary to his admission. So that these poor unfortunates may be, and often are, suffering for years from the approaches of insidious disease to complete insanity, without being legally brought under the Physician's charge. Three-fourths of the cases in the California asylum are from the poorest and most wretched class of society, with their constitutions broken down by exposure, or dissipation, or both, and furnish less chances of cure, three to one, than cases occurring elsewhere. Thus, it will be seen, that instead of a large per centage of cures, a small one is to be expected, with the true facts before us.

The Special Committee further state that it is found that of indiscriminate admissions into asylums for the insane, over forty per cent. are discharged cured. This is positively untrue, and the author of the report must have known it, for he mentions, by name, the very report (the Central Ohio Lunatic Asylum,) in which the fact was staring him in the face, that the average per centage of cures, in all the asylums in the United States, is thirty-seven thirty-five hundredths.

The Special Committee again say, "the number of discharges for the last three years (asylum at Stockton,) is about forty-one per cent. Of what proportion of this number is cured were not stated, and your committee have no satisfactory means of ascertaining." Had this committee had a desire to learn the facts and state them fairly, and adduce therefrom just and legitimate conclusions, they would have had no trouble in the case—a simple question would have been sufficient. They would have been told that discharges meant cures, which is always the case unless otherwise stated.

The committee, after admitting that the number of discharges (which means cures in a State institution,) for the past three years is forty-one per cent. say, in the very next paragraph, "had the discharges amounted to eighty per cent. which is not unreasonable to suppose, judging from the statistics of other institutions in the older States, and deducting the number of deaths and escapes, the number now remaining would be one hundred and thirty-nine, instead of four hundred and seventeen." We make this quotation to show the disingenuousness of this whole report. They admit that forty-one per cent. of indiscriminate admissions is about the average of cures in similar institutions, yet, they frequently mention seventy, eighty, and ninety, per cent. as the usual average. They must know that no such per centage was ever attained in any public asylum in the world. They affect to be ignorant of the difference between private asylums and public ones. We have said that discharges means cures unless the contrary is mentioned. Now, the per centage of cures in the Stockton Asylum, under the management of Doctor Aylette, from August first, eighteen hundred and fifty-seven, to December first of the same

year, is forty-eight per cent. thus verifying our report, in which we say, "the treatment (under Dr. Aylotte,) will compare favorably with similar institutions in the United States, or elsewhere." Moreover, many of the institutions referred to will not receive incurable cases at all, and whenever cases become incurable, after having been received, they are discharged, and sent elsewhere. On the contrary, our asylum is intended to provide for not only incurable cases of dementia, but idiotic and epileptic patients. When this is considered, it will be seen how unfair it is to compare the cures of the two institutions which differ so widely in the character of cases treated.

We learn from the Resident Physician, that there are many cases in the asylum of partial dementia and periodical insanity. To the casual observer, the patients would appear sane, and if the Physician's sole object be to swell his list of cures, they might have been discharged, with no other result, however, than to have them soon returned at considerable expense to the State and great detriment to the patient.

The Special Committee state that the total amount of the appropriations for the asylum, including the salaries of the Physicians for the year ending June the thirtieth, eighteen hundred and sixty-one, were ninety-three thousand eight hundred and sixty-six dollars and two cents. Now, this is a mistake. Eight hundred and sixty-six dollars and two cents was appropriated by the last Legislature to pay debts contracted several years ago, as can be seen by reference to the statutes; one thousand dollars was appropriated for the purchase of cows, having no connection, whatever, with the ordinary expenses of the asylum. The Physician's salaries have, we believe, always been a separate appropriation. Had the committee been desirous of doing justice, by consulting the report of the Trustees of the asylum, they would have avoided this error.

The Special Committee further remark, that the entire appropriation will be required to meet the expenditures of the year, and not unlikely a further appropriation be required. If the report of the Trustees is to be relied on, the Special Committee have exhibited a most lamentable ignorance of the financial condition of the asylum upon which they have undertaken to enlighten the Legislature. Instead of expending the monthly appropriation of seven thousand dollars, under the economical management of the Trustees and the late Resident Physician, the expenditures have only reached the monthly sum of five thousand five hundred and fifty-five dollars, leaving in the Asylum Fund, on the twentieth day of April last, to meet the expenses of the ten days and the two months remaining of the fiscal year the sum of thirty thousand and three hundred dollars, so that if the same economy is practiced hereafter that has marked the institution heretofore, there will be in the Hospital Fund unexpended on the last day of June, the end of the fiscal year, seventeen thousand three hundred and thirty-nine dollars. To this should be added four thousand dollars of extra clothing and provisions which were, on the twentieth of April, turned over to his successor by the late Resident Physician. So far, then, from needing a deficiency appropriation, there should be a surplus in the Asylum Fund of twenty-one thousand three hundred and thirty-nine dollars. Can it be possible that the Special Committee never read the Trustees' report? or are they so blinded by partisan hate and prejudice that they cannot see the truth? It may be both.

The Special Committee again say: "Nothing is more apparent to your committee than the necessity of revision in the financial department of the institution; not but what the same has been conducted as economi-

cally as could be expected under the present system, with one or two exceptions." What the one or two exceptions are, the committee do not state, and thus they make indefinite charges, as if to avoid the opportunity of refutation. To prove the economical administration of the asylum, so dwelt upon by the Special Committee, we would refer to the following table in the seventh annual report of the Hamilton County Asylum, in the State of Ohio, for a comparative statement of the cost of maintaining each person per week in some of the principal Insane Asylums in the United States, and these, too, located in those States where living and labor are as cheap, or cheaper, than in any other in the Union.

Pennsylvania Hospital for the Insane, including Officers' salaries	\$5 00
Illinois State Hospital for the Insane, including Officers' salaries..	2 77
Kentucky Western Lunatic Asylum, including Officers' salaries..	2 70
New York State Lunatic Asylum, exclusive of Officers' salaries....	3 83
New Jersey State Lunatic Asylum, exclusive of Officers' salaries	3 24
Bloomington Asylum, New York, exclusive of Officers' salaries..	5 21
Retreat for the Insane, Hartford, Connecticut, exclusive of Officers' salaries.....	3 89
Massachusetts State Insane Hospital, exclusive of Officers' salaries	3 00
Northern Ohio Lunatic Asylum, exclusive of Officers' salaries.....	3 29
Central Ohio Lunatic Asylum, exclusive of Officers' salaries.....	3 18
Southern Ohio Lunatic Asylum, exclusive of Officers' salaries....	3 16
Hamilton County Lunatic Asylum, exclusive of Officers' salaries	1 71

From this it will be seen that the average cost per week in the above asylums, is three dollars and forty cents, and all, except four, are exclusive of officers' salaries, while the cost in our own asylum, about which so much complaint is made, is three dollars and thirty-two cents, and that, too, including officers' salaries, with the exception of the Resident and Assistant Physicians. Thus it will be seen that, when the high price of labor, provisions, clothing, etc. is considered, there are very few institutions in the United States where more pains has been taken, than in our own institution.

The Trustees of the asylum say, in their report for the year eighteen hundred and sixty (page six), for the last three years, in their annual reports, they have uniformly referred in terms of commendation, "to the efficient manner in which the Resident Physician discharged the arduous and responsible duties of his position, and it affords us great pleasure to add our own testimony to that which has already been adduced and heretofore published; his management has been characterized by economy in expenditure, by industry and good taste in the improvement and cultivation of the grounds, by *humane consideration* for the welfare of the unfortunates committed to his charge, and by a laudable ambition to place this asylum, in all respects, on an equal footing with any other institution of the same character."

Now, these Trustees are all gentlemen of high character, none more so in the State, and the most of them of acknowledged financial ability. Who, then, is presumed to know better the financial condition of the Asylum, the Trustees—Messrs. B. W. Bours, J. W. O'Neil, Wm. Lanius and Lewis Dent—or this celebrated "Special Committee"?

We have seen fit, in alluding to the Majority Committee, to call it (as we find it upon the title page of the report) as the "Special Committee."

for the reason that it was calculated, if not intended, to deceive the public, as in truth they are nothing more, nor less, than a portion of a standing committee, appointed every year by the presiding officer of the Senate.

We exceedingly regret that we have been compelled by a sense of duty to expose the errors and mistakes, (not to use harsher terms,) fallen into by the committee, but we do it in all kindness of feeling. We further regret that gentlemen of high character, and for whom, personally, we have the highest regard, should suffer their party prejudices to get so much the better of their judgments as to publish to the world such gross errors, and calculated as they are to reflect upon gentlemen of as high reputation as their own. This reflection has been cast upon every officer of the institution, as well as the institution itself.

That the institution is not all that we could wish, we are free to confess. Still we believe that it has progressed as rapidly, if not more so, than any other that has fallen under our observation. It has many imperfections, which, under the fostering care of the Legislature, will doubtless in due time be corrected. These improvements must be gradual. The Legislature, in the past has been liberal to it, and doubtless will be so in the future. With all its imperfections it has been in the past truly an asylum—one of which the State has had just cause to be proud. It has contributed immensely to the amelioration of suffering humanity, and we hope will continue to do so, increasing in its usefulness from year to year to the end of time.

J. J. FRANKLIN,
Chairman State Hospital Committee.
C. V. WILLIAMSON.

I concur in the above as to the financial condition of the asylum. With the management of the medical department I am not competent to determine.

Report received, and with bill, placed on file.

Mr. Dickinson made the following report :

Mr. PRESIDENT :—The Committee on Counties and County Boundaries, have considered Senate Bill, No. 400, An Act supplementary to an Act entitled An Act submitting to the qualified Electors of San Mateo County, at the next General Election, the question of Removal of the County Seat of said County.

It appears that the question of locating the county seat of said county, has been submitted to the people at two different elections, at both of which, a majority of the electors decided in favor of the present location, and that since the last election, in eighteen hundred and fifty-seven, the county has erected, at considerable cost, suitable buildings at that place. Your committee believe, that under these circumstances, the county seat should not be removed unless by the sanction of a majority of the voters of said county, and upon the condition named in this bill. The committee therefore report the bill to the Senate without amendment, and recommend its passage.

DICKINSON,
Chairman.

Report received, and with bill, placed on file.

Mr. Merritt made the following report :

Also, Senate Bill, No. 382, An Act authorizing Abner H. Barker, Nathan C. Paddock, S. C. Bigelow, and M. A. Bradley, their Associates and Assigns, to lay down Gas-Pipes in the City and County of San Francisco—and report the same correctly engrossed.

MERRITT,
Chairman.

Report accepted.

Mr. Burbank made the following report :

Mr. PRESIDENT :—The Committee on Elections, to whom was referred Assembly Bill, No. 460, entitled An Act to provide for the Election of Members of Congress from the State of California—beg leave to report that the passage of the bill cannot accomplish the ostensible object of its advocates. The call for an extra session of Congress is urged as a reason for the change of the election law, but the bill provides that twenty-five days may elapse before the Secretary of State can count the returns, and as it will be the seventh or eighth day of July before the Congressmen elect can receive their credentials, and several days more before they can set out on their journey to Washington, where they cannot arrive before the middle of August ; by that time the extra session of Congress will, in all probability, have adjourned.

The simple question to be submitted to such a Congress, will be that of war, or peace, and it is not reasonable to suppose that more than a few days will be spent in such a debate ; besides, a special election will involve, by no means, inconsiderable expense, and our circumstances urgently dictate economy in the management of the finances of the State, and to avoid a useless expenditure in an election which would be useless. Your committee report the bill back, with the recommendation that it be indefinitely postponed. Respectfully submitted,

PHILIP W. THOMAS,
Chairman.

WATT,
THORNTON,
WILLIAMSON.

Upon the ground that legislation on this subject is inexpedient, I recommend the indefinite postponement of the bill.

C. BURBANK.

Report received, and with bill, placed on file.

SPECIAL ORDER.

The special order of the day being the Broderick Expunging Resolutions, so called, they were taken up, and the question being upon the adoption of the substitute reported from the Special Committee heretofore appointed.

Mr. Sharp moved the previous question, which was sustained.

The question then being, Shall the main question be now put ? was put and carried.

Mr. Thornton then asked, and obtained leave, as one of the Special Committee, to enter his dissent from the report of the committee.

The question then being upon the adoption of the substitute, the ayes and noes were demanded by Messrs. Clark, Eagan, and Shafter, and taken with the following result : Ayes, 19—noes, 11 :

AYES—Messrs. Burbank, Chaso, Clark, De Long, Edgerton, Gallagher,

Harvey, Haynes, Heacock, Hill, Irwin, Leet, Logan, Phelps, Rhodes, Ryan, Shafter, Sharp, and Watson—19.

NOES—Messrs. Denver, Dickinson, Eagan, Franklin, Morritt, Parks, Thornton, Vance, Warmcastle, Watkins, and Williamson—11.

So the substitute was adopted, and ordered spread upon the journals, as follows :

WHEREAS, The Legislature of the State of California, at its tenth session, on the third day of February, eighteen hundred and fifty-nine, passed a series of concurrent resolutions, prefaced by a preamble, which preamble and resolutions are in the words following: “ **WHEREAS**, The ninth session of the Legislature of the State of California, passed resolutions instructing our Senators and our Representatives in Congress to support the policy of the National Administration in regard to the admission of Kansas under the Lecompton Constitution; and, *whereas*, the Hon. David C. Broderick, United States Senator from this State, not only disregarded said instructions, but indirectly charged that the members of said Ninth Session of the Legislature had misrepresented the wishes of their constituents; and, *whereas*, the people of this State, at the last election, triumphantly sustained the action of the members of said Ninth Session of the Legislature; therefore, for the purpose of giving to the said David C. Broderick a full understanding of the position he occupies to his constituency, be it *Resolved*, By the Senate, the Assembly concurring, that the Legislature of a State constitutes the immediate constituency of a United States Senator; *resolved*, that a constituency has, at all times, the right, and it is their duty when deemed necessary, to instruct their Representatives upon all matters of public policy pertaining to the duties of such Representatives; and that to such Representatives, when so instructed, there is left no other honorable alternative save obedience, or resignation; *resolved*, that Senator Broderick has neither yielded obedience to the instructions of the Ninth Session of the Legislature of this State, nor has he, as yet, resigned the seat he holds contrary to the wishes of his constituency; *resolved*, that the language used in the speech of said Senator, on the twenty-second day of March, A. D. eighteen hundred and fifty-eight, in the United States Senate, towards the Chief Executive of this Confederacy, was not only undignified and disrespectful, but alike insulting to the Nation and humiliating to the people of this State; *resolved*, that his Excellency, the Governor of this State, be requested to forward a copy of the above resolutions to the Hon. David C. Broderick;” and, *whereas*, said preamble is untrue, inasmuch as the resolutions of instructions referred to therein were not received by the Hon. David C. Broderick until after his vote had been cast in the Senate of the United States, against the Lecompton Constitution; and, *whereas*, the people of this State, and of the United States, have by a very large majority indorsed the course of the Hon. David C. Broderick, against the Kansas policy of the late President of the United States, James Buchanan; and, *whereas*, said preamble and resolutions were inconsiderate, and only intended to wound the feelings of California’s honest, able, and faithful, Representative in the Senate of the United States; therefore, be it—

Resolved, By the Senate, the Assembly concurring, that the preamble and resolutions hereinbefore recited, passed February third, eighteen hundred and fifty-nine, so far as the same relate to the Hon. David C.

Broderick, are hereby declared to be unjust to his character while living, and derogatory to the honorable and patriotic fame which a true and faithful record of his acts will always accord to his memory.

Resolved, That said preamble and resolutions, passed February third, eighteen hundred and fifty-nine, were not true in fact, and are not sanctioned by the people of the State of California; but on the contrary, the people of this State cherish with profound respect the memory and character of the late Hon. David C. Broderick, adorned, as his character eminently was, by integrity, firmness, and patriotism.

The question then being on the passage of the substitute resolution, the ayes and noes were demanded by Messrs. Heacock, Merritt, and Dickinson, and taken with the following result: Ayes, 18—noes, 13:

AYES—Messrs. Burbank, Chase, Clark, De Long, Edgerton, Gallagher, Harvey, Haynes, Heacock, Hill, Irwin, Leet, Phelps, Rhodes, Ryan, Shafter, Sharp, and Watson—18.

NOES—Messrs. Denver, Dickinson, Eagan, Franklin, Logan, Merritt, Parks, Thornton, Vance, Warmcastle, Watkins, Watt, and Williamson—13.

So the substitute resolution was adopted.

GENERAL FILE.

Assembly Bill, No. 443, An Act to define the Senatorial and Assembly Districts of this State, and to Apportion the Representation thereof—was taken up.

Mr. De Long moved to refer to the Committee on Counties and County Boundaries.

Mr. Ryan moved the previous question.

Sustained.

The question being, Shall the main question be now put? was put and carried.

The question then being, first on the motion of Mr. De Long to refer, was put and lost.

The question recurring upon the passage of the bill, the ayes and noes were demanded by Messrs. Leet, Phelps, and Chase, and taken with the following result: Ayes, 21—noes, 9:

AYES—Messrs. Burbank, Chase, Clark, De Long, Edgerton, Gallagher, Haynes, Hill, Irwin, Leet, Logan, Merritt, Parks, Phelps, Rhodes, Ryan, Shafter, Sharp, Vance, Warmcastle, and Watson—21.

NOES—Messrs. Denver, Dickinson, Eagan, Franklin, Harvey, Thornton, Watkins, Watt, and Williamson—9.

So the bill passed.

Mr. De Long gave notice that, on to-morrow, he would move a reconsideration of the vote just had, by which the bill passed.

Senate Bill No. 36, An Act to establish Pilots and Pilot Regulations for the Port of San Francisco—was taken up, with Assembly amendments thereto.

Mr. Phelps moved to amend the Assembly amendment, by adding to section six, the words—

“Provided, further, for the first year the Pilots shall be selected from those now holding branches as Pilots in San Francisco, and shall also be selected from those who have been longest engaged in the business, unless they shall have proved incompetent.”

Upon which motion, the ayes and noes were demanded by Messrs Burbank, Phelps, and Shafter, and taken with the following result: Ayes, 11—noes, 14 :

AYES—Messrs. Burbank, De Long, Harvey, Haynes, Heacock, Leet, Logan, Parks, Phelps, Rhodes, and Shafter—11.

NOES—Messrs. Chaso, Denver, Eagan, Edgerton, Gallagher, Irwin, Ryan, Sharp, Thornton, Vance, Warmcastle, Watson, Watt, and Williamson—14.

So the amendment was rejected.

Mr. Shafter moved to amend, by striking out in in line three, section eleven, the words "ten per cent." and inserting in lieu thereof, the words "five per cent."

Lost.

Mr. Shafter then moved to amend, by striking out all after the word "passage," in the twenty-sixth section.

Lost.

Mr. Ryan then moved to concur in the Assembly amendments, except as to the words, "and between such ports and the ports of Oregon, or Washington Territory," in line nine, of section twenty-four.

Upon which motion, the ayes and noes were demanded by Messrs. Burbank, Shafter, and Phelps, and taken with the following result: Ayes, 14—noes, 8 :

AYES—Messrs. Chase, De Long, Eagan, Gallagher, Haynes, Irwin, Ryan, Sharp, Thornton, Vance, Warmcastle, Watson, Watt, and Williamson—14.

NOES—Messrs. Burbank, Denver, Harvey, Leet, Parks, Phelps, Rhodes, and Shafter—8.

So the motion prevailed, and the amendments were concurred in.

The question then being on concurring in the amendment excepted by the motion of Mr. Ryan, the ayes and noes were demanded by Messrs. Burbank, Phelps, and Shafter, and taken with the following result: Ayes, 4—noes, 19 :

AYES—Messrs. Burbank, Denver, Leet, Rhodes, and Shafter—4.

NOES—Messrs. Chase, De Long, Eagan, Edgerton, Franklin, Gallagher, Haynes, Irwin, Parks, Phelps, Ryan, Sharp, Thornton, Vance, Warmcastle, Watkins, Watson, Watt, and Williamson—19.

So the Senate refused to concur in the amendment excepted by the motion of Mr. Ryan.

Mr. Eagan moved to reconsider the vote by which the Senate refused to concur in the excepted amendment.

Mr. Edgerton moved to indefinitely postpone the motion to reconsider.

Which motion was put and carried.

So the motion to reconsider was indefinitely postponed.

Mr. Parks gave notice that he would, on to-morrow, move to reconsider the vote just had, by which the Senate indefinitely postponed the motion to reconsider the vote by which the Senate refused to concur in Assembly amendment to section twenty-four of the bill.

The Chair ruled the notice out of order, that the motion could not be entertained.

Mr. Shafter appealed.

The question then being, "Shall the decision of the Chair stand as the judgment of the Senate?" was put and carried.

So the Chair was sustained.

Mr. Clark in the Chair.

The constitutional amendments were then taken up, and acted upon as follows:

PROPOSED AMENDMENTS TO THE CONSTITUTION.

The Legislature of the State of California, at its Twelfth Session, commencing on the seventh day of January, A. D. eighteen hundred and sixty-one, propose the following amendments to sections two, three, five, six, and thirty, and the abrogation of sections thirty-two and thirty-six of article four of the Constitution.

ARTICLE IV.

Sec. 2. The sessions of the Legislature shall be biennial, and shall commence on the first Monday of January next, ensuing the election of its members, unless the Governor of the State shall in the interim convene the Legislature by proclamation. No session shall continue longer than ninety days, unless the time be extended by a Joint Resolution, to be passed by a majority of each House.

Sec. 6. The number of Senators shall not be less than one-third, nor more than one-half, of that of the members of the Assembly; and at the first session of the Legislature, after this section takes effect, the Senators shall be divided by lot as equally as may be, into two classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, so that one-half shall be chosen biennially.

No county shall be divided in forming a Congressional, Senatorial, or Assembly, District, so as to attach one portion of a county to another county; but the Legislature may divide each county into as many Congressional, Senatorial, or Assembly, Districts, as such county may by apportionment be entitled to.

Sec. 39. Sections thirty-two and thirty-six of said article four are hereby abrogated and annulled, and in order that no inconvenience may result to the public service from the taking effect of the amendments proposed to article four by the Legislature of eighteen hundred and sixty-one, no officer shall be suspended, or superceded, thereby until the election and qualification of the several officers provided for in said amendments.

Upon the adoption of the foregoing proposed amendments to article four of the Constitution, the ayes and noes were taken with the following result: Ayes, 22—noes, none:

AYES—Messrs. Clark, Denver, Dickinson, Eagan, Edgerton, Franklin,

Gallagher, Harvey, Haynes, Heacock, Hill, Leet, Logan, Merritt, Parks, Phelps, Rhodes, Sharp, Thornton, Watkins, Watson, and Watt—22.

NOES—None.

So the amendments were adopted as above.

The Legislature of the State of California, at its Twelfth Session, commencing on the seventh day of January, A. D. eighteen hundred and sixty-one, propose the following amendments to sections second, eighteenth and nineteenth, of article five of the Constitution.

ARTICLE IV.—EXECUTIVE DEPARTMENT.

Sec. 2. The Governor shall be elected by the qualified electors at the time and places of voting for members of the Assembly, and shall hold his office four years, from and after the first Monday in January subsequent to his election, and until his successor is elected and qualified.

Sec. 18. A Secretary of State, a Controller, a Treasurer, an Attorney General, and a Surveyor-General, shall be elected at the same time and places, and in the same manner as the Governor and Lieutenant-Governor, and whose term of office shall be the same as the Governor.

Sec. 19. The Secretary of State shall keep a fair record of the official acts of the Legislature and the Executive Department of the Government, and shall, when required, lay the same, and all matters relating thereto, before either branch of the Legislature, and shall perform such other duties as may be assigned him by law; and in order that no inconvenience may result to the public service from the taking effect of the amendments proposed to said article five, by the Legislature of eighteen hundred and sixty-one, no office shall be superceded, or suspended, thereby until the election and qualification of the several officers provided for in said amendments.

Upon the adoption of the foregoing proposed amendments to article five of the Constitution, the ayes and noes were taken with the following result: Ayes, 25—noes, none:

AYES—Messrs. Chase, Clark, Denver, Dickinson, Eagan, Edgerly, Franklin, Gallagher, Harvey, Haynes, Heacock, Hill, Leet, Logan, Merritt, Parks, Phelps, Rhodes, Ryan, Shafter, Sharp, Thornton, Warnecke, Watkins, and Watt—25.

So the amendments to Article five of the Constitution were adopted as above.

The Legislature of the State of California, at its Twelfth Session, commencing on the seventh day of January, A. D. eighteen hundred and sixty-one, propose the following amendments to article sixth of the Constitution:

ARTICLE VI.—JUDICIAL DEPARTMENT.

Section 1. The judicial power of this State shall be vested in a Supreme Court, in District Courts, in County Courts, in Probate Courts, and in Justices of the Peace, and in such Recorders, or other inferior courts, as the Legislature may establish in any incorporated city, or town.

Sec. 2. The Supreme Court shall consist of a Chief Justice and four Associate Justices. The presence of three Justices shall be necessary for the transaction of business, excepting such business as may be done in Chambers, and the concurrence of three Justices shall be necessary to pronounce a judgment.

Sec. 3. The Justices of the Supreme Court shall be elected by the

qualified electors of the State, at special elections, to be provided by law, at which elections, no officers other than judicial, shall be elected. The first election for Justices of the Supreme Court shall be held in the year eighteen hundred and sixty-three. The Justices shall hold their offices for the term of ten years, from the first day of January next after their election; *provided*, that the Legislature of eighteen hundred and sixty-three shall by joint ballot designate one of the five Judges as Chief Justice, and so classify them that one Justice shall go out of office every two years. After the first election the Chief Justice shall be designated by the Justices.

Sec. 4. The Supreme Court shall have appellate jurisdiction in all cases in equity; also, in all cases of law which involve the title, or possession, of real estate, or the legality of any tax, impost, assessment, toll, or municipal fine, or in which the demand, exclusive of interest, or the value of the property in controversy, amounts to three hundred dollars; also, in all cases arising in the Probate Court; and also, in all criminal cases. The court shall also have power to issue writs of *mandamus*, *certiorari*, prohibition, and *habeas corpus*, and also all writs necessary, or proper, to the complete exercise of its appellate jurisdiction. Each of the Justices shall have power to issue writs of *habeas corpus* to any part of the State upon petition on behalf of any person held in actual custody, and may make such writs returnable before himself, or the Supreme Court, or before any District Court, or any County Court, in the State, or before any Judge of said courts.

Sec. 5. The State shall be divided by the Legislature of eighteen hundred and sixty-three into a convenient number of Judicial Districts, subject to such attention from time to time as the public good may require, in each of which there shall be a District Court, and for each of which a District Judge shall be elected by the qualified electors of the district, at the special judicial elections, to be held as provided for the election of Justices of the Supreme Court by section three of this article. The District Judges shall hold their offices for the term of six years, from the first day of January next after their election.

Sec. 6. The District Court shall have original jurisdiction in all cases in equity; also, in all cases at law which involve the title, or possession, of real property, or the legality of any tax, impost, assessment, toll, or municipal fine, and in all other cases in which the demand, exclusive of interest, or the value of the property in controversy amounts to three hundred dollars; and also in all criminal cases not otherwise provided for. The District Courts and their Judges shall have power to issue writs of *habeas corpus*, on petition by, or on behalf of, any person held in actual custody in their respective districts.

Sec. 7. There shall be in each of the organized counties of the State a County Court, for each of which a County Judge shall be elected by the qualified electors of the county at the special judicial elections, to be held as provided for the election of Justices of the Supreme Court by section three of this article. The County Judges shall hold their offices for the term of four years, from the first day of January next after their election.

Sec. 8. The County Courts shall have original jurisdiction of actions of forcible entry and detainer, of proceedings in insolvency, of actions to prevent or abate a nuisance, and of all such special cases and proceedings as are not otherwise provided for; and also, such criminal jurisdiction as the Legislature may prescribe. They shall also have appellate jurisdiction in all cases arising in courts held by Justices of the Peace, and Re-

orders, and in such inferior courts as may be established in pursuance of section one of this article, in their respective counties. The County Judges shall also hold, in their several counties Probate Courts, and perform such duties as Probate Judges as may be prescribed by law. The County Courts and their Judges shall also have power to issue writs of *habeas corpus*, on petition by, or on behalf of any person in actual custody in their respective counties.

Sec. 9. Mr. Vance made the following majority report from the Special Com-
mittee on Copying :

Mr. PRESIDENT:—Your committee, appointed to investigate and ascer-
tain the amount of copying done for the Senate, under resolution of the
Senate, passed the fourteenth instant, beg leave to make the following
report :

Your committee find, after a thorough investigation, as follows :

[A]

Amount paid for copying, by resolution of the Senate.....	\$8,407 11
Amount of copying.....	5,494 10
Showing a deficit of.....	\$2,913 01

From the evidence that has been before your committee, we are satis-
fied that, neither the Committee on Public Expenditures, or the Secretary
of the Senate, were cognizant of the fact that a greater amount had been
allowed for copying than was actually due ; and whatever wrong may
have been done, has been caused by unintentional neglect on their part.

From the evidence, we arrive to the conclusion that S. Wittgenstein has
received more for his services than he was entitled to. We are also

informed, that third parties hold certificates, or drafts, for a portion of the above amount; and we are of the opinion that the State has no honorable way of avoiding the payment of said claims, and would recommend the following resolution :

Resolved, That the Controller of State be, and is hereby, directed to withhold his warrant for any part of the said amount, which is not in the hands of third parties at the time.

All of which is respectfully submitted.

J. M. VANCE,
Chairman.

There has been allowed to the Secretary of the Senate the following amount :

[B]

For copying	\$8,407 11
Of this sum there has been paid	5,000 00
Leaving unpaid, and which is now outstanding, in the form of orders, drawn by the Secretary of the Senate upon the Controller, in favor of sundry persons.....	\$3,407 11

The committee find that the above sum of five thousand dollars was paid to, or upon, the order of said Secretary ; and that the above sum of three thousand four hundred and seven dollars and eleven cents was drawn for, by him, under the following circumstances : Early in the session of the Legislature, upon the recommendation of various members of the Senate, the Secretary appointed Samuel Wittgenstein to the place of Copying Clerk of the Senate, under an agreement with said Wittgenstein to do, or cause to be done, all the copying required by the law, or order of the Senate, to be done ; to receive the pay therefor, and to account to such Secretary as a reservation to himself of three cents per folio.

It is further found that said Wittgenstein presented his account for copying to — Kendal, Clerk to the Senate Committee upon Public Expenditures, who rendered a blank report thereon to some one of said committee, by whom it was reported to the Senate. This account, thus rendered, was the basis of settlement between the Secretary and said Wittgenstein, and there is no evidence that said Secretary had any other

knowledge, or complicity, with the affair of the public copying. As to the extent of supervision exercised by the Committee upon Public Expenditures over this subject, as the several members thereof have, each for himself, in open Senate, declared the same, no statement is here deemed necessary.

The committee endeavored, in every way which suggested itself, to obtain all the information possible as to the amount of copying actually done, and meeting with a claim for what is called constructive copying, have endeavored to ascertain the extent of that claim, as involved in the copying account of this session.

As ascertained, by the testimony given before the committee, and from information furnished by the officers, and journals of the Senate, the Expert appointed by the committee has compiled the following tabular statement of copying, for which payment has been allowed, as above stated, which original statement is annexed, and marked A.

The undersigned beg to present this statement in a little different arrangement, viz :—

Bills, Resolutions, and Reports of Committees, copied for the Printer, folios.....	4,665
Same, copied for Appendix, folios.....	4,665
Same, copied in Appendix, for Printer, folios.....	4,665
Writing copy in Appendix, folios.....	4,665
Copying Reports in Spanish, for Printer, folios.....	1,918
Copying for Journals, folios.....	5,278
Copying for Journals, for Printer, folios.....	5,278
Copying for Appendix, folios.....	5,295
Copying in Appendix, folios.....	5,295
Amount in folios.....	41,757
Which, computed at ten cents, amounts to.....	\$4,175 70
Copying in Journals five thousand two hundred folios, at fifteen cents per folio, amounts to.....	791 70
	\$4,967 40

In hearing the above statement, the Senate ought to be satisfied that a fair attempt has been made by the committee to obtain all the information accessible. Upon this point, it is enough to say, the law declares that this copying "shall be performed under the supervision and direction of the Secretary of the Senate," and that when so performed, "it shall be audited and certified to by the Committee on Public Expenditures and Accounts." It is believed that, from both the above indicated sources of information, all the facts were obtained of which they were in possession. The committee examined the manager and overseer of the State Printer, and the only Copying Clerk remaining in Sacramento. The principal copying clerk, Wittgenstein, could not be found by the Sergeant-at-Arms, who sought for him, with a subpoena, he having left Sacramento, as the committee believes, from statements made to one of their number, by him, for the purpose of evading such examination.

No trace of a claim for any other copying than the foregoing, could be ascertained, or was alleged to exist.

The undersigned propose to state and expose, the pretensions and erroneous character of this claim.

The first item of the account is for four thousand six hundred and sixty-five and three-fourth folios of bills, copied for the Printer. This copying, if done, is, doubtless, correct. This charge is, however, repeated "for the Appendix" copy of the Appendix for Printer, "and writing copy in Appendix." These three repetitions are without any foundation, whatever, the bills, etc. offered in, and acted upon, by the Senate, forming no part of the Appendix. Here, then, are thirteen thousand nine hundred and ninety-seven and one-fourth folios, the charge for which, has no foundation, either in law, fact, or "construction."

Next in order, is a charge for copying one thousand nine hundred and forty-eight folios of Spanish documents.

It will be recollected that Mr. Liés is the State Translator, residing in San Francisco. Can it be believed that this gentleman, with an earnest desire to furnish the translations of public documents to the public at the earliest possible moment, and in the face of the fact that, even to copy a document in Spanish, requires, at least, a respectable knowledge of the language, and in the face of the further fact that these documents were all in print, in English, should wait for, first, a written copy of the English printed document, and then, after translation, the Printer should further wait until Wittgenstein should copy Mr. Liés' translation for him.

The present State Librarian has fixed this matter in his testimony.

The English document was never copied at all for Mr. Liés, he translating from print, and furnishing his translation directly to the Printer, and himself correcting proof.

This whole charge of one thousand five hundred and forty-eight folios is without foundation.

The charge next in order is, copying Journals. A question arises as to the actual number of folios in the Journals. The Expert, counting detached lines upon different pages, and averaging them, arrives at the result of five and twenty-two hundredths folios. Mr. Leet, of the former committee and the undersigned, by counting entire pages, and averaging them, arrive at a greatly diminished result.

The Journal alluded to, is the final record of the daily proceedings of the Senate, and, it is confidently believed, that three and one-half to four folios is a liberal allowance per page.

But, allowing the quantity to be correct, the claim is still indefensible. The course of practice as to keeping the Journal is proper; the charge alone is objected to. That practice is as follows: The entire translations are jotted down as business proceeds. This initiatory record is just what the necessary haste makes it, mere headings, and half expressed statements of what is done, and by whom. This "penciling by the way," after the close of the day, is put into proper form, in a paper book, and is read as "the Journal" in the Senate, and is signed by the President.

This original paper is first charged as "copying for Journals." To this it is answered, it is a copy of nothing, it is the original Journal, to make and keep which, is the direct duty of a Clerk, who is paid by the day. This same paper is, then, actually copied into the Journal book. This is charged as "copying in the Journals." It is specifically mentioned in the statute; a larger compensation is allowed for this copying than any other, for the reason, undoubtedly, that as it is the final record of this body, extra pains should be taken in making it.

The next charge is, "copying the Journals for the Printer."

It might well be asked, why the copy, which is claimed to have been

"made for the Journal," and the text of which is literally reproduced in the Journal, might not be carried to the Printer, instead of making a new copy of a copy of what purports to be a copy of an original. And it may be further asked why the Journal read in the Senate might not be itself carried into a room below, there copied into the Journal book, and then carried to the State Printer. This only sensible and business like way, is shown by the proof to be the one actually adopted. The Journal so read in the Senate, subserving, in fact, all the desired purposes, the copies charged at ten thousand five hundred and fifty-six folios having no existence whatever.

The final item of five thousand two hundred and ninety-five folios for "copying Appendix," procured the result ascertained by Mr. Leet, of the former committee. The undersigned do not consider the amount of the Appendix as ascertainable with entire accuracy. The doubts expressed by that Senator, were entertained, to some extent, by the Expert. The undersigned are, therefore, disposed to let this item stand.

This item is, however, repeated as "copying Appendix." This, in part, is manifestly incorrect. All documents ordered printed by either House, in book, or pamphlet, form, are required to be so printed in excess of five hundred copies, for the very purpose of being bound into such Appendix. In the above account, one thousand nine hundred and forty-eight folios having been once copied and printed, no new copy is wanted, or could be used, if furnished. Deducting this amount, leaves only three thousand three hundred and forty-seven folios which it appears necessary to copy. It is believed, however, that this greatly overstates the fact.

The reports of Superintendent of Schools, and other public institutions, are published in printed book form, and are so furnished to the State.

The undersigned, therefore, are disposed (letting the estimate of the Expert stand as to quantity of copy), to state the account, as follows :

Copy of Bills, etc., for Printer, ordered by the Senate, folios..	4,665½
Copying Appendix for Printer, folios.....	3,347
Amounting to, folios.....	8,012½
Copying into Appendix, folios	5,295
Copying into Journals, folios,.....	5,278
Amounting to, folios	10,573
The amount of the first, at ten cents per folio, is.....	\$801 28
The amount of the second, at fifteen cents per folio, is.....	1,585 95
Total.....	\$2,487 23
Showing, as a result, an overdraft and payment of.....	5,919 88

As the former report, made by Senator Leet, has been referred to us, we have to state, that the substantial difference between his statement of details and ours, is to be attributed to his adding twenty-five per cent. to his estimates, or counts, and to our rejection of all constructive copying. The estimate above given, being that of the Expert, is about Mr. Leet's, after adding the twenty-five per cent.

There remains the question whether, as matter of law, there is any right to claim for a service which has never been performed. Article two thousand nine hundred and forty-nine, of Wood's Digest, requires the Secretary of the Senate to furnish the State Printer, every day, during the session, a copy of the day's proceedings. This statute no where requires that a copy shall be made for the specific use of the Printer, it is enough if he has a copy, no matter what service it may have rendered before it came to his use, or what purpose it may subserve after he has put it in type. The same is true of any other document.

The statute prescribes that, "for all copying for the Printer," a fee shall be paid. It is not the fact that the Printer obtains the information necessary to enable him to reproduce a document in print, that entitles an office to pay. It is a certain specified act, viz: the reproduction, on one piece of paper, of written, or printed, characters on another, which satisfies the term, copying, in the statute, or, in ordinary business. It might be as well claimed, that if an office, having a public record in charge, should produce the record in court, as evidence, he would be entitled to charge for a certified copy of such record, upon the ground he had made a copy, by simply enabling a court to look at the original record.

It is said that the pretension herein attempted to be exposed, has the sanction of precedent from the foundation of the State, and that the absent Wittgenstein has brought to his aid, this year, skill acquired in former relations to the Legislature. If this be true, we are bound to be, at least, ignorant that it was with the knowledge of those in power. The Journals of last session, at least, state, that all these accounts were "examined, audited, and allowed," and with one or two partial exceptions, only, they show that the Secretary of this body rendered his accounts, with a specification, of the folios alleged to have been copied.

The undersigned are unable to find, from the proof, that the Secretary of the Senate has, in any manner, been guilty of complicity with the subordinates who have perpetrated the outrage complained of. But we cannot forbear saying that, by the statute, it was his duty to have supervised this copying, and that this duty was made more imperative from the fact that the peculating party was his own appointee, for whose integrity his own was, to some extent, pledged.

We are further obliged to say that, under the circumstances, we cannot recommend any steps which shall relieve the Secretary from personal liability. It is found that three thousand four hundred and seven dollars and eleven cents of the copying account is outstanding, as before stated. We do not consider that the State is either legally, or equitably, bound to pay such drafts. We are further satisfied that Samuel Wittgenstein is guilty of the crime of procuring money of the State by false tokens, and under false pretenses, and we recommend that the District Attorney of this city and county be requested to institute a criminal prosecution against him, and, also, to take such steps to recover the money thus received wrongfully of the State, by a civil action, if, in his discretion, he shall think such action maintainable. We are further satisfied that the Clerk of the Committee upon Public Expenditures, C. W. Kendal, if not guilty of full participation with said Wittgenstein, has been greatly imposed upon by him, and that he has failed in performing the duties intrusted to him; and that said Wittgenstein be at once discharged from the public service.

Disagreeable as is the task, duty requires one thing further. It was, in our judgment, the undoubted duty of the Committee upon Public Expenditures to have personally examined these accounts, to have "audited,"

in short, to have given them that thorough examination, which would have been given in a trial at law. But it must be borne in mind that, upon question made, following the lead of a Senator himself, last year, a member of this committee, and in the face of statements made by different members of the committee, that, from being otherwise occupied, they could not, or, from other reasons, they would not, perform this particular duty, and against the opposition of other members, who stated, prophetically, the precise difficulties to the Senate itself, upon the ground that this was "a clerical duty," in the face of a phrase peculiar to a judicial function, appointed this Clerk, who, to say the least, has done not a single duty of the place properly.

The undersigned recommend the passage of the accompanying resolutions.

J. McM. SHAFER.

I concur in the above report, with the exception of the recommendation as to withholding payment for the outstanding claim of three thousand four hundred and seven dollars and eleven cents.

CONSIDERATION OF ASSEMBLY MESSAGE.

Senate Bill, No. 401, above reported—was taken up, and the Senate refused to concur in Assembly amendments thereto.

Senate Bill, No. 407, above reported—was taken up, and Assembly amendments thereto, concurred in.

The proposed amendments to article five of the Constitution—were then taken up, and Assembly amendments thereto, read and concurred in.

Assembly amendments to article six of the proposed amendments to the Constitution—were then taken up and concurred in, except the amendment in relation to naturalization, and the amendment prohibiting the Legislature from granting leave of absence to Judicial Officers, which two amendments the Senate refused to concur in.

Assembly Bill, No. 321, above reported—was read first and second times.

Mr. De Long moved to indefinitely postpone the bill.

Upon which motion, the ayes and noes were demanded by Messrs. Vance, Harvey, and Leet, and taken with the following result: Ayes, 9—noes, 14:

AYES—Messrs. De Long, Eagan, Haynes, Irwin, Logan, Parks, Ryan, Watson, and Williamson—9.

NOES—Messrs. Burbank, Denver, Dickinson, Franklin, Gallagher, Harvey, Heacock, Hill, Leet, Rhodes, Shafter, Vance, Warmcastle, and Watt—14.

So the Senate refused to indefinitely postpone the bill.

Mr. De Long then moved to make the bill the special order for Monday, May twentieth, at eleven and a half o'clock, A. M.

Upon which motion, the ayes and noes were demanded by Messrs. Burbank, Gallagher, and Leet, and taken with the following result: Ayes, 12—noes, 14:

AYES—Messrs. Chase, Clark, De Long, Eagan, Haynes, Irwin, Logan, Parks, Ryan, Watkins, Watson, and Williamson—12.

NOES—Messrs. Burbank, Denver, Dickinson, Franklin, Gallagher, Harvey, Heacock, Hill, Leet, Rhodes, Shafter, Vance, Warmcastle, and Watt—14.

So the Senate refused to make the bill the special order for Monday next.

Mr. De Long then moved to refer the bill to a Select Committee of three, with special instructions.

Lost.

The question recurring on the passage of the bill, the ayes and noes were demanded by Messrs. Burbank, Vance, and De Long, and taken with the following result: Ayes, 16—noes, 10:

AYES—Messrs. Burbank, Chase, De Long, Denver, Dickinson, Franklin, Gallagher, Harvey, Heacock, Hill, Leet, Rhodes, Shafter, Vance, Warmcastle, and Watt—16.

NOES—Messrs. Clark, Eagan, Haynes, Irwin, Parks, Ryan, Thornton, Watkins, Watson, and Williamson—10.

So the bill passed.

Mr. De Long gave notice that he would, on Monday, move to reconsider the vote by which the bill passed.

The Chair directed the Secretary to take the notice.

Mr. Shafter appealed from the decision of the Chair, in ordering the notice to be taken, on the ground that Mr. De Long was not in his seat when he arose to make the motion.

The question then being, Shall the decision of the Chair stand as the judgment of the Senate? the same was put and lost.

So the Chair was not sustained.

Immediately after the Chair announced the vote of the Senate on the appeal, several Senators arose and addressed the Chair at the same instant.

The Chair recognized Mr. Ryan, who gave way to Mr. De Long.

Mr. Shafter again appealed from the decision of the Chair, in giving the floor to Mr. Ryan, on the ground that when the Chair before recognized Mr. De Long, upon which the appeal was taken, Mr. Vance was the disputant for the floor; and that by the ruling of the Senate on the appeal, in declaring that Mr. De Long was not entitled to the floor, they had, in effect, decided that Mr. Vance was entitled to the floor; therefore, Mr. Ryan was not entitled to the floor, but Mr. Vance was.

The question then being, Shall the decision of the Chair in awarding the floor to Mr. Ryan, stand as the judgment of the Senate? the ayes and noes were demanded by Messrs. De Long, Vance, and Ryan, and taken with the following result: Ayes, 13—noes, 9:

AYES—Messrs. Chase, Clark, De Long, Eagan, Haynes, Logan, Parks, Ryan, Thornton, Watkins, Watson, Watt, and Williamson—13.

NOES—Messrs. Burbank, Denver, Frankiin, Harvey, Hill, Leet, Rhodes, Shafter, and Vance—9.

So the Chair was sustained.

Mr. Ryan again arose and was recognized by the Chair, and then gave way to Mr. De Long, who again gave his notice of reconsideration.

Mr. Parks, to whom was referred Assembly Bill, No. 362, An Act amendatory of An Act concerning Lawful Fences—reported the same back verbally, with a recommendation that the bill pass.

Report received, rules suspended, bill read a third time by title and passed.

Mr. Clark, by unanimous consent, introduced a bill for An Act concerning certain Officers in the City and County of Sacramento.

Read first and second times, rules further suspended, bill considered engrossed, read a third time and passed.

The Forty-Fifth Rule was also suspended, and the Secretary directed to report the bill to the Assembly forthwith.

Assembly Bill, No 547, An Act making Appropriations for the Support of the Civil Government of this State—was taken up and considered in Committee of the Whole, and amended.

IN SENATE.

Mr. Logan moved to amend, by adding the following to section one:

“In addition to the sum of money heretofore appropriated in payment of services to be rendered by the Commissioners and Clerk of the California War Debt, as provided by an act entitled An Act relating to the California War Debt, approved May sixth, eighteen hundred and sixty-one, the sum of six thousand dollars is hereby appropriated out of any money or bonds which may be received from the General Government on account of moneys due from the United States to the State of California, and which may be received by the State on the settlement to be made by said Commissioners, the same to be paid by the Treasurer of State upon the requisition of said Commissioners so soon as they shall have effected a settlement with the General Government for the moneys appropriated by Act of Congress, and the amount found due to the State shall have been paid by the United States.”

Upon which the ayes and noes were demanded by Messrs. Burbank,

Watt, and Parks, and taken with the following result: Ayes, 12—noes, 9:

AYES—Messrs. Clark, De Long, Haynes, Hill, Irwin, Lect, Logan, Ryan, Vance, Watkins, Watson, and Williamson—12.

NOES—Messrs. Burbank, Dickinson, Franklin, Harvey, Parks, Rhodes, Shafter, Thornton, and Warmcastle—9.

So the amendment was adopted.

The amendments made in Committee of the Whole were then concurred in.

Mr. Denver then moved to strike out six hundred dollars for pay of Porter for the Governor's office, and insert three hundred dollars.

Agreed to.

The bill was then read a third time, and passed as amended.

Mr. Eagan, by leave, introduced a bill for An Act relative to Notaries Public.

Read first and second times, rules further suspended, bill considered engrossed, read a third time and passed.

The Forty-Fifth Rule was also suspended, and the Secretary directed to report the bill to the Assembly forthwith.

Mr. Heacock made the following report:

Mr. PRESIDENT:—Your Enrolling Committee have this day examined and find correctly enrolled:

MESSAGE FROM THE ASSEMBLY.

The following message was received from the Assembly:

ASSEMBLY CHAMBER,

On motion of Mr. Ryan, leave of absence was granted to Mr. Thomas until the meeting of the next Legislature.

ASSEMBLY CHAMBER,
May 20th, 1861. }

Mr. PRESIDENT:—The Assembly has, this day, adopted a Concurrent Resolution, appointing a committee of three from each House, to wait upon the Governor and inform him that the Legislature is ready to adjourn *sine die*, and have appointed Messrs. Magruder, Powell, and Cherry, committee on the part of the Assembly.

Mr. Clark, Chairman of the Select Committee appointed to wait upon the Governor and inform him of the readiness of the Legislature to adjourn *sine die*, made a verbal report, informing the Senate that the committee had performed the duty assigned them, and that the Governor had no further communication to make to the Legislature.

The Secretary, by the direction of the Chair, then read the Concurrent Resolution fixing the twentieth of May, at twelve o'clock, noon, for the adjournment of the Legislature *sine die*—

Whereupon, the President *pro tem*. Mr. Irwin, addressed the Senate as follows:

SENATORS:—I thank you, from the bottom of my heart, for the kind favors you have done me. We have represented on this floor, three different and sharply defined parties, and many questions have come up for discussion which have been well calculated to excite earnest partisan feeling; and sometimes it may have been possible, I, with the rest, both on the floor and in this chair, have exhibited some improper warmth. If I have erred in this respect, the error, you may rest assured, has been unintentional. I have endeavored to cultivate kind personal relations with every Senator, to win his respect, to do him exact justice; and if I thought I had given offense to either, it would cause me more regret than the gentleman offended. In parting with you, Senators, and without duly adverting to the melancholy political differences which now distract the country, I hope that among those who have greeted each other, day after day, during the present session, there will always be a cordial union of hearts, and that when those of us who may, in the fulfillment of our duty and in the Providence of God, meet again next Winter, we may find the war-cloud gone, and this great Republic, the hope of the good men of all Christendom, reunited in mutual confidence and brotherly love. It is probable that, upon this floor, we represent every section of the United States; and as, during the last few months, we have known no distinction of sections, each only vying with the other to do more good for the people and add more glory to the State, so let us ardently hope may the rulers at the East shape their purposes that when the representatives of California meet again, they may find that not a star has been erased from our flag, and not a citizen has been deprived of his proprietorship in this great Union of States. I now declare this Senate adjourned, *sine die*.

RICHARD IRWIN,

President *pro tem.* of the Senate.

Attest; DAVID J. WILLIAMSON, Assistant Secretary of the Senate.
